Terms are cash. The cattle sell under the standard terms and
 conditions of the North American Limousin Foundation.

SUPPLEMENTAL INFORMATION

Updated information on certain lots will be available sale day.

ANNOUNCEMENTS

Announcements made sale day and from the auction block
 during the sale will take precedence over printed material
 in this catalog or other printed material associated with the sale.

Where a Handshake and One's Word Still Holds Value

Dear Progressive Cattlemen

Normally, the tradition for a letter from a seedstock producer in a bull sale catalog is to start off first with an invitation to the sale. For this bull sale, my invitation for you to attend is tied in with my appreciation and my THANKS for trusting us, supporting us, and planting a seed of friendship that has blossomed for 34 years. Those blossoms have been beautiful... Thank You!

IT'S NOT OVER...

Great genetics are NEVER over. They carry on for years to come. If you are one of our regular bull customers, you have witnessed and have experienced the proof. If you have not used Schott Limousin genetics, every important aspect you should know about a valuable seedstock producer is mentioned in the following pages.

To those of you who shared your appreciation a "THANK YOU" does not cover it all. The next three letter word should help... WOW!

This is not just a casual bull sale invitation and letter. Quality of genetics and all other important aspects of a seedstock producer are represented in this letter and catalog. I know these aspects are important to you.

With this set of bulls, the quality with the first bull in the ring to the last is of pleasing quality. Our lowest weaning weight is 632 pounds and our heaviest is 846 pounds, with an overall average around 710 pounds; and all with an above average to great disposition.

This is your last opportunity to attend and purchase at public auction the Schott Limousin genetics that will last in your herd for years to come. As you page through and read this catalog, you will witness our program, our word, and our guarantees are second to NONE!

Those who supported us at the very beginning and continued until their passing away, I won't forget. Without them we would not have been able to continue for 10 years, let alone for 34 years. To those of you who supported us at our cow dispersal, none of it was in a little way regardless of the number you purchased. To those of you who contributed to this bull sale catalog or questioned with concern of us quitting the bull business, yet shared your encouragement, we have to say it's an extremely REWARDING way to end our 34 years of helping you PEOPLE feed the world.

Again, to say "THANK YOU" just doesn't cut it.

It is humbling, it is heartwarming, and yes, it is worth more than money.

A big thank you to Kiley McKinna of MC Marketing Management for his professional help with our cow dispersal and bull sale.

Respectfully,

Jim and Priscilla and our HARDWORKING FAMILY...

Jared, Lisa and Jaxson (Joshua on the way)

Jason

Vickie and Jason Dowdy

- Top 35% CE, 10 % WW, 15% RE, 20% YG

Study the lineage of this royally bred black, polled Purebred herd sire. Xtractor, Titus, Myrlene, Stetson, Wulf Hunt—you can't breed one much better. What's more, he posted an impressive 846-lb. Adj. WW and as such ranks in the top 10% of the breed for WW. His REA ranking in the top 15% and YG ranking in the top 20% verify the fact he will produce the kind of pounds that pay. Visually, he is extra stout featured as you study him at the ground, through the rear portion of his quarter and down his top. Structurally, he is exceptionally hard footed, free striding and athletic when put in motion. Folks the bottom line is, here is an exceptional lead herd sire prospect that not only offers you pedigree and numerical advantages, but also a phenotype even the most discriminating cattlemen can appreciate. It's with great adulation we are proud to place this individual on offer for your appreciated appraisal.

2 CHTT DOUBLE VALUE 6665D

- Top 30% CE, 15% BW, 20% DC

All indications are CHTT Double Value 6665D, a black, polled purebred son of RUNL Atlantis 323A, will calve easy. Take a look at his top 30% ranking for CED and top 15% ranking for BW. That's on top of his actual birth weight of 73 lbs. Let's take it one step further, from a conformation standpoint. Double Value is exceptionally well balanced because he's flat shouldered, long bodied, level hipped and projects all the features you'd expect in a herd bull prospect destined to be utilized as a lead calving-ease sire. That said, I think you'd agree as fellow astute cattlemen there is nothing more important than a live calf and Lot 2 promises to deliver just that. On March 21 if you're in demand of a sure-fire heifer-bull, bid with confidence on this outstanding prospect.

Up next is a black, double polled purebred son of our home-raised herd bull, CHTT All Terrain 6361A. We are impressed with the progeny out of this lead herd bull who goes back to both Wulfs Urban Cowboy and HC Montana Justice. In this son we have faith in his pedigree and also like the fact he ranks high in terms of his EPDs for WW, MA, CEM, REA and YG. To the eye, Dinner Bell certainly rings a bell in terms of his structural integrity, rib shape, body depth and natural thickness. He's an individual who impresses you visually in all aspects. That said. It's with little doubt we think this outstanding son of All Terrain will be on many short lists sale day. Bid with confidence.

CHTT The Duke 7676D, a red, polled purebred, is in simple terms, a tank. From a phenotype standpoint, you simply have to appreciate his rugged design, structural quality, muscle expression and rib shape. Furthermore, this son of RUNL Alliance 272A back to a daughter of Unlimited x Sure Shot, posts and impressive WW EPD of 74 and an equally impressive Adj. WW of 808 lbs. It's with out a shadow of a doubt, this high performance individual projects to sire heavy weight calves which, promises exceptional pay window results. Don't overlook The Duke sale day—he's simply one of our finest.

• Top 10% BW, 2% MK, 15% CM, 15% YG

CHTT Decoy 6624D is a black, polled purebred bull with tons of maternal ability bred in. The bottom side of his pedigree boasts both Schott's Pillar and Sure Shot, two bulls who made their mark in our herd siring females with the utmost producing ability. His low BW EPD and high Milk and EPD suggest he too will sire replacement quality females.

Breeding cattle is all about balance and CHTT Dakota Made 9630D has just that. This black, polled purebred has a pedigree balanced with both performance and maternal ability, while his EPD set is incredibly balanced across the board. If you are looking to avoid extremes, Lot 6 deserves a second look.

A Testament to 34 Years of Quality Service

"I've had it with these bulls. I'm going to sell them all and start over."

"These are the words that started our search for the bull that inhabits our vision and dreams. We began our search for the genetics that would cause the buyers to remember our calves. Something we could be proud to produce. Our search was for genetics that could consistently wean calves over 700 pounds with a gentle attitude and that don't require an over-used calf puller. Our search for our dream bull took us to Schott Limousin Ranch where we met honest people with a vision and a passion like ours. Their genuine desire and vision to push for better cattle has caused them to produce quality cattle. They are truthful people that are determined to stand behind their product and their word. For nearly a decade we have driven more than 850 miles, one way, to purchase Schott bulls. These bulls have changed our herd genetics and set us on a more sure course. Our experience with Jim, Priscilla and Jared has been pleasurable. We have found them to be welcoming and honest people we have built a warm friendship with. Schott Limousin genetics have allowed us to move forward toward our goal of producing better cattle."

Jim and Donna Johnson - Ronan, MT

"We've been using Limousin bulls in our commercial herd for more than 25 years, and are always looking for the best available genetics. Last year, three Schott Limousin bulls found their way to our place in southern Idaho. We couldn't be more pleased with them. More impressive than the cattle, though, are the people at Schott Limousin Ranch. Jim Schott is as salt-of-the earth as they come. We have been treated like royalty and old friends since we first met Jim, and I know he treats all of his customers and friends with the same warmth and respect."

Paul Marchant - Oakley, ID

"I've had the privilege of buying bulls from the Schott family for 20 years. That said, all the bulls I have bought from them over the years and I mean all of them—I can say with confidence that I've never had a disposition problem, never had a bull melt on me, never had any foot issues and most importantly calving-ease has been a non-issue. To take it one step further, the people behind Schott Limousin Ranch—what we could write down doesn't do justice for Jim and his family. Without a shadow of a doubt, customer service is #1 at Schott Limousin Ranch. With each purchase, dealing with Jim himself and his guarantee, his word and his handshake are as good as GOLD! I've never had to have Jim replace a bull throughout the 20 years. Simply put, the dedication Jim and his family have to raising exceptional cattle and the cattle industry itself is outstanding. Jim doesn't treat you like a customer, he treats you like family!"

Scott Dockter, Dockter Limousin - Medina, ND

"It's hard to put into words how you have treated us over the years. Our family as a whole, has been doing business with you for 30 years, and figure there have been 245-250 of your bulls reach the Schrempf Ranch. In all that time, not one bull has needed to be replaced. We have always appreciated the gentle disposition of your bulls and the way that transferred over to the cows we kept as replacements. The cows have proven to be good, gentle mothers. We knew we could trust the performance EPDs. We rarely have to assist heifers when your bulls are used. The quality of our calves will stand with any in the state. On a personal level, you have always stood proudly by your bulls, and more importantly, by your word. A handshake was as good as a contract. We always knew we could count on you as a friend. I remember you showing up after the surprise October blizzard, horse in tow, to provide help to any that needed it. You are truly a kind and generous person, and it has been a privilege knowing you and doing business with you."

The Dean Schrempf family - Lantry, SD

"We have been using Schott bulls for around 15 years. The bulls always have a lot of length and a good hip with a lot of natural thickness. The disposition has been excellent as wild animals are a thing of the past with the Limousin breed. We keep heifers back every year and given their calving-ease, the heifers do it on their own. No pulling calves on the cows or the heifers. We have noticed the longevity on these cows. Good feet and udders. Still producing at 14+ years old. The Schott guarantee is one of the best around. A few years ago we had a couple 2-year-olds that didn't test at turn out. Jim had some good bulls left to pick from. He made us a great deal on the two bulls we needed. Everyone will guarantee a yearling, but I don't know of anyone that will help with a 2-year-old. Working with the Schott family over the years has been great. Like Jim says, its about the people and a handshake and one's word still hold value. Hard to find these days."

Les and Curtis Ryckman - Pollock, SD

"I have purchased several bulls from Jim throughout the years. The bulls have always excelled in terms of calving-ease, longevity and muscle. There's little question, these are good honest bulls from a trustworthy family."

Todd Ellwein Family - Fredrick, SD

"At our farm we enjoy the disposition, calving-ease, and maternal traits that come with the bulls we have purchased from Jim. We are lucky to have as many bulls as we have from Jim over the years to improve our herd and the relationship we have with him. He is one-of-a-kind. Thank you Jim."

The Davis family - Page, ND

"I have used Jim's bulls for the past 13 years, purchasing 17 bulls over the years. Most of them had a very good disposition. Jim always stood behind them if I had trouble. The females I saved were good, easy-to-handle and good milkers. I harvested loads of fats at the Dem Kota Ranch Beef Plant in Aberdeen this year. They graded 83% Choice and weighed 1,550 lbs. It's been nice doing business with Jim."

Lee Kindelspire, Forbes, ND

LIMOUSIN TODAY PROFIT TOMORROW

**Limousin and Lim-Flex®
(Limousin x Angus hybrid)
deliver to your bottom line.**

- ⌘ Calving ease & calf vigor
- ⌘ More pounds to sell at weaning
- ⌘ Feed efficiency
- ⌘ Tested & proven docility
- ⌘ Cow & bull longevity
- ⌘ Carcass merit

"We have used Limousin for 30 years. They work in both the high and low elevations where we ranch. We retain our calves to finish when the market is right and have seen dressing percentages up to 67% with 75-85% Choice carcasses."

- Frank Daley, rancher,
New Castle, Colorado, and Haigler, Nebraska

PEOPLE

Lots 53-60 represent the most up-to-date genetics we have to offer. These open heifers are by proven AI sires or stout members of our bull battery and their mothers represented the core of our long-standing and productive cowherd. This group of open heifers are the kind you can build a program around. They are easy-fleshing, docile and have tons of maternal predictability bred in. Simply stated, they represent our breeding goals over the past 30-plus years in the seedstock business and we are proud to present them here for your appraisal. We are confident they will have long and fruitful careers as leading brood matrons for their new owners.

OPEN HEIFER

We elected to utilize this outstanding individual as our representative for this entire group of elite sale heifers. Specifically, CHTT 7652D is a red, polled purebred open heifer that has cow power written all over her. From a pedigree standpoint she is rock solid with the likes of Jock, Yankee, Soloist, Dire Strayts, Apostle and Sure Shot. Numerically, she ranks in the top 30% or better for 5 traits, highlighted by a MA EPD of 34. From a visual standpoint, she impresses in terms of structural quality, balance, rip shape and muscle pattern. Females with this kind of potential is what this business is all about and what has kept us in the business for more than three decades. We proudly place this entire set of heifers on offer for your appreciated appraisal March 21.
