Limousin Enthusiasts,

Welcome to the 2018 edition of the Heart Of Missouri Sale, October 14 at the Laclede County Fairgrounds in Lebanon, Missouri.

It is my pleasure to be associated with this fine group of Limousin seedstock producers in Missouri and surrounding states. This portion of Missouri has long been a stronghold for outstanding Limousin genetics, and we feel this offering represents the dedication of breeders in this area to propagate exception Limousin cattle.

As a team, we have worked hard to assemble an outstanding assortment of Fullblood, Purebred and Lim-Flex genetics for the most discerning cattleman. As you study this catalog, you will find some of the most unique and diverse genetics available within the breed.

If I can be of any assistance, please don't hesitate to contact me.

Sincerely,  
Kiley McKinna

## *Fall Bred Females | Pairs*

### **LOTS 1-31**

We couldn't think of a better way to begin the sale than with a truly outstanding set of fall bred females. Breeders from Missouri and surrounding states have assembled an extremely well-bred, functional group of fall bred females for your appraisal. Not only do their pedigrees represent the most popular sires and dams in the industry, the sires these females are bred to are among the freshest in the business. The females contained in this portion of the sale can take your program to the next level.

**AUTO REDBIRD 421D • Full sister to Lot 1**

Due 12/5/18 to GLDL Polled Promise 630D. The consistency of this bloodline is remarkable in that her full sister, AUTO Redbird 421D, was a fan favorite at the 2018 All-American Limousin Futurity this past summer in Denver, Colorado. Her dam, AUTO Red Pepper 216X, is the consistent and pre-potent daughter of the once National Champion, AUTO Cliff Hanger 194D. Her sire, SVL Polled Impact 516U, has produced as many championship fullbloods as any bull in recent history. Together, these two dominant fullblood producers have created the next generation of 100% Limousin genetics. Her service to the Homozygous polled, fullblood son of Posthaven Polled Yellowstone promises to push the envelope in the production of polled fullbloods in North America.

PE'd 12/12/17 to 2/2/18 to CELL Commander 5624C. Suffice is to say, Kiley just about didn't get this one. Out of the deceased sire, MAGS Anchor and out of a Rodemaster x Salina daughter, these kind don't come along every day. Her calf by Commander will be double Homozygous and some kind of good.

Not every day does the buying public get the opportunity to purchase a proven donor with many years of production left. MAGS Xanthous is the Homozygous Black, Homozygous Polled DHVO Deuce 132R daughter who is as proven as they get. She started off her production career by laying down and giving birth to MAGS Zodiac, one of the most popular

AI sires of the last 5 years. From a phenotype and numerical standpoint Xanthous has no visible holes. Her service to Hemi could very well produce the breed's next AI sire. Genetics of this caliber are a treat for the buying public, as they provide the opportunity to invest in some of the breed's most proven genetics.

**PINEGAR LIMOUSIN, SPRINGFIELD, MO**

With 205 progeny on record, it is no exaggeration to state that AUTO Rebeca 292S has been one of the most influential Lim-Flex females in the history of the breed. Over the years she has literally been mated to every conceivable kind of bull from Angus, to Lim-Flex, to Purebred, to even club calf. And they have all worked. A truly remarkable feat. I say all of that to say this. The mating represented here, is the best of the best. When you hear "Brand Name Rebecca," it's time to sit up and take notice. AUTO Excitement 405E is Homozygous Black, Homozygous Polled and big numbered for WW, YW, SC, CW, MB and \$MI. She is also long spined and heavy structured while remaining feminine and sound as a cat. Join us October 15 in Lebanon, Missouri, for the opportunity to own one you will never be asked to take a penny less for than what you end up giving for her.

What better way to kick off the bull portion of this sale than with this major league herd-sire prospect rich in genetic heritage. His dam, AUTO Misty 291Z, is a flushmate to AUTO Zofia 439Z who sold for \$45,000 and SBLX Znote who has been valued at \$40,000. Whats more, his sire, MAGS York, was a member of the Magness Champion Denver Pen a few years back. From an EPD standpoint, he ranks in the top 30% of the breed or better in 8 economically relevant traits. This homozygous black, well developed 18-month-old bull is ready to make a substantial impact on the industry.

"In these times when the margin on feeding cattle is so slim, the difference between YG 1-2 and YG 3 can be the difference in a profit or loss on a set of calves. We run a lot of Limousin influenced cattle through our barn and they consistently top the market and make our customers money."
