AUCTIONEER ... Eddie Birks, 270.991.6398
(TN Auctioneers License #4990)

AIR TRANSPORTATION ... Las Vegas, Nevada Airport (LAS)

VISIT WAGYU365.COM to view the sale book and videos of live lots. More information can be found on pages 4 and 5.

GENERAL SALE TERMS

TERMS AND CONDITIONS ... Cattle will sell under the standard terms and conditions. All consignors in the Wagyu and Akaushi on the Vegas Strip Sale sell their lots 100% fully guaranteed. Any announcements from the sale podium will take precedence over the printed sale catalog.

EMBRYO GUARANTEE ... Any embryos sold as stated and are not guaranteed on conception. All embryo lots will have statements regarding each with their descriptions.

DESCRIPTIONS AND FOOTNOTES ... Each consignor wrote the descriptions that pertained to their lot or lots. Wagyu365 does not take any responsibility, in regards, to the guarantee of what was written. Any adjustments or corrections will be made at the time of the sale.

REGISTRATIONS, TRANSFERS AND EMBRYO TRANSFERS ... Within 60 days of the date of the sale, the cattle sold will be transferred (registrations) to the new owners through the offices of the American Wagyu Association & American Akaushi Association. The fee is paid for by the seller.

PAYMENT ... All lots must be paid for immediately following the conclusion of the Wagyu and Akaushi on the Vegas Strip Sale unless prior payment arrangements have been made with any representative of Wagyu365. Buyers are welcome to pay by credit card. If so, you will be charged a 3% fee on the total sum of your purchase.

DELIVERY ... Buyers are responsible for any shipping cost pertaining to embryo purchases and transportation of the live cattle. Waygu365 buyers and sellers will work together to make this the easiest and most efficient process possible.

LIVESTOCK MORTALITY INSURANCE ... Any representative of the Wagyu365 team can assist any buyer with insurance regarding their purchases.

HEALTH PAPERS ... All live cattle sold will be accompanied with an appropriate health paper for immediate shipment. Additional health testing may be required from some locations.

GENETIC CONDITIONS ... Log onto www.wagyu.org, go to the animal search and results of the genetic testing will be found on the lot selling.

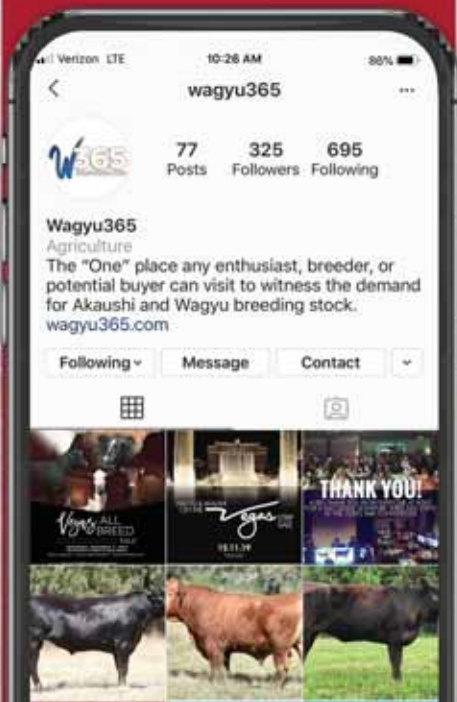

LIABILITY ... All persons attending the sale, do so at their own risk, legal or otherwise for their safety. The consignors, sale management, and sales staff assume no responsibility or liability for property loss or any accidents that may occur.

Auction money and proceeds will be conducted under Randall O. Ratliff dba R & R Marketing, P.O. Box 60097, Nashville, TN 37206. Bond # 7901027402 (U.S. Department of Agriculture, Grain Inspection, Packers and Stockyards Administration Packers and Stockyards Program)

MEET THE WAGYU 365 TEAM

Dear Wagyu and Akaushi enthusiasts,

Welcome to the bright lights of Las Vegas, NV! All of us at Wagyu365 and the many consignors from around the U. S. are happy that you are taking a look at this sale catalog. The consignors have put together their very best genetics for your appraisal at this prestigious event. The genetics represent many of the breed leading programs and we are more than pleased to represent them to the highest level possible. Whether you like them red and/or black we have some unique packages for you the prospective buyer to consider. As you take time out of your busy holiday schedule and review the offering, we urge you to give any of the consignors and/or a representative of Wagyu365 a call to discuss your buying opportunities.

We would like to make a special thank you to the following programs that sponsored this elite event. We appreciate the Drury Family of Drury Cattle Ranch, Rogersville, MO for their kind support. Philip Bowman and Family of Bowman Farms, Roaring Springs, NC were gracious in making their contribution to this Inaugural event! Also, a special thank you to Loren Ruth and family of Synergy Wagyu, Spring City, PA for their special donation to this first ever sale in Las Vegas! We know this sale would not be at the level of what it will be if it were not for their kind donations.

If you make plans to attend the sale, then be sure and let any of us at Wagyu365 know if we can be of any assistance. If you cannot attend, we invite you to watch/bid/buy online at Wagyu365.com.

Best regards,

Randall O. Ratliff, Wagyu365 team member

Featuring Industry Leading Speakers ~

Anthony Winter
Manager, Macquarie Wagyu

A cropping, breeding, and feedlotting operation in Queensland, Australia. Macquarie runs about a 700 head Fullblood cow herd with backgrounding capacity and a 2,900 head feedlot capacity. The feedlot feeds Fullbloods for 500 days and 400 days for F1s. Macquarie Wagyu is a world leader in Wagyu breeding stock, having bred high ranking sires such as Macquarie Prelude M0495, Macquarie Wagyu C1176, and Macquarie Wagyu Y408.

Synergy Wagyu & Platinum Beef

Wagyu Vision
International Conference & Sale

03.28.2020

Fort Worth Stock Yards, TX

Nick Hammett
Marketing Manager, Circle A Angus Ranch

Circle A Angus is 7,000 head Angus herd in Missouri. Circle A has been using Wagyu genetics from top carcass traits proven Wagyu sires for 10 yrs now to increase overall profitability. Reaching 70 - 80% Prime on 1/4th blood steers, while also taking them to heavier weighs with better yield. Circle A estimates they are making \$300 more on Wagyu cross steers. Circle A has thousands of head worth of carcass data and are confident that the system has the potential to add real value for commercial cattlemen.

Steve Martin
General Manager of Operations, Kerwee Feedlot

Located in Australia, Kerwee has a 20,000 head capacity, with 15,000 Wagyu content animals. Kerwee feeds cattle for 400 days and markets into their own branded beef line 'Stockyard Beef'. Stockyard Beef recently won the Wagyu content/percentage category in the Triple Crown Steak challenge at Perdue University. Steve continues to make efforts to share data and develop value-based marketing options by using Feed Efficiency testing and the Wagyu Sire Progeny Test Program. Steve has run the Australian Wagyu Association's Wagyu Sire Progeny Test Program at Kerwee Feedlot.

Charlie Perry
Owner, Trent Bridge Wagyu Stud

Trent Bridge is a family owned and operated Fullblood and F1 Wagyu operation in New South Wales, Australia. Trent Bridge runs approximately 300 Fullblood cows and 300 Angus cows. They target the F1 market, selling approximately 60 Fullblood bulls for F1 production each year. In addition, they use their top Fullblood sires on their commercial Angus herd for F1 production, selling the resulting calves at approximately 330 kg after weaning to JBS who feeds them for 400 days and slaughters them. Trent Bridge has become a leading breeding stock producer having bred and sold Trent Bridge K0034 the second-highest selling animal in the 2019 Elite Wagyu Sale at \$200,000.

Loren & Mitchell Ruth
Owners, Synergy Wagyu

Synergy is a two generation family business that maintains a herd of Fullblood Wagyu in the United States (Pennsylvania) and has satellite herds in South Africa and Australia. Synergy is focused on breeding elite Wagyu genetics from superior maternal lines and high genetic merit sires. Synergy utilizes their extensive experience breeding dairy cattle to breed superior Wagyu beef.

BLACK**OR****RED**

We Have You Covered!

Drury Cattle Ranch (DCR Wagyu) is a family owned and operated business in SW Missouri. The family's roots started in the agriculture industry with their father, Jerry, growing up and working on his family farm learning his way around cattle and crops. Later in life, Jerry helped start, took over, and grew his commercial construction company in SE Missouri ... never forgetting about his passion for cattle and farming. He instilled into his family the value of hard work, vision, and passion with what you do in life. After 2008, the Drury's looked for ways to diversify their businesses and new avenues for utilizing their farms. This research led them to discover the Wagyu breed. The differences of Wagyu cattle were very attractive from the start ... calving ease, temperament, fertility, and segment growth potential. They then looked into the end product to truly understand all of the Wagyu qualities. The family had a taste-off by ordering Wagyu steaks and finding the best Angus steaks in their market. After seasoning and cooking the beef with the same methods, the tasting told them everything else they needed to know ... the two options were night-and-day different. The Wagyu steaks were far superior in flavor, texture, tenderness, and eat-ability. The Drury's recognized how special this breed can be and jumped into the Wagyu industry with both feet.

The Drury family has now combined their business and agriculture acumen to form and run two growing companies ... Drury Cattle Ranch for Wagyu seedstock cattle and Papa Valley Wagyu for beef sales. These businesses are operated by Jerry's sons Bryan and Patrick, grandson Brent, and longtime employee who is just like family Travis Daniels. Combining specific genetics to create top quality Wagyu cattle for better breeding decisions is the focus for Drury Cattle Ranch. DCR Wagyu produces Fullblood Black Wagyu cattle, Fullblood Red Wagyu (Akaushi) cattle, Fullblood Wagyu genetics, and F1 cattle (Wagyu/Angus cross). Papa Valley Wagyu takes the cattle all the way to the box providing elite Wagyu beef to restaurants and individual consumers. They provide two superior tasting beef lines ... Wagyu crossbred beef as well as Fullblood Wagyu beef. Both businesses look to further develop and expand Wagyu opportunities to spread the word about this exciting and extraordinary breed.

Bowman Farms BF SANJIROU 3 43F (FB38049) is an AA7 FREE Heifer. Her sire is SANJIROU 3 the highest marbling sire in the USA per the 2017 WSS! He is sired by World K's MICHIFUKU and World K's SUZUTANI and has been some of the most sought-after semen of 2019 and impossible to find! The Dam is the extremely rare and sought after MFC HISAKO! She sold for \$46k in the Muddy Flats sale in 2018 and the only other living Dam directly from Hisako sold for \$50k this year in the Western Wagyu Elite Sale! She is Sired by World K's KAGE who's sire TF KIKUHANA is a SHIMANE sire (ITOZAKURA line) imported by SUMO from Takeda Farm in 1997. He is line bred to one of the most influential SHIMANE sires ever in Japan (DAI NANA ITOZAKURA). This bull helped establish Shogo Takeda as one of the premier breeders in Japan. The Dam of MFC HISAKO 3-17 is HISAKO. HISAKO is 100% TAJIMA and purchased directly from the World K group. HISAKO is sired by JVP FUKUTSURU 068, who is known for extremely high-quality carcass traits as reflected in all progeny tests done in the United States. HISAKO herself has produced a number of well-known sires and valuable females. This is a rare opportunity to own one of the rarest Dam and Sire combinations in the Wagyu breed!

A pregnancy from this same breeding sold for \$14k in the 2018-Mile-High Sale! In the Western Wagyu Elite Sale one embryo from her flushmate sold for \$3,500!!!! Get your money back on one flush!

BFC KITAGUNI 10G (FB42561) is an AA9 FREE heifer out of Bowman Farms extremely rare dam TBR MS KIKUTNAMI 3346Z. TBR KIKUTNAMI 3346Z sold for \$59k is the Bar N sale in 2017. She has the rare genetics of TANIFUKU-DOI and KIKUTSURU. TANIFUKU-DOI's direct dam is known in Japan as the "Hyogo Cow". She is accredited for putting size into Tajima cattle, the most famous bloodline in Japan. Her dams' sire is TF146 KIKUTSURUDOI who became ill shortly after arriving in the USA and only a few hundred straws were collected before he died. His semen is very hard, if not impossible to find! On the bottom side the proven TF148 ITOSHIGENAMI that is a staple in the some of the highest selling Australian heifers at over \$250k due to the proven carcass potential!

BFC KITAGUNI 10G's sire is LMR Kitaguni 1411Y and is one of Lone Mountains premier sires! He has delivered carcasses of 52.03% IMF. In the November 2018 LMCC Sire Performance Study, he surpassed Yasafuku Jr, and his sire, Kitaguni Jr! The Dam of LMR Kitaguni 1411Y is BR Ms Yasafuku 0645 who has produced steers from 30%-50% IMF!

Put these two POWERHOUSE Genetics together and you are looking at the FUTURE! The potential is the highest quality Fullblood WAGYU beef in the USA and beyond!

This cow is not to be missed! Her good looks are backed by a spectacular pedigree. She is backed by the breed leading Hikokuras with this particular line producing popular Crescent Harbor bulls Kitaguni 07K and Takazakura 101L. Her sire, Haruki II, is highly proven and provides excellent growth traits. Haruki II is a Monjiro son, and in turn Haruki II is the sire of the great Shigeshigetani. Tracing the sire pathway shows three of the breed's elite carcass bulls stacked on top of each other – Itoshigenami TF 148, Yasufuku Jr, and Michifuku. The fourth dam of this lot is the great Crescent Harbor cow, Kikuhanahime, who is a daughter of TF Hikohime 3/2. The TF Hikohime 3/2 female line has produced Australian mega sires Sumo Cattle Co Michifuku F154 and Coates Itoshigenami G113. This donor cow represents an opportunity to get into one of the elite maternal lines in Wagyu.

The combination of genetics in these embryos is a powerhouse for marbling carcasses. Easy calving, good temperament, good carcass weights and consistent marbling. Getting a bull calf from these genetics will be great for breeding females as well as for wagyu crossing.

Famous names to mentioned on both donor and Carra's sides (so double the fabulous)

Fukutsuru 068 and Itoshigenami 148 These are two of the top three bulls exported from Japan. 068 a bull coming from Tajima bloodlines is coming from Kikutsuru also known as the 'Hyogo cow.' He is known for exceptional carcasses, good temperament and small but easy managed calves. 148 is 75% Tajima and gives consistent high quality carcasses and calves that grow well without reducing the marbling. (DNA profiles available).

The combination of HW Aizatake 7 and HW Kenzo will give strong and powerful females that are good natured and have good milking ability. Along with great carcass weights and consistent marbling scores. This combination are also known for tenderness so overall a very good combination.

HW Kenzo was Wagyu Champion of Europe in 2015. His females are strong and powerful with good temperaments and good milk. He is coming from 148 Itoshigenami who is demanding top prices worldwide right now. Known for good growth rates without reducing marbling. He is also coming from Itoshigefuji 147 who's known for producing well balanced gentle cattle that are early maturing. 147 traces back over 300 years.

HW Aizatake 7, has double Fukutsuru 068 from her dam and sire which she will carry those sought after consistent marbling scores with her. She is also a double TF Aizakura U100 who is coming from one of the best Tajima sires in Japan and also the famous 'Hyogo Cow', Kikusuru. Not forgetting HW Aizatake 7 also has 148 Itoshigenami in her lines as well. (DNA profiles available).

This combination of these embryos will not only give you the best framed cattle and carcass weights but it will also give you consistently high marbling.

HW Aizatziriko 7 and Carra are coming from the best genetics Wagyu have to offer. Here we have a great mix of the three major bloodlines, Tajima, Fujiyoshi and Kedaka. Aizatziriko 7's sire who we call Dutch has given us some of our best breeding females that milk well with good udders and extremely feminine so a great maternal line, his sire, Hirashigetayasu J2351 brings excellent growth and a balanced frame. Another name to mention in her breeding is Kitateruyasu Doi J2810, he is also known as a bigger framed marbling sire and one of the most highly acclaimed Wagyu to be imported from Japan. He is also in the top 2% for birth weight. Another big name in her bloodlines is Dai 7 Itozakura who is the most prominent Fujiyoshi sire in Japan.

HW Carra also has the top marbling genetics in his bloodlines, he consistently produces 9+ marbling score which is the highest marbling score outside of Japan. Coming from Fukutsuru 068, TF146 Kikutsurudo. We believe the best carcasses that Highland Wagyu are producing are all coming from Kinu. (DNA profiles available).

The reining 2019 National Western Wagyu Champion Alamo brings an exciting new twist to Legendary's Bull battery. Known for maintaining Akaushi foundation bloodlines, we are thrilled about Alamos blend of old school genetics with an impeccable build and practical body type known from the maternal Big Al line. Not to mention carcass quality should be a strong bonus with this breeding. Add 2099A's width and mass that Shigamaru females are known for and we are eager to see how these genetic power houses turn out. Be the first to see how this pregnancy could positively impact the breed.

Sire, JC Rueshaw 92, is the son of foundation bull, Rueshaw. Rueshaw was the only Japanese National Champion Wagyu to be exported from Japan. Extremely rare genetics - limited amount of Rueshaw semen collected during his lifetime. JC Rueshaw 92 is the full brother to the 2014 and 2015 top marbling Grand Champion Red Wagyu Bull at the Houston Livestock Show. Wonderful structure and disposition. Free of all genetic disorders. He provides wonderful frame, structure, thickness, and growth traits to his offspring

Dam, SOR Ms Big Alkari #6, is powerful genetics from both sides of her pedigree. A direct daughter of the ever so popular Heartbrand Big Al. A maternal grand-sire is the great foundation bull, Hikari.

Tamamaru (FB2125) is one of the most widely used and predictable foundation Akaushi bulls due to his consistency and legendary mother, Dai 8 Marunami. There's no other foundation sire that can add the length of body and stoutness of structure. His semen has sold for \$2,200 a straw and is becoming very hard to find.

Rowe Ms Red Star (FB18017) is a result of the mating of Kalanga Red Star with the notable 803 cow (Shigemaru X JVP Ms Homare Hikari). She is a star example of an Akaushi female and a prolific embryo producer. Genetic defect carrier free

Big Al

Selling three units of semen of your pick of the 1994 "Foundation Bulls."

Akaushi cattle have thrived due to the strong set of foundation genetics dating back to the early 1990's. Here is a chance to purchase some of those very genetics on these four outstanding sires. Shigemaru, Tamamaru, Hikari, and Big Al have built the breed around beef quality and cattle excellence from the start and we are certain their value has only increased with time. Don't miss out on this rare opportunity to become apart of an elite group of foundation breeders. Bid with confidence on the genetics that have built the Akaushi breed.

<p>— TF ITOMICHI 1/2 YAR 169C FB33477 ESF SHIDOOSHA 158-053</p>	

These embryos provide a very complementary and purposeful mating of sire and dam. The sire of the embryos is the exciting, high-genomic, Australian bull, Mayura L10. Not only is L10 one of the highest SRI bulls in Australia, but he is a son of the incredible breed leader Itoshigenami Jnr! L10 projects as a great all-round bull that will transmit tremendous Rib Eye size to his progeny. This is a great sire to use on Itomichi ½ daughters which generally carry superior size and maternal abilities along with adequate marbling. The dam of the embryos is an Itomichi ½ daughter from the highly successful Yuriko maternal line. Successful sires on her maternal pathway include Shidoosha and the marbling sensation JVP Fukutsuru 068. These embryos will produce calves with a tremendous amount of balance.

<p>— WORLD K'S SANJIROU SANJIROU CHIYATSU FB14974 CHR MS KITAGUNI 339</p>	

This lot of embryos attracts attention with the extreme Rib Eye potential created by mating the elite Australian bull, Mayura L10, to a daughter of Sanjirou. L10 provides excellent balance and the uniqueness of being a son of Mayura Itoshigenami Jnr. The dam has a highly desirable pedigree that combines elite sires with the Takeda Hikokura maternal line. Her pedigree is built on a great foundation of growth and strength with the sires TF Kikuhana and 001 Hirashigetayasu. These two bulls are then followed by the popular Kitaguni Jr. son, 07K, and then Sanjirou as the sire of the dam of the embryos. The pedigree of the resulting calves will be well crafted from a breeder's perspective by blending outstanding growth and carcass sires.

SMO SUMOCATTLE CO Michifuku F154 is the highest ranked sire in Australia that is not a known carrier of any genetic defects. His Marble Fineness and all three sire indexes put him in the top 1% in the Australian Breedplan. His Marble Score lands him in the top 3% with 79% accuracy while his Carcass Weight puts him in the top 7% with 85% accuracy! You cannot find a bull like this scoring high for carcass weight, marbling and the self replacing index without any known genetic diseases! He has had over 185 progeny analyzed and 21 carcasses analyzed. He is 62% Tajima and 38% Shimane. His semen starts at \$500/straw.

Five embryos sired by F154 are offered from a World K's Shigeshigetani daughter donor FB20587. Her sire scores in the top 1% for Eye Muscle Area, in the top 6% for Self Replacing Index, in the top 3% for Retail Beef Yield, and in the top 20% for Marble Score. She is a great mother and will give you excellent replacement heifers for your herd and all the moreso since they will be sired by F154! She produced 24 embryos in her last flush.

Produced by Embryologist, Dr. Jim Griffin at Southeastern Semen Services in Wellborn, FL.

SMO SUMOCATTLE CO Michifuku F154 is the highest ranked sire in Australia that is not a known carrier of any genetic defects. His Marble Fineness and all 3 sire indexes put him in the top 1% in the Australian Breedplan. His Marble Score lands him in the top 3% with 79% accuracy while his Carcass Weight puts him in the top 7% with 85% accuracy! You cannot find a bull like this scoring high for carcass weight, marbling and the self replacing index without any known genetic diseases! He has had over 185 progeny analyzed and 21 carcasses analyzed. He is 62% Tajima and 38% Shimane. His semen starts at \$500/straw.

Five embryos are sired by F154 with a TF Kikuhana daughter donor FB24114. Her sire scores in the top 2% for Carcass Weight with 93% accuracy while her dam side with Sanjirou and another Michifuku line adds great marbling and rib eye! She too is a great mother and will give excellent replacement heifers for your herd especially while sired by the great F154! She produced 24 embryos in her last flush.

Produced by Embryologist, Dr. Jim Griffin at Southeastern Semen Services in Wellborn, FL.

Selling one package of three, Grade 1 Conventional Embryos. 1 Pregnancy guaranteed. LL Ms Itomichi 101X x World K's Kitaguni Jr.

This mating is a unique cross heavily focused on the Shimane bloodlines. LL MS ITOMICHI 101X is the highest producing cow in our donor pen, producing 16 Grade 1 embryos while nursing a 350 pound four-month-old calf. Now crossed with WORLD K'S KITAGUNI JR., known for his additional marbling and milk production, these calves will grow and perform like no other. Both the sire and dam trace back to the highly sought after ITOZAKURA bloodline, however, the progeny from this cross only have a COI of 2.9%. Calves from this cross will be highly functional cattle with excellent maternal traits and carcass potential. Don't miss out on the opportunity to acquire some of the most pure Shimane embryos available.

Sanji is a great cross of Sanjirou which is linebred Ysumi Doi, to a daughter of Kitateruyasudoj 003, one of the great marbling bulls of our time. Sanji's dam is a full sister to 005 Shigefuku 13M's dam. This is a tremendous cow family.

As would be expected being a Sanjirou son, Sanji is well balanced, has great thickness and length and has the thickest loin of any of Sanjirou's sons. Also, as a son of Sanjirou and with the Kitateruyasudoj bloodline, he is throwing great marbling in his calves. 500+ calves have been killed so far and none have been lower than prime.

Mazda, FB103, speaks for himself! Even Australia hasn't had a Mazda son or daughter hit the ground in over two decades. Mazda was a gift by the emperor of Japan to the governor of Hawaii in the 70's and he is the only 100% Tottori bull to ever leave Japan. The only true and total outcross to virtually all wagyu herds worldwide loaded with the awesome frame and thickness of old school Eikou Tottori blood from the lowlands! Former president of the AWA, Kenneth Briggs, raised many Mazda carcasses over the years back in the day and said, "Mazda is one of the best marbling of all the import bulls." Indeed, the top marbling bull of the 2018 Texas Wagyu Association bull test was a bull out of a Mazda cow that out marbled all the sons bred up heavy with the who's who of high Tajimas. The DAM side of the embryo is from Windy, 91W, FB14605. Her sire is Sanji, FB6193 and Dam is 2W, Winson, FB10951. Windy is a SCD AA and 5 tenderness.

Maverick is sired by Itoshigenami TF148 FB3682 and his Dam is Otanashii FB4458. When he was six years old, he weighed 1,610 lbs. He is a very gentle, well-mannered bull. His full sister's (42W Elizabeth FB13775) embryos sold for \$10,000 each in Australia recently. Itoshigenami TF148 is considered to be one of the top three bulls exported from Japan according to David Blackmore, renowned Australian Wagyu producer. Itoshigenami is a medium frame bull at 1,650#s with excellent conformation. His offspring's exhibit an excellent balance in all traits, both for quality beef production and cattle production. Producing carcasses of the highest quality, characterized by an abundance of very fine marbling, extremely soft fat with a low temperature melting point. He has Sired roughly 370 Registered Fullblood offspring, unknown on progeny used for beef production.

World K's Haruki 2, the sire of Lot 58, is a trait leader in Australian Breedplan for gestation length, 200/400/600 day weights, and provides ample milk genetics to his daughters. Very well rounded bloodline combination ... 56% Tajima, 13% Itozakura, 19% Shimane, and 6% Kedaka. Sire to the famous bull, World K's Shigesheetani

His dam, LMR Ms Sensei 2361, is from the Lone Mountain program. Her pedigree is stacked with outstanding genetic combinations - Itozuru Doi (TF151) and Itoshigenami on paternal side. World K's Michifuku and JVP Fukutsuru-068 on maternal side

Long, deep heart girth, with a powerful top line, this bull exhibits good hip and stout, functional confirmation. He weaned at an adjusted weight of 414 and posted a yearling weight of 739. Sired by our herd bull, STF ETJ One 303A, who brands his offspring with high ranking tenderness scores. His dam, Stepside Farm MS Bar R Sanjirou 301A brings Wagyu quality top and bottom – she has the influence of the sire Bar R Sanjirou 4P with frame and marbling along with Lone Mountain's MS Itomich who brings mature size and growth without sacrificing marbling.

This heifer has a pedigree featuring tremendous growth. She boasts a sire stack of powerhouse bulls – Namakawa63Y x Nakagishiro 56T x TF147 Itoshigefuji x 001 Hirashigetayasu! These sires bring tremendous growth packed into this heifer. She will make a tremendous herd-building cow which can be bred to any high carcass merit bulls, especially high Tajima content sires. She is a great individual for future herd building.

This is an open heifer that sports an attractive growth pedigree that features the incredible Hikokura maternal line. Her sire, MFC Shigeshigetani 2-12, is a Shigeshigetani x TF151 Itozuru Doi combination. This is a sire combination that is currently producing some outstanding carcasses both in the US and Australia. On top of that, 2-12 is from the Takeda Hikokura line that works so well for many breeders. The maternal side of this heifer traces to the Yasuyoshi cow from the JVP program. This line has produced the high ranking carcass bull, CHR Shigeshigetani 5, and the line has produced some of the best carcasses in the Marble Ranch meat program. This heifer has a bright future with a well-balanced pedigree to back her.
