Welcome to our Fifth Annual Bull and Female Sale!

It does not seem possible that it's been five years since we ventured off to host our own sale, let alone ten years since I (Eric) returned back to the farm and we ramped up our breeding program and involvement in the breed. We look forward to keeping up the pace and challenging ourselves to produce a stronger, more consistent cow herd and calf crop every year, which in turn helps you, our customers!

Thank you to our partners that have invested in our genetics and program. It's rewarding and humbling to know you trust us to help make your investment work to the best of our ability.

Once again we feel we have put together another strong offering from exciting herd sire prospects, to powerful bred females and unique frozen genetics.

The herd sire prospect offering is one that is well rounded with a large number of homozygous polled bulls, along with heifer safe bulls and power bulls. They are led off by the powerful first calf crop by B Bar Warhawk 11G. Another large group of RPY Paynes Cracker 17E offer flexibility with power and calving ease options. Then rounded out by smaller groups sired by TREF Freewheeling 051F, B Bar Bentley 8D, Hunt Credentials 37C ET, JYF Chunk 35C, and LFLC Dollar Bill 764D.

The 8 bred heifers are consistent from our reliable cow families. All are AI bred for January services to a variety of recognizable service sires to aid in the future marketing of the progeny.

The frozen genetics are some of our most current embryo matings and the semen is off bulls that are not on the open market!

We provide a lot of information and data to aid in your selection process. If you have any questions, concerns or comments please contact ourselves or any of our trusted sales staff. We want to make sure you end up with the right animal for your program. Our sales staff is very knowledgeable with our program and sale offering and we urge you to contact them if you have any questions.

We hope to see you Tuesday, December 14 at the Ranch for our Fifth Annual Bull & Female Sale!

The July summer tour at B Bar is always a wonderful experience even when the temperature is 40 degrees and Lucky Lake is the hot spot in Canada. The amazing thing is that at each pasture the cattle just seem to get better year after year.

On December 14 the Boon family will host, at their farm, their 5th annual bull and female sale along with frozen genetics. The bull division will be highlighted by five bulls that Eric and Terra campaigned at Stettler, Farmfair and Agribition receiving vast exposure - but the remainder of the bull pen at the farm have tremendous promise also and will check many boxes for the astute ranchers. The bred heifers are a truly unique group where I have a "new favourite" each time I visit.

When it comes to customer service and access to information the B Bar family offers arguably the most detail of any purebred operation.

Embryo technology is not a new phenomenon in the beef industry, however in Limousin circles this Warhawk x Shameless flush may well go down as one of the most influential for many years to come. The result is four fantastic females and the 9 opening bull lots in the catalog. Truly impressive!

The Bohrson Marketing team looks forward to discussing these B Bar genetics with you and if you are unable to attend sale day, we can handle your inquiries in a professional manner.

We look forward to seeing you on December 14 at the Boon farm - come early, stay late and enjoy the hospitality from Delaney, Deanna, Eric, Terra & Roz.

We are pleased once again to be involved with the Boon family and what is their 5th B Bar Cattle Annual Bull and Female Sale.

As you inspect the offering, a truly unique blending of both U.S. and Canadian bloodlines will emerge. As they have for decades, the Boon family remains intent on creating the best possible Limousin seedstock for their loyal customer base of both commercial cattlemen and serious seedstock producers.

The Boon family began their journey in the Limousin breed in 1982 when Delaney made his first purchases. Their involvement with the breed extends far beyond their breeding program via their participation in various associations on the local, provincial and national level. This exposure and added knowledge gained on various aspects of the industry can be seen in their incredibly consistent cow base and consequently in the cattle available in this sale.

Their insistence upon breeding and marketing structurally correct, eye appealing cattle is documented in the numerous champions they have exhibited at major livestock events across the continent. Furthermore, they have consigned untold numbers of elite Limousin herd sires, donor quality females and fancy show heifers to the most prestigious sales in the country.

On behalf of the entire Boon family and the B Bar Cattle team, we invite you to their farm in Lucky Lake, Saskatchewan, Tuesday, December 14 for a truly outstanding collection of Limousin herd sire prospects and females capable of taking your program to new heights. If you are unable to attend, it would be our pleasure to handle your business in the most confidential and professional manner possible.

Please do not hesitate to contact us directly, or any member of the sales team, leading up to the sale with any questions you may have regarding this cutting edge set of Limousin genetics.

We look forward to assisting you in bolstering your genetic investment with cattle from one of the most astute beef cattle families in the Limousin business today.

Sincerely,
 Kiley McKinna

Payment on Bulls:

50% down Sale Day

Remaining 50% after a successful semen test

Wintering & Bull Development

- Our selection criteria and bull development will not change. We will continue to select our bull pen and develop the same as we have over the years. The only difference is you purchase your bull in December.
- We insist to winter the bulls for you, the buyer, **at no additional cost**. This will allow us to properly develop them on a balanced ration as we prepare to semen test them and for longevity in mind to benefit you, the customer.
- All bulls going back to B Bar Cattle **must** be insured. An Insurance Broker will be onsite for your convenience.
- We will semen test the bulls at B Bar Cattle's cost approx. the last week in February 2021.
- We feed a high roughage TMR ration formulated by BeefSmart .

Semen Collection and Semen Interest

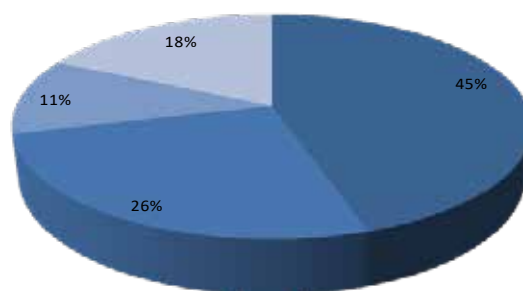

- B Bar sells all bulls in their entirety.
- If you choose to send your bull to stud for custom semen collection. We (seller) will arrange pre-stud entry with our vet at your (buyer's) cost. We (seller) will deliver the bull to stud.
- B Bar Cattle reserves the right to collect semen on any bull sold through this sale.
 - The semen collection will be at B Bar Cattle's expense and the buyer's convenience.
 - Any semen collected will be for B Bar Cattle's in herd use only.
 - This includes the right for B Bar Cattle to use this semen on any partnership females
 - Bulls offered with partners
 - Partners reserve the right for in-herd semen at their expense and buyers' convenience
 - Partners also have the right to use semen on any partnership females

Bull Crop Year	December 1st Scrotal Average / Range	March 1st Scrotal Average / Range

Reference Sire

B BAR WARHAWK 11G

- \$15,750 lead off bull in our 2019 Sale
- Result of stacking three of our most influential cow families
- First calf crop are stout, long bodied, hairy, docile and sound made.

Owned by Bar 3R Limousin, SK

Lots 1 - 9 Flushmates Warhawk X Shameless Sons

Sire: *B BAR SLATE 17C*
B BAR WARHAWK 11G
B BAR FOXTROT 22B

Dam: *BIRUBI KAISER K140*
MISS TMF SHAMELESS
TMF MISS 314A

In 2019 Samantha Kennedy along with her family from the Crown Hill Acres operation, successfully campaigned their bred heifer, Miss TMF Shameless, which was admired by cattlemen and women of all breeds. At Agribition that year, ourselves along with Wayne and Anne Burgess tried to buy Shameless, but in the end settled for the right to flush her. We took her home from Agribition as she was heavy in calf, calved her out, fresh flushed her getting 14 embryos, 13 implanted fresh and we got 9 bulls and 4 heifers! This is arguably one of the most impressive, consistent set of flushmates from top to bottom that I've seen in the Limousin breed. There is not just one favourite amongst visitors when they tour, there are multiples that get picked out.

***Offered with Venture Livestock Ent.**

Recommended for Heifers. B-Bar Empire 4j is tremendous herd bull in the making and deserves some serious attention! He has a proud powerful herd bull front end, a smooth shoulder that blends into his fore rib, and continues on into a stout hip. He moves with ease and flexibility and stands on a strong foot. To add to the package he has an easy going nature, great scrotal development and that deep cherry red color. Numerically he is well balanced both in actual numbers and projected numbers. Empire's 2 year old dam is moderate framed, long bodied, level topped, bold sprung with a sound udder. She is a natural daughter off our donor 118W who is most noted for naturally producing the \$30,000 B-Bar Slate 17C and \$32,000 B-Bar Bentley 8D. The Nicole cow family is known for producing some influential herd sires within the breed and we feel Empire 4j is going to follow suit!

A standout since birth; this bull has been appraised and admired by all visitors. Magic Mike 50J has exploded into a massive beef machine, with an abundance of thickness, muscle, volume and pounds. His 2 year old dam did a tremendous job on him, weaning him off to index 112 and rank 2 out of 21 in his contemporary. I really regret not getting her pictured this summer as she is so ideal in her type and kind. Magic Mikes' dam is also level topped, bold sprung, easy fleshing with a well balanced, sound structured udder.

***offered with Venture Livestock Ent.**

Recommended for Heifers. B-Bar Skyfall 37J should succeed in a heifer pen with his long smooth structure, nice head, smooth shoulder and numbers to back it up. This cherry red bull is level topped, stands on a strong foot, has good scrotal development and an easy going nature. His 2 year old dam did a great job on him and dropped a beautiful structured udder.

Recommended for Heifers. Calving ease candidate with a smooth shoulder and strong actual and projected calving ease numbers. B-Bar Top Gun 69J is moderate framed with lots of rib and muscle shape in a sound made package. His dam was our selection at 2019 Western Select from Andrew Ranches. She is eye appealing, has loads of capacity, free moving and carries a well structured udder.

Recommended for Heifers. B-Bar Vertigo 14J ET is one of the most complete and well rounded bulls in the offering. He is masculine fronted, strong through his fore rib, deep and bold in his rib dimension, square and stout in his hip structure and walks correct on a strong foot. Numerically he carries a balanced set of birth, growth and maternal qualities.

22

The donor dam extends back to our Foxtrot cow family and has been a strong producer for us which landed her in our donor program. She's explosive in her rib shape, elegant in her design, with a sound udder and moves freely on a strong foot. Full brother was a highlight in our 1st Annual Sale to Haystack Acres, ON which went on to be Reserve Senior Bull at the 50th National Show and is now working at Andrew Ranches, AB.

B-Bar Shania 62H is a hard to fault female. She is angular made, bold and deep ribbed along with being level and square out of her back third. She is sound in her structure with strong udder development. Her dam is a moderate, tanky female with a gorgeous udder. The mating to the Australian outcross Summit Ranch-Hand P40 really rounds out this offering.

A personal favourite here! B-Bar Foxtrot 44H is a hard to fault female, she moves proudly off her front end, strong and level topped, bold and deep in her rib, square and stout hipped and moves with ease and flexibility. She started at 75 lbs and weaned off to ratio 103 in a contemporary of 29 heifers, off a first calf heifer. Her maternal dams are sound made, eye appealing, females with strong udder quality and great milk flow. The mating to the cherry red Hunt Credentials 37C ET should provide the new owner a quick ROI.

Starburst 62H is a fault free, well balanced cow in the making. She is attractive in her front third, deep bodied, square hipped with plenty of width and capacity. Her dam is a moderate framed, easy doing, sound made female. The service to the Australian bull Summit Ranch-Hand P40 will be one that provides a twist to the genetics and combines a very maternal pedigree

B-Bar/Ivy Sweet Touch 32H is appreciated for her length of body, bold shape and strong foot quality. She extends back to the well known Sweet Touch cow family that was so dominant for Ivy Livestock. Her dam is a powerful cow that is bold sprung, long made with great milk flow in strong udder quality. The mating to the \$32,000 B-Bar Bentley 8D adds a nice feature to this strong female.

B-Bar Urban Girl 34H is good footed, bolded ribbed, level topped and has ideal teat size and placement. She carries a balanced set of EPDs and is easy to get along with. Her dam combines the maternal power of our Urban Girl cow family and Richmond's Xotic cow family. She is a strong producer, with a beautiful udder and strong foot quality. Urban Girl 34H carries the early service to the \$32,000 B-Bar Bentley 8D which should complement this powerful female.

BULLS

BRED FEMALES

SEMEN/EMBRYOS

The very first embryos ever offered on B Bar Foxtrot 21B! Foxtrot 21B was an impressive standout from the beginning for her mass and power that she kept in an eye appealing, functional, sound package. She was competitive on the show road and then went on to be a tremendous producer. At the 50th National Show she produced the Champion Bull, Reserve Champion Female, Champion Progeny of Dam and the Dam of the Champion Get of Sire. Her sons have been featured and high sellers in our Annual Sale to seedstock producers and top commercial operations. The only 2 daughters ever released were highly sought after and topped their respective sales. We specifically mated her to the \$19,500 feature bull from our 2020 sale, B-Bar Stetson 35H, that sold to Anchor B Limousin and Canadian Sires. We feel Stetson compliments this mating with his overall balance of calving ease, growth and maternal qualities. Do not miss out on this incredible opportunity!

ANCHOR B UNIQUE GAL

This lot will encompass many of our powerful donors and cow families! B Bar Nicole 9E is an ideal female in our minds and checks off a lot of boxes for what we are trying to accomplish in our females. She is big ribbed, attractive in her design, square hiped with lots of capacity. Nicole 9E is hard to fault when it comes to udder structure and foot quality and we feel these are two of her biggest features. She is a natural daughter off our powerful 114U donor that is responsible for producing Austin Healy 4D and Flatliner 05F and many more. Nicole 9E's son was a feature lot in last years sale for \$11,000 to Lazy H Limousin, SK and her daughter this year is a standout and will surely find her way to the 2022 Sale. The sire of the embryos, B Bar Warhawk 11G, is one of the favourite bulls we've ever produced. He was an easy pick for the show string and led off our 2019 sale for \$15,750 to Bar 3R Limousin, SK. Warhawk 11G progeny have exceeded our expectations and we have used him as heavily as possible in our herd. Here is an opportunity to get in our newest and freshest matings!

B-Bar Carhartt 71H was the highly popular lot from last year's sale when he commanded \$20,000 to Bar 3R Limousin, SK and Red Oak Farms, AUS. He has the stoutness, capacity, muscle and fleshing ability to grab your attention. He stands on a good foot and moves with ease and flexibility. He ranks in the top 1% for CED and BW while having an actual 80 lbs bw and 282 gestation. Then he indexed 104 at weaning and 102 at yearling in large contemporaries along with a 113 index for REA. Carhartt 71H brings together a strong phenotype with a balanced set of actual and projected numbers!

The sign of a good breeding bull is one that goes on to out produce himself and LFLC Dollar Bill 764D has certainly done that. His sons are stout, with lots of meat and muscle in them while his daughters have developed into sound, good milking females. Progeny have been successful in the show ring and popular in the sale ring. Dollar Bill 764D is still unique in pedigree for the Canadian herdbook and brings a balanced set of EPDs to the table along with predictability!
