

SYMENS BROTHERS
42nd Annual
**MUSCLE UP
FOR PROFIT**
Sale

Thursday., February 24, 2022 • 1 PM
At the Farm - Amherst, South Dakota

Welcome to our 42nd Annual Production Sale.

We believe we are offering a great set of bulls and females for your evaluation that can add value to your operation. We again offer as much information as we can, not to overwhelm you, but to allow you to use what you want to help your breeding programs in the form of actual data, EPDs, carcass ultrasound, DNA and visual appraisal.

Please go to DVAAuction and watch the videos of the cattle and better yet, join us February 24 to walk through them yourself, visit with us and have lunch with us on sale day.

We offer to keep the yearling bulls to develop them until at least mid-April for breeding soundness evaluation and will deliver them to you or arrange delivery. The older bulls and females can be taken on sale day, especially the bred heifers so you can calve them yourself. If you take them sale day we deduct \$50 each from the purchase price. We offer an unconditional guarantee for the first breeding season on the bulls and guarantee fertility on the females.

Thank you for your interest in our program. No matter what challenges we have faced this past year, we can always find the blessings provided by our Creator and be thankful for them and anticipate another year of production as another calf crop hits the ground.

We hope to see you on February 24.

Thank you.

Symens Brothers

Limousin Friends,

It is our sincere pleasure to be working side by side with the Symens family to present their 42nd Annual Muscle Up For Profit Production Sale offering.

You have come to expect excellence from the Symens program and your interest in their genetics is certainly appreciated. Bulls and females carrying the SYES prefix can be found working from South Dakota to both coasts and borders. It is truly impressive when you consider their half century involvement in the breed and the fact their genetics positively influence both purebred and commercial herds across the country.

Take comfort in the fact the Symens operation keeps a keen eye on how their genetics perform from birth all the way to the rail. In an effort to better predict how their genetics will perform, notice that every animal in the sale has been genomically-tested. The end result of this meticulous attention to each and every detail are bulls and females proven to work in a variety of herds.

It should come as no surprise that customer service remains a top priority, and that each and every customer is important to the success of their program. Many of you reading this catalog are previous customers—a return customer is the ultimate compliment. These repeat customers are a true testament to both the genetics offered as well as the people who stand behind them.

We hope you will be able to attend the sale in person to take part in the hospitality the Symens program is known for.

Thank you again for your interest in this offering. Please do not hesitate to contact us. We are here to assist you in any way possible.

Regards,

MC

SUPPLEMENT INFORMATION

Yearling Weights, Scrotal Measurements and Ultrasound data will be available sale day and online at www.dvauction.com

PURCHASER OBLIGATION

All animals are at risk of the purchaser once sale is made. Border fees out of the U.S. is the responsibility of buyer.

VIEWING CATALOG AND VIDEOS

Catalog and videos of bulls can be viewed online at www.mcmarketingmanagement.com or www.dvauction.com. Buyers are encouraged to view the cattle any time prior to sale date in case of inclement weather sale day.

All cattle sell under the standard terms and conditions of the North American Limousin Foundation.

COMMERCIAL AIRLINES

Aberdeen, SD • 45 miles away
 Fargo, ND • 125 miles away
 Sioux Falls, SD • 200 Miles Away

GENOMICALLY-ENHANCED EPDS

Every animal in the sale has been genomically tested. These EPDs are re-evaluated more often than before so they will change more often. GE-EPDs provide more precise EPDs based on a combination of pedigree, phenotype and DNA. One major benefit is risk reduction through increased accuracies on many traits—the equivalent to having 8-20 progeny. This saves time when assessing young breeding stock and delivers commercial customers more confidence when buying seedstock.

Also, if you look under the EPD block of information, there is a % rank category with numbers showing where each animal ranks within the population. This will help you select bulls high in the traits important to you.

EPDs dated 1/24/22

LIMOUSIN BULLS

Lots 1-98

For nearly 50 years we have taken our role as professional seedstock producers very seriously. Our goal has always been to supply genetics capable of helping our customers succeed. As you study this set of bulls, know that every effort has been made to manage, measure, evaluate and represent these bulls in a manner consistent with our philosophy to insure 100% customer satisfaction.

The bulls were weaned in October and put on a grower ration of prairie hay, corn silage, corn and supplement to project a 3.5 lb per day gain. After taking yearling weights they will be backed off to prepare them for breeding in the pasture this summer. They were poured for lice in December and again if needed. We will have a supplement sheet prior to the sale with adjusted ultrasound carcass data, adjusted yearling weights and scrotal measurements. We are confident all bulls should calve virtually unassisted on mature cows.

- Will keep and feed bulls until April 15.
- Free delivery to 400 miles or central points.
- First breeding season guarantee.

Kicking off our 42nd sale is the lead-off bull from our reserve champion pen of Limousin bulls at the 2022 National Western Stock Show. SYES Jump Start 317J is chock-full of muscle, style and overall balance. This purebred is loaded with all the convenience traits cattlemen demand. Backed by generations of predictability and leading genetics, Jump Start is just the bull to rev up your program. Calving-ease with growth is the perfect combination to sleep at night and put money in your pocket coming weaning time. Lots to admire in this double homozygous SYES Easy Going son who weighed in at an impressive 787 pounds at weaning! Jump Start was a favorite of every one who stopped by our pen. You'll definitely want to have him circled in your catalog.

Some things are just right and we think you'll agree that SYES Just Right 105J is appropriately named. Just Right is a paternal brother to Lot 1 and carries many of the same positives as his brother and was also a member our of National Western Stock Show reserve champion pen. He has eight traits that rank in the top 15% or better, giving you a balanced set of numbers that is strong in growth traits with satisfying carcass values. This homozygous polled bull's full brother was a top seller in our 2021 sale going to the Nordal herd in Canada.

You'll think you won big when the gavel hits for the final time and you're the new owner of SYES Jackpot 175J. Check out this powerful homozygous polled bull's numerical lineup. If you want a bull that checks all the boxes, here he is. Top growth, check; top docility, check; top carcass value, check! This free-moving bull hits his tracks every time, weaned off at nearly 800 pounds and is deep ribbed. The Envision sons have been favorites of the industry and Jackpot is following in the same steps towards greatness.

SYES John Boy 24J was our alternate in our reserve champion pen of bulls at the 2022 National Western Stock Show. We think you'll appreciate him for his deep, soggy build, powerful look and the fact he is a cattlemen's kind of bull. Rugged and durable are terms that fit John Boy well. You won't go wrong with this red, homozygous polled purebred!

Nothing but net! SYES Jumpshot 422J offers a lot of rib shape and muscle expression in a well-balanced packaged that blends nicely with his impressive numerical values. We all know pounds is the name of the game and Jumpshot delivers that in spades along with docility and carcass traits. This Envision son is homozygous polled and his dam does her job in production, in fact her son last year was a popular lot going to Canada.

Whoa! Check out the power in this red, homozygous polled bull by TREF EZ Street. SYES Just 206J is a heavily muscled, stout featured purebred with tons of good to him. He has top weaning and yearling EPDs as well as a top 1% for docility. He is sound from the ground up. His dam is a WASY Bakers Man daughter who has done an outstanding job with her first calf! This is what the cattle business is all about.

SYES Jordan 212J is a strong-topped, deep-ribbed purebred who strides out freely. This homozygous polled son of EZ Street packs a lot into a mighty package. Get low birth weight, added growth and the Limousin look. This bull is from a first-calf heifer who we think has done a tremendous job in production.

SYES Joash 246J is a rugged purebred with tons of middle. This homozygous polled son of LFLC Checking Account has a light birth weight with plenty of milk and positive carcass traits. We expect a lot from our cows, insisting they are productive out of the gate. His dam has done her part with her first calf.

Calving-Ease Alert! His -3.7 BW EPD ranks in the top 1% of the breed. Moderate in his frame and big on muscle, SYES Jibe 479J is homozygous for both the black and polled traits.

Symens Brothers
Limousin

"We have purchased a few bull's from Symens Brothers over the years. They have always added extra pounds and calmness to our calf crops. Last year we purchased a bull called Hat Trick. We couldn't be happier with a bull. He is just so easy going and did a great job in the pasture. We turned him in with 26 females and according to the vet they were all bred within 30-40 days of his exposure date. And last summer was very hot and dry. We will be back to buy more bulls from Symens Brothers. They are good people with good cattle."

Mark Van Santen
Battle Lake, MN

BRED HEIFERS

BRED HEIFERS

Lots 99-115

The bred heifers presented here represent our 50 year commitment to the Limousin breed and the producers who have come to rely on the muscle, growth and efficiency inherent to the Limousin breed. They sell bred to SYES Easy Going 77E, SYES Encore 315E, TREF Easy Street 107E, Bar JZ Amazing Bull 157H or Lewis Gravity Flow G62. We selected these bulls for calving-ease as well as growth traits. The projected due dates are based on ultrasound pregnancy testing done in September. Those bred earliest will be due shortly after the sale and we will help arrange delivery as soon as possible. They have had 2 rounds of Guardian vaccinations for scour prevention. We encourage you to be prepared to take the females home early so they may acclimate to your environmental conditions prior to calving. If you take them home sale day we will credit you \$50 per head.

OPEN HEIFERS

OPEN HEIFERS

Lots 116-128

This top-notch set of yearling heifers were selected based on their conformation, pedigree history and EPDs in order to predict superior future production. Just as with their yearling bull contemporaries, since birth, these heifers have sorted themselves toward the top of their respective calf crop. In many instances, their genetic makeup is similar to the females we have chosen to retain in the herd to produce the next generation of SYES bulls and replacement females. We encourage you to take these females home early so they may adapt to your management style prior to showing or breeding. If you take them home sale day we will credit you \$50 per head.
