WELCOME

Shokunin Wagyu would like to welcome breeders from across the globe to this special sale, the first edition of “Genetic Gems”.

As many of you would know, I have a long history in the seedstock industry, having registered my first animals all the way back in 1992! Through this period, I founded the Stoney Point Angus herd, and grew it from the initial purchase of 2 cows, to a point where we were calving 400 registered cows, and selling 150 bulls a year across Australia. By the time we sold the herd in it's entirety in 2015, it was the largest producer of Angus bulls per year to the market in South Australia.

The sale of the Angus herd gave me the opportunity to delve into a breed that we'd dabbled with on a commercial basis, but never had involvement in from a seedstock level, the Wagyu breed. It was in this initial phase that I was lucky enough to strike up a relationship with the late great Simon Coates, of Sumo Cattle Co, and I was given access to some of the very best genetics from their herd, which forms the basis of the Shokunin herd today.

In a short period of time, we have become a focal point for both commercial breeders, chasing the predictable, high marbling genetics for their Fullblood and F1 herds (with Bulls sold from WA to Tasmania, to Queensland, and everywhere in between!), and from seedstock producers, wanting to propel their programs forward, through genetics from some of our best donor cows. This has seen genetics sold to numerous countries in Europe, the USA, and all over Australia.

It was due to this constant enquiry, that we made a plan, and the decision to hold a special sale, offering our best and most current genetic combinations, for the competition of both stud and commercial breeders from all over the world, was born.

As you read through this catalogue, you will see that nothing has been held back, in terms of quality, and had we not decided to hold this sale, a great number of these lots would not have been leaving our program, they are truly elite!

One of the most exciting aspects of this sale is the fact that we are offering all lots insured, with the recipient covered for 12 months from day of sale, and the calf in utero from date of sale, until 7 days of age, so you can buy with confidence knowing that the investment you make in these breed leading genetics is secure!

I feel this sale gives seedstock producers the opportunity to secure the next potential great herd bull, or donor cow, and for people looking for a start into the breed, it's a great chance to cherry pick some great heifer pregnancies from our best females, to form the basis of a herd. There is also great opportunity for commercial producers in my opinion, to potentially secure some bull calf pregnancies, at a discounted rate over buying a ready to use bull, to calve out in their own environment, and acclimatize for use in their own operations. Over a number of calves, for instance 5, there is scope to save a substantial amount of money, by purchasing in this way.

I'd like to thank the team at GDL Rural, particularly Harvey Weyman-Jones, for their support, and should anyone require any further information, please reach out to either myself, or Harvey, and we'd be only too happy to assist.

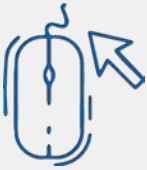

Kind Regards

John Gommers
Shokunin Wagyu

HOW TO REGISTER with ELITE LIVESTOCK AUCTIONS

Simply go to www.elitelivestockauctions.com.au using your desktop, laptop, iPad, iPhone or android device.

Click on the **"Sign Up"** page / link

Create a bidding profile using the bidder registration page.
(You can either register as a livestock agent, company or private buyer)

Agree to the Elite Livestock Auctions Terms & Conditions and the Selling Agents Sale Terms & Conditions as printed in the official Sale Catalogue

Click **"Register"**

You will then be notified by email that an account has been created.

Once an account has been created you are all **"Set to Bid"**

Each Auction can then be viewed by clicking **"Live Auction"** logo on the Elite Livestock Auctions website.

Once you receive email notification that your account has been created please go to the sale you wish to bid at and click **"Request to Bid"**

The sale will then approve your application to bid and on the sale catalogue you will see **"✓ Bid Request Approved"**

On Sale day simply login, click **"Enter Auction"** on the catalogue page and you can start bidding.
(There is no need for software download)

At the completion of the auction, invoicing will be carried out as per your registration details by the Selling Agents.

CONDITIONS OF SALE

The sale will be conducted under the ALPA Conditions of Sale as applied by GDL and is printed in the back of this catalogue.

Shokunin Wagyu offer lots under the following conditions:

1. The Sire and Dam of all pregnancies and embryo lots are AWA Registered as Fullbloods.
2. **Breedplan:** All data published in the sale catalogue is current at the time of publication. Latest data is available in the online sale listing on the AWA Sales Catalogue page.
3. **Recipients** sell on a per head basis eg. If the final bid price is \$15,000, the purchaser will be invoiced \$15,000 plus the gst component (if applicable)
4. **Embryos:** All Embryos are sold on a per embryo basis eg. If the final bid price is \$2,000, and there are 3 embryos in the package, the purchaser will be invoiced \$2,000 X 3 = \$6,000 plus the gst component if applicable. All Embryos are for domestic use only.
5. **Bidding:** The sale will be a live auction conducted online only, through Elite Livestock Auctions, allowing appropriately registered potential buyers worldwide to bid. Potential Online buyers from Australia should register with elitelivestockauctions.com.au. Special arrangements must be made by international bidders with GDL, who will provide a temporary password for this sale only. Contact Harvey Weyman-Jones to arrange this.
6. **Insurance:** All Recipients sell fully insured by the vendor, and this insurance passes to the purchaser at the fall of the hammer. This insurance covers the recipient for 12 months from date of sale, and the pregnancy in utero from date of sale through until the calf is 7 days old, at which time any further cover is the responsibility of the purchaser. You can bid with confidence know that your investment is secure.
7. **Freight and Delivery after the Sale:** Freight is the responsibility of the purchaser. Dick Smith Transport is our preferred carrier, phone Stephen Smith on 0428 636 236. As noted in the lot comments, Recipients are on properties at Colebatch, SA, Bungendore, NSW, and Holbrook, NSW. Arrangements will be made to streamline loads into loads per region, to minimize freight costs. Embryos are stored at Total Livestock Genetics, Camperdown, VIC, and will be despatched from there, with freight costs being the responsibility of the purchaser.
8. **Note to International Buyers:** Recipients purchased by international buyers, will have the opportunity to leave them with the vendor, to be calved down, and grown out to weaning, before being delivered to the export facility of their choice (there will be a small fee involved, speak to John or Harvey about this). Insurance of the ET calf would be expected to be maintained by the purchaser past 7 days of age, in the event they would like to take up this option.
9. **Recipient Information and Health Status:** All recipients are Angus heifers, or cows (cows are 6, 7 and 8 year olds), and are JBAS 6, and are up to date for 7 in 1 & Pestigard vaccinations, and have recently had a multimin injection, alongside a drench with Dectomax. Recipient Embryo implant dates are as follows: Holbrook NSW – 15/11/2022, Bungendore NSW – 20/11/2022, Colebatch SA – 21/11/2022. Pregnancy Foetal Sexing was carried out (or is to be carried out) on the following dates: Holbrook NSW – 26/1/2023, Bungendore NSW 16/2/2023, Colebatch SA – 1/2/2023. PLEASE NOTE: At time of first publication, sexing results have not been gathered for the pregnancies at Bungendore. The catalogue PDF will be updated on 16/2/2023 once this sexing has been undertaken.
10. **Retained interest in resultant calves:** Shokunin Wagyu will retain the right to one flush of a minimum of 4 fertilised embryos, at their expense, and the purchasers convenience, from all heifer calves born out of this sale. Shokunin Wagyu will retain the right to collect up to 200 straws of semen, for in herd use only, at their expense, and the purchasers convenience, from all bull calves born out of this sale. Shokunin Wagyu is offering a number of lots in this sale that would not normally be offered to the public, and is able to do so by retaining this small interest in each lot selling, so their genetics are not lost to their herd going forward.

Sale Catalogue Disclaimer: All reasonable care has been taken by the vendor and designer to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor, selling agents or designer make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue.

Offering Buyers Choice, with the winning bidder having the option to take their pick of the two heifer pregnancies, and the knockdown price. The other pregnancy will be retained by Shokunin Wagyu. Recipients located Holbrook, NSW.

This is the only opportunity in 2023 to access the genetics of quite possibly the best daughter of Michifuku F154 in existence, and the no 3 cow for Marble Fineness in the entire breed, Fuku P654. We thought long and hard before even offering up this choice lot, as we feel that both of these heifers will have so much to give to the industry going forward, it was a tough decision to allow one to be sold!

The mating to Mr Marble is a really predictable joining, with mid parent rankings in the top 5% of the breed for Marble Score and Marble Fineness, the top 15% of the breed for Carcase Weight, and the top 20% of the breed for all growth traits and EMA. This spread of data sees ranking in the top 1% of the breed across all index values, including an SRI of +\$317!

There may not be a higher marbling mating offered in 2023 than this Itoguni x P654 joining, with the resultant heifer on mid parent sitting at a whopping +3.6 for Marble Score. Heifers with Marble Score data like this do not get offered very often, so don't miss this chance! Mid Parent analysis sees rankings well inside the top 1% of the breed for both Marble Score and Marble Fineness, and the top 15% of the breed for EMA, while also ranking in the top 1% of the breed for all indexes.

These heifer calf pregnancies have the ability to propel you right to the forefront of the industry.

This is a maternal sister to the \$70,000 Heifer Calf Pregnancy from last years Elite Wagyu Sale, from Nami Q656, the famous G113 full sister to the up and coming Sumo Sire, Q85. This pregnancy is the epitome of multi trait superiority, with mid parent analysis ranking in the top 5% for all growth traits, Carcase Weight, Marble Score and Marble Fineness, and the top 1% of the breed for all indexes, including an SRI that sits at a mesmerizing +\$340. Genomics submitted on this calf, and you could truly have one out of the box. If you do a search in the database, and try and match this heifer across birth weight, growth, Marble Score and Fineness, and index values, across all current females, there is only 1 in the entire breed that hits these marks. This is about as elite as has ever been offered in the breed from a multi trait perspective. This heifer calf has the potential to generate hundreds of thousands of dollars for her new owner. Be sure to bid last! Recipient located Holbrook, NSW.

Offering Buyers Choice, with the winning bidder having the option to take one or both at the fall of the hammer. Should only one be taken, the remaining lot will be re-offered to the buying gallery.

What an opportunity for emerging or established breeders alike! Offering two daughters of the marbling superstar, Aizakura Q612, with the winning bidder having the option to take one or both at the fall of the hammer, at the winning bid price. Q612 is truly one of a kind within the breed, being one of only 4 females in the database that combines the marble score and marble fineness that she possesses. Pair this with Mr Awesome, one of the best proven carcass bulls outside of Japan (and whose semen sells for in excess of \$10,000 per straw!), and the emerging superstar, Arubial United, and you have something very special.

Mid Parent Analysis of the Mr Awesome mating shows Marble Score well inside the top 1% of the breed (at a huge +3.2!!), and the top 10% for Marble Fineness, while ranking inside the top 5% of the breed for all indexes. The United mating ranks in the top 1% of the breed for both Marble Score and Marble Fineness, and the top 5% of the breed for Carcass Weight, while also ranking in the top 1% of the breed for both SRI and Fullblood Terminal Index, and the top 5% of the breed for F1 Terminal Index. This is one of the most exciting opportunities offered in the Wagyu Breed for 2023! Recipients located Colebatch, SA.

This could well be the next big thing herd sire in the making right here. Shigeshigetani is highly proven and known for his ability to produce in the feedlot, as are many of his sons. Paired with the amazing marbling qualities of Q612, you have a calf that is elite across a number of the most important areas to profitability within the breed. With semen on Shigeshigetani extremely hard to get (and trading at \$3000 plus a straw), this is an opportunity to produce a son that is the next step on from this great foundation bull. Mid Parent analysis indicates rankings in the top 1% of the breed for Marble Score (at +3.0!!), the top 10% for Marble Fineness, the top 15% of the breed for EMA and %RBY, and the top 25% of the breed for low BW. All indexes fall well inside the top 5% of the breed. Recipient located Colebatch, SA.

Selling Buyers Choice, with the winning bidder having the option to take one, two, or all, at the winning bid price. In the event all are not taken, the balance will be re-offered to the buying gallery.

A great opportunity for Wagyu breeders to secure a heifer pregnancy from our largest framed, highest growth Michifuku F154 daughter, in Fuku P636. The mating to the hard to get Longford Mr Awesome sees rankings in the top 5% of the breed for Marble Score, the top 15% for %RBV, and the top 25% of the breed for all growth traits, as well as Milk! The pairing with United shows Mid Parent rankings in the top 5% for all growth traits, Carcase Weight, and Marble Score, the top 10% of the breed for Marble Fineness, as well as being in the top 1% for all indexes, including a huge SRI number Of \$340! The mating to Shigeshigetani excels for the all important carcase traits, ranking in the top 5% of the breed for EMA, %RBV and Marble Score, while also landing well inside the top 5% on all indexes. The resultant heifers of these matings will set breeders well on the way to producing some of the absolute top end animals in the breed. Recipients located Colebatch, SA.

This is an excellent mating of two large framed, well balanced, elite animals within the breed. United is one of the most complete bulls across a number of traits that the breed has seen in Australia, while P636 is one of the better F154 daughters, combining size, growth and elite marbling, with a rock solid pedigree behind her. Mid Parent analysis shows projected top 5% of the breed potential for all growth traits, carcass weight, and Marble Score, top 10% for Marble Fineness, and top 25% for Scrotal Size. This balance leads to an SRI figure in the top 1% of the breed (at \$321!!), and Fullblood and F1 Terminal indexes in the top 5% of the breed. This could be the next superstar in the breed! Lot 9A recipient located Colebatch, SA, lot 9B recipient located Bungendore, NSW.

Mid-Parent	0.3	4		19	5.3	1.9	-0.7	2.9	0.43	\$256	\$241	\$239	Inbreeding Coefficient : 9%

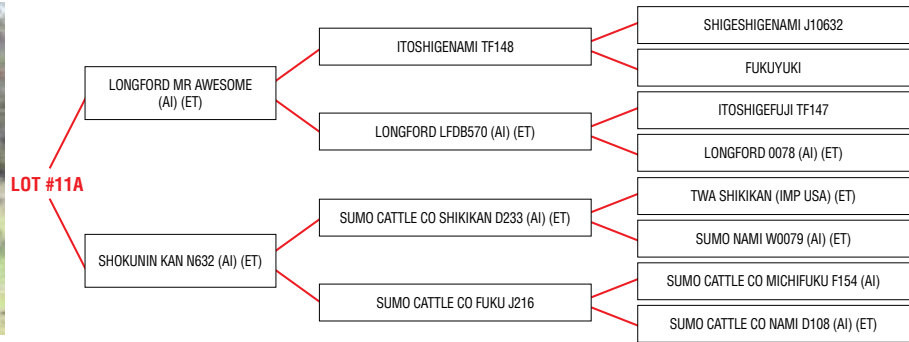

This is one of the best genetics we are offering, with the genetics offered in this pregnancy being some of the first offered, on both sides of the page. This pregnancy is out of the first daughter of Sumo Michifuku P647 into production, in Fuku R675, and by Itoguni 308H, which leads to a mid parent Marble score of +2.9, which is well inside the top 1% of the breed! The mating also produces top 5% marble fineness projections, and EMA and Rump Fat in the top 15% of the breed. Index Values land inside the top 5% of the breed across the board also. Had we not been having this special sale, a mating like this would not be leaving the farm! Recipient located Bungendore, NSW.

Selling Buyers Choice, with the winning bidder having the option to take one or both heifer calf pregnancies, at the winning bid price. In the event that only one is taken, the other lot will be re-offered to the buying gallery.

An opportunity for buyers to secure a daughter of one of our best Shikikan D233 females, Kan N632. The matings to both Mr Awesome and Arubial United will produce heifers that have exceptional balance across a number of key traits. Everyone knows the absolute feedlot supremacy that Mr Awesome brings to a pedigree, and keen observers would have noted the large number of United progeny that have sold for north of \$100,000 in the last 12 months. Whichever way you go, it's a mating sure to propel your herd forward. Be the winning bidder and you have the option of taking both! Mid Parent analysis of the Mr Awesome mating sees rankings in the top 10% of the breed for Marble Score, the top 15% for %RBY, the top 25% for EMA, while also ranking inside the top 10% of the breed for all indexes. The mating to United shows rankings in the top 10% of the breed for all growth traits, Marble Score and Marble Fineness, the top 15% for Carcase Weight, and indexes rising into the top 1% of the breed for SRI (at \$301!), and the top 5% for Fullblood and F1 Terminal Indexes. Recipients located Colebatch, SA.

This bull calf pregnancy by United and out of the exceptional Shikikan D233 daughter, Kan N632, will appeal to those breeders wanting to accelerate their feedlot performance within herd. With Mid Parent Analysis showing all growth traits landing inside the top 10% of the breed, alongside Marble Score and Marble Fineness, and Carcase Weight in the top 15% of the breed, its easy to see where the gains in the feedlot can be made with this Bull calf, once he's of age to work in the cow herd. Mid Parent also sees SRI sitting in the top 1% of the breed, at \$301, and both Fullblood and F1 Terminal indexes in the top 5% of the breed. N632 has shown herself to be a very maternal cow within our herd, so we'd expect the heifer progeny going forward to have a positive influence in the cowherd maternally also. Recipient located Colebatch, SA.

This mating of the marbling superstar, Itoguni 308H, to the high growth Hirashigetayasu daughter P618, will produce large framed progeny with plenty of muscle, marbling, and carcass weight. P618 herself is a maternal sister to the exciting new Sumo Sire, Michifuku P647, who is loaded with both muscle and marbling potential. Mid Parent Analysis sees Marble Score in the top 5% of the breed, Marble Fineness in the top 10%, and EMA in the top 25%. This comes together to produce a projected Fullblood Terminal Index in the top 5% of the breed, and SRI and F1 Terminal Index in the top 10%. Recipient located Bungendore, NSW.

Pedigree's don't come much better than this, with these matings being by Mayura L10, whose progeny are breaking records all over at present, and from a maternal sister to the exciting new Sumo AI Sire, Michifuku P647! This is an extremely well balanced mating once again, with growth in the top 10-15% of the breed, and milk and EMA inside the top 20%! This pedigree is high ranking on key carcass indicators, with both Carcass Weight and Retail Beef Yield in the top 10% of the breed, and Marble Score in the top 15%, alongside Scrotal Size. Mid Parent Analysis has both SRI and Fullblood Terminal Index in the top 10% of the breed, and F1 Terminal Index in the top 15%. Recipients located Bungendore, NSW.

I love this mating, as it brings the frame, growth and overall trait balance of United, to the muscle, dimension, and longevity of D8349. The Donor, D8349, is an absolute powerhouse daughter of Itoshigenami TF148, who weighs in at 650kg, and is still as sound as a bell at rising 15 years of age! This mating will add not only more frame and growth, but also increase Marble Score, in a sound made package. Mid Parent analysis indicates carcass weight in the top 5% of the breed, all growth traits inside the top 10%, Marble Score in the top 15%, and Marble Fineness, Rump Fat, and Scrotal Size in the top 20% of the breed. This elite balance across a number of traits projects SRI in the top 1% of the breed (at \$302!), and Fullblood and F1 Terminal Indexes in the top 5%. Recipients located Bungendore, NSW.

NOTES

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

CHAPTER ONE - PRELIMINARY

1. (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction.
- (b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.
- (c) A buyer is bound by these terms and conditions by bidding at auction.
- (d) **Competition and Consumer Act (Cth) 2010**
It is unlawful for parties that are, or otherwise would be, in competition with each other to make, or give effect to, a contract, arrangement or understanding that contains a provision relating to:
 - i. price-fixing; or
 - ii. restricting outputs in the production and supply chain; or
 - iii. allocating customers, suppliers or territories; or
 - iv. bid-rigging; or
 - v. collusive bidding.

Large fines and other sanctions may be imposed for unlawful conduct.

2. (a) In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors and agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.
- (b) When used in these terms the expressions "companion animals" means all animals originating from the same property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions.
3. The following applies in interpreting these terms and conditions:
 - (a) The following words have the following meanings:
Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent;
Livestock means animals auctioned pursuant to these terms and conditions; and
Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions.
 - (i) plus any Fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and
 - (ii) plus any GST added in accordance with clause 12.
 - (b) These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

CHAPTER TWO - STANDARD TERMS OF SALE

4. Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.
5. The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.
6. A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again.
7. Prior to the fall of the hammer the auctioneer shall announce the last bid and receive any further bids. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.
8. In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.
9. The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor and need not give reasons for doing so.
10. A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.
11. The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:
 - (a) the purchaser's name; or
 - (b) the bid card number which identifies the purchaser; or
 - (c) the name of the person on whose behalf the successful bid was made; and
 - (d) the Property Identification Code (known as the "PIC") of destination.
12. The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.
13. The vendor warrants:
 - (a) That the vendor has (or will have) the right to sell the livestock at the time of delivery; and
 - (b) That the purchaser will obtain title on completion of the purchaser's obligations under this contract including payment.
14. If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock knocked down to the buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.
15. The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in an agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.
16. No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negated as far as possible.
17. (a) Cattle sold on a liveweight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.
- (b) Cattle sold on a liveweight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.
- (c) All livestock other than cattle sold on a liveweight basis are at the risk and expense of the buyer upon the fall of the hammer.
18. (a) Subject to this clause the sale is complete on the fall of the hammer.
- (b) The time for rejection is the time commencing at the fall of the hammer and ending at the first of:
 - (i) delivery is taken by a representative of the buyer;
 - (ii) departure of the animal from the purchaser's delivery pen; or
 - (iii) one hour after the last animal is:
 - a. in the case of pre-sale weighing, sold; or
 - b. in the case of post-sale weighing, weighed.
- (c) During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.
- (d) If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reason for rejection to that buyer.
- (e) This subclause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, for delivery to and from the scales, to the buyer's delivery pen and onto the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale.

subclause does not apply if the agent makes an announcement to that effect prior to sale.

19. (a) Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.
- (b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of supra error or misdescription can be made after that time.
- (c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner was pregnant on that date.
- (d) For slaughter cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
- (e) For other slaughter livestock the agent undertakes to make every reasonable effort to ensure that the NLIS information is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
- (f) Where livestock have a food safety or market eligibility status derived from the National Vendor Declaration (NVD) and/or the NLIS/ERP database, the agent will inform the buyers by pre-sale catalogue and/or announce the status prior to the offering of those lots.
20. If delivery is made to, or possession obtained by, the buyer or its representative before full payment of the Price, then until full payment is received, the buyer:
 - (a) does not acquire title to the livestock;
 - (b) holds the livestock as bailee only for the vendor;
 - (c) must act in a fiduciary capacity in its relationship with the vendor;
 - (d) must store the stock separately or so that they are readily distinguishable from other livestock owned by the buyer;
 - (e) is responsible for the safety and well being of the livestock;
 - (f) may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and
 - (g) must keep and account for the proceeds of any subsequent sale separately from its other money and hold those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.
21. The purchaser agrees that:
 - (a) Clause 20 creates a registrable security interest under the Personal Property Securities Act (Cth) 2009 (PPSA);
 - (b) The Purchaser acknowledges the rights of the Seller (and/or the Agent if Clause 25 applies) to register a financing statement under the PPSA with respect to the security interest created by this clause;
 - (c) the Livestock are collateral for the purposes of the PPSA;
 - (d) to the extent permitted, the Purchaser waives any right the Purchaser has under the PPSA to receive notices; and
 - (e) the date upon which the security interest created by this clause comes into force is the first date on which livestock are delivered pursuant to this contract.
22. The buyer may not make any claim against the vendor for actions by the vendor or its agent under clause 20 or hold those proceeds, together with its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor, the agent or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.
23. Clause 23 applies whenever the agent pays the vendor before being paid by the buyer, when the agent is not bound to do. The agent is then the del credere agent of the vendor at law.
- 23.2. The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.
- 23.3. When this clause applies, in addition to any rights of the agent that arise by operation of the law, the parties agree that, subject to clause 23.5 the agent is subrogated to all rights of the vendor under these terms and conditions against the buyer.
- 23.4. The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, or the Price of such livestock, owing by the buyer under these terms and conditions:
 - (a) when this clause does not apply, as agent of the vendor (including by reselling the livestock); and
 - (b) when this clause applies, on the agent's own behalf exercising the rights of the vendor by subrogation or assignment under these terms and conditions (whether in the vendor's name or not) and, where title to the livestock has not passed to the agent, by selling the livestock as agent of the vendor without the agent having to account to the vendor for the proceeds of sale.
- 23.5. The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under clause 23.3).
- 23.6. The vendor hereby irrevocably appoints the agent as the vendor's attorney to:
 - (a) do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded, or intended to be afforded, to the agent under these terms and conditions; and
 - (b) appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.
- 23.7. These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor or otherwise.
- 23.8. The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:
 - (a) by this clause 23, other than as it expressly provides; or
 - (b) by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.
- 23.9. The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including any assignor of the vendor's or the buyer's interests under these terms and conditions.
24. (a) The agent agrees that he is liable to pay to the vendor the Price, less such commission as is agreed between the vendor and the agent, and in the absence of any agreement such amount as is reasonable, and less the Fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.
- (b) In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent.
- (c) Regardless of whether or not a sale has occurred the agent may, but is not under obligation so to do, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.
25. (a) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of

engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.

- (b) The vendor, the agent and the buyer agree to comply with their several duties under the Australian Animal Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and handle livestock in accordance with any other or additional requirements of animal welfare legislation specific to the jurisdiction in which livestock are consigned, managed, received, transported and handled in the course of the auction process.

CHAPTER THREE - VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

26. This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
27. The warranty of a vendor is that livestock and their companion animals offered for sale at auction:
 - (a) pass government and other regulatory authority requirements and inspections at the time of slaughter;
 - (b) are of merchantable quality;
 - (c) carry an NLIS device in accordance with State law;
 - (d) in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in any document, the livestock will have those characteristics or will be fit for the particular purpose or market; and
 - (e) all information in any document provided by the vendor is true, complete and correct in all material respects.
28. In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.
29. However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.
30. In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.
31. Where a sentinel animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms, then:
 - (a) the buyer will be entitled to delay payment for the price of all livestock in that lot only;
 - (b) the vendor has the option, at the vendor's cost, of collecting the companion animals, if allowed by law; or of having the livestock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.
32. The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:
 - (a) any error, by the auctioneer, of transcription of information from the NVD completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
 - (b) any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and
 - (c) any failure by the auctioneer to announce prior to bidding, or disclose in the pre-sale catalogue, that the vendor has failed to provide a NVD that is complete in all material aspects.

CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

33. This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
34. Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by government. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the relevant government certificate, existed prior to the fall of the hammer.
35. A buyer with the benefit of owners risk protection is not liable to pay the Price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.
36. Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:
 - (a) a certificate is issued by government which states the relevant NLIS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;
 - (b) the certificate is received by the selling agent either in its original form or by fax or electronic communication in the form of data, text or imaging by 5:00pm on the 7th day after the fall of the hammer; and
 - (c) if the condemnation is due to chemical residue the certificate follows testing in a government approved laboratory which establishes maximum residue limits in excess of the Australian limit.
37. Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of breeding, fever, partial condemnation or emaciation.

CHAPTER FIVE - NOTICES REQUIRED BY LEGISLATION

NSW Property, Stock and Business Agents Act 2002 Warnings

Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:

- (i) to abstain from bidding; or
- (ii) to bid to a limited extent only; or
- (iii) to do any other act that might prevent free and open competition.

Severe penalties may be imposed on persons convicted of collusive practices.

The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale.

Tasmania Legislation. An auctioneer conducting a public auction must not appear to acknowledge the making of a bid if no bid was made. A person must not participate in collusive practices by any of the following: making or receiving an unlawful bid to abstain from bidding, not to bid except to a limited extent or do any other thing which may prevent free and open competition.

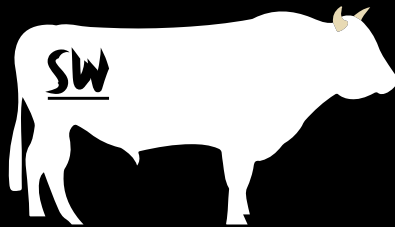

WA Auction Sales Act 1973 s31 NOTICE

It is an offence to:
 (i) induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to toss or draw lots to establish who is to become the owner;

- (ii) abstain or agree to abstain from bidding as a result of such a promise;
- (iii) knowingly enter or permit to cause to be entered in the auctioneer's record any name other than that of the actual successful bidder;
- (iv) enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or
- (v) in the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.

The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
