## WELCOME CATTLEMEN

Welcome to the 43rd annual Wieczorek Limousin Production Sale. Thank you for your interest in our program and for giving us the opportunity to serve a portion of your seedstock needs. This is something that we consider a privilege and take very seriously.

It's been our long standing goal to make your bull buying experience as stress free as possible. Notice, as you look through the catalog you will see complete performance data, EPDs and percentiles for each lot. Furthermore, we've elected to invest in genomic testing for all our registered sale bulls to further increase the accuracy of the EPD's provided. Note, a more detailed explanation of GE EPD's and the potential realized value they offer can be found on page 16. Additional information that will be available sale day will be adjusted scrotal data and carcass ultrasound information.

From a customer service standpoint, all bulls selling are unconditionally guaranteed for the first breeding season. This includes death, injury and dissatisfaction. We will also keep your purchase until April 1 and then arrange delivery up to 250 miles at absolutely no cost to you. If you live beyond 250 miles, we will work with you in locating a satisfactory central point. Wieczorek Limousin will also provide you the option of paying 1/2 down sale day with the balance due at delivery.

Feel free to stop by the ranch any time prior to the sale to view the bulls. If you have questions about the offering or need assistance with travel arrangements, just pick up the phone and give us a call, we would be happy to assist. Again, we look forward to seeing you at the ranch on the 24th.

*Sincerely,*  
**The Wieczorek Family**

## FAITH, FAMILY, FRIENDS

The importance of quality herd bulls, be it in a commercial or seedstock operation, cannot be stressed enough.

Herd bull decisions made today influence your program, either positively or negatively, for years to come through daughters retained in the herd. At Wieczorek Limousin we have always believed in having the absolute best bull power available in the industry. As such, we have invested heavily over the years to ensure only the best sires walk behind our progressive AI and embryo program. As you study the bulls offered for sale in this catalog, and as you look over the reference sire listing on the following pages, you will notice the positive influence bulls owned by Wieczorek or bulls carrying the WZRK prefix, are currently having on our program.

By becoming a customer of Wieczorek Limousin, you are not simply buying a new herd bull, you are buying into our philosophy of continuously striving to improve the sire side of the breeding equation.

**FEED EFFICIENCY DATA:**

ADG 4.75 // ADG Ratio 110.32% // Feed/Grain 6.08 // Feed/Grain Ratio 83.33%

What an exceptional way to lead off this impressive offering! WZRK Kryptonite 5022K combines a notable pedigree, a balanced EPD profile, and eye-catching phenotype. His sire, CELL Envision 7023E has proven to transmit progeny that pair big data with stand-out phenotypes. CELL Envision 7023E is deceased, but his legacy continues, siring calves that sort to the top of many astute breeding programs across the country that have captured the attention of the best cattlemen. His dam is a beautiful, patterned Hunt Atomic 17A daughter. On paper, he has numbers worth studying, take note of his moderate birth weight EPD. He is a true curve bender when you study his breed-leading weaning weight and yearling weight, both traits rank in the top 3%. He also ranks in the top 2% for total maternal, top 2% for scrotal, top 3% for docility, top 1% for carcass weight, top 15% for ribeye, top 5% for marbling, and top 2% for mainstream terminal index. Aside from his numerical advantages, phenotypically he is heavily structured, big-bodied, level topped, with extra muscle expression, and is free moving off both ends of his skeleton. What's more, he is homozygous polled and homozygous black. Don't miss out on your chance to own this remarkable individual that will predictably advance your breeding program to new heights.

This red homozygous polled herd sire prospect is sure to be a crowd favorite sale day. Visually he is heavy structured, level topped, with extra muscle expression and free moving off both ends of his skeleton. He is sired by WZRK Hometown 4055H, the TMCK Cash Flow 247C son that was a top seller in a past bull sale selling to Berti Limousin. This sire caught the attention of many since he was top of the breed for growth, docility, and marbling. His dam is a 9-year-old RUNL Stetson 850S daughter, that has breed-leading ribeye. On paper WZRK Kracker Jack 4011K has impressive stats, ranking in the top 25% for both weaning weight and yearling weight. Make no mistake and be sure to have him on the top of your list sale day

Big-time growth bull. If you're searching for a herd sire prospect that will add pounds, look no further than WZRK Klondike 4038K. He recorded a 711lb 205-day weight that ratio a 103. This explosive growth could be predicted due to his performance EPDs, his weaning weight and yearling weight both rank in the top 10% of the breed. His sire, CELL History Buff 0245H was our purchase from the 2021 Linhart Limousin Bull Sale, this son of CELL Envision 7023E was a true standout phenotypically and numerically. His dam is an 8-year-old RUNL Stetson 850S daughter. Numerically he offers a weaning weight and yearling weight that both ranks in the top 10% continue to study his EPDs and find top 15% total maternal, top 2% docility top 1% carcass weight, top 10% marbling, and top 15% ribeye. This combination of presence and numbers project him to be the type of herd bull that produces well-balanced, polled, stout calves' year in and year out

This bull is an absolute stand-out in the offering. Heavily muscled, rugged designed, big-bodied, and sound on the move. He is sired by the popular Wulfs Emprize 2424E, a red Lim-Flex that was on everybody's radar when he was the anchor bull in the 2019 NWSS Champion Lim-Flex Pen, he was a top seller in the 2019 Wulf Cattle Opportunity Sale purchased by Magness Land and Cattle. Emprize progeny have tremendous base width, center capacity, and muscle expression. This lot's dam is a maternal patterned WZRK Prime Cut 8012Y daughter. On paper, he ranks in the top 35% for both weaning weight and yearling weight paired with high rankings in numerous industry-relevant traits. He has everything completely stacked in his favor.

This herd sire prospect is an absolute eye-catcher. Stout featured, long-bodied, and wide-based. He weaned at 770 lbs to ratio a 112. He is sired by WZRK Ghandi 3018G, who has made his mark in our herd due to his ability to transmit functionally correct and muscular phenotypes. His dam is a H2R Profitbuilder B403 daughter. This red Lim-Flex female has done a great job. On paper WZRK Knucklehead 8203K has exceptional growth, ranking in the top 3% for both weaning weight and yearling weight. Pair this growth with breed-leading maternal traits, top 4% milk, and top 1% docility. Also, take note of his 1.13 ribeye which ranks in the top 10%. This homozygous polled black Lim-Flex is going to do big things for the winning bidder. Make that be you.

Take note of this well-balanced individual that comes to you in a heavily muscled, red-hided, homozygous polled package. He is a highly usable and versatile WZRK Game Changer 4015G son, the top-selling bull in our 2020 sale selling to Coleman Limousin. His dam is sired by WULFS Apostle T343A. WZRK Kombucha 7041K is well-balanced numerically. Ranking high for growth and maternal traits as well as ranking in the top 2% for marbling and mainstream terminal index. The earning potential is all here, and we're excited to offer a bull of this nature and proven lineage. Red hided and homozygous polled, we think WZRK Kombucha 7041K does a lot right.

# PROGRAM

**Financing Program - 50% down at the time of purchase, balance due on delivery**

**All bulls are 100% unconditionally guaranteed**

**Sight unseen purchase program**

**Free wintering until April 1, 2023**

**Free delivery to central points**

**All bulls will be ultrasounded and carry GE-EPDs by sale day**

**Sight unseen purchase program - Contact Wieczorek Limousin direct or any member of the sale staff to discuss your needs and every effort will be made to describe the bulls accurately. If you get the bull and don't like him, you don't own him.**

## IMPROVING SELECTION THROUGH NALF GENOMIC-ENHANCED EPDS (GE-EPDS)

Limousin breeders and their commercial customers benefit greatly from new breeding and selection tools. The North American Limousin Foundation (NALF) launched genomic-enhanced EPDs (GE-EPDs) with the fall 2015 international cattle evaluation. This provides GE-EPDs for all Limousin and Lim-Flex animals that have completed DNA testing for genomic profiles.

The information from the genomic data can be as informative as a bull's first calf crop or a cow's lifetime production record. Since genomic data is incorporated directly into the EPDs, cattle producers will not have to learn how to interpret new data.

For more information, visit [www.NALF.org](http://www.NALF.org) or call 303-220-1693.

## Major Benefits of GE EPDs

- Risk Reduction through improved accuracies
- Value of time to assess breeding stock at a younger age
- Increased rate of genetic progress
- Getting data on economically important traits, which are expensive or difficult to measure
- Combination of pedigree information, individual performance data, and genomics into one easy to understand number

 **GE-EPDs**  
North American Limousin Foundation

# OUR STORY

Wieczorek Limousin is a fourth generation operation located in southeastern South Dakota. Our main headquarters is located on the original tract of land homesteaded in 1882 by ancestors who immigrated here from Germany. While the original sod house no longer exists, the values that the first generation instilled still do – Faith, Family, and Work Ethic.

We have utilized artificial insemination since 1968 to advance the quality of our cow herd. In 1970, we expanded our existing multi-breed herd with Limousin sires, such as Dandy, Éclair, and Prince Pompadour. The ease of calving coupled with the calf vigor and muscularity from those first matings sold us on the breed. From that point forward, we switched exclusively to Limousin on the entire herd and began to build the PB herd that currently grazes our pastures.

Our inaugural bull sale was hosted in 1981. To that end, one of the things we are most proud of is to have several customers that bought bulls at that first sale that are still purchasing WZRK genetics today. Over the years, many of our loyal bull buyers have become life long friends, and that's something that makes us truly feel blessed. We take the people side of the business very seriously and never for granted, that's why making sure customers are satisfied has always been our number one goal.

43

Years

**1882**

- Henry Wieczorek homesteaded this quarter
- He began working the land and raising livestock

**1889**

- Proved up the land and was granted title under the Homestead Act of 1862

**1928**

- Henry's son, Paul takes over the operation

**1955**

- Paul's son, Wally, purchases operation

**1968**

- Wally goes to AI school and begins utilizing this new technology on his commercial cows

**1970**

- Used Limousin semen for the first time

**1971**

- Purchased 30 half blood limousin cows from Dean Ogren

**1975**

- Joined NALF and registered our first set of calves that fall

**1988**

- Curt exhibited Grand Champion carcass steer at South Dakota State Fair

**1981**

- Hosted our first production sale at the Corsica Sale Barn

**2016**

- Moved sale location back to the ranch

**2019**

- Curt served as NALF President

**2020**

- Hosted our 40th Annual Production Sale

**2021**

- Began feed efficiency testing

**2022**

- Wieczorek Limousin received the Limousin Promoter of the Year Award

## EFFICIENCY

## MEETS MARBLING

This past year we had the opportunity to buy a set of steers from a customer. Part of the motivation for purchasing the cattle is that they were mostly AI sired with nearly half of them sired by our bulls Wulfs Eisenhower and CJSL Databank. Our goal was to take these calves all the way to harvest and get the data back post harvest. This group of steers were all from the same contemporary group of angus based cows with half of them sired by Angus bulls and the other half by Limousin sires. 100 % of the cattle graded choice or higher. Following is a summary of the data. While we expected the Limousin sired cattle to out gain and have bigger ribeye's, we didn't expect them to have a higher marbling score than their angus counterparts.

	Hot Weight	Yield Grade	Ribeye	Fat Thick	Marbling Score
Average All	1004.71	3.79	13.74	0.75	588.14
Average Limousin	1019.3	3.83	13.97	0.79	593.43
Average Angus	978.94	3.74	13.46	0.7	581.74
	Prime	Upper 2/3 Choice	Low Choice		
Limousin	17.4%	56.5%	26.1%		
Angus	15.8%	57.9%	26.3%

**THANK YOU**

**SMITTY. YOUR YEARS OF PROFESSIONALISM, INFLUENCE & FRIENDSHIP HAVE BEEN APPRECIATED!**

Since the beginning, Mark Smith of Grassroots Genetics & Consulting has been a staple of our program and his many years of sale day assistance, annual consulting and long-fire side chats have been both valued and appreciated. It's with little question, Mark's influence in the Wieczorek Limousin program is one of great lengths. It's with warmest wishes we congratulate Mark on his retirement from the road, you will be missed. That said, we still look forward to utilizing his insurance services and genetic insights going forward albeit via phone and hopefully, from warmer weather.

*From the entire Wieczorek family, thank-you simply isn't enough!*

# You Can Have Your **FEED EFFICIENCY** And Eat It, Too

With rising feed costs and an increased focus on sustainability within the beef industry, feed efficiency is more than a buzzword, it's rapidly becoming a battle cry in an industry challenged to do more, with less.

By incorporating today's Limousin and Lim-Flex genetics into your crossbreeding program, you can capitalize on the breed's inherent feed efficiency advantage while still banking the premiums paid for high quality, high yielding carcasses.

*That's two ways to profit, instead of one!*

///

*"Feed accounts for somewhere between two-thirds and three-fourths of the input costs of the feeding phase. So, feed intake and the utilization of those feed resources really gets at the heart of profitability in our business."*

*Dr. Bob Weaver, Director of Eastern Kansas Research and Extension Centers*

*"Using a Continental breed such as Limousin or Lim-Flex on a British-based cow herd gives you the best of both worlds – the maximum combination of a balance between gain, feed efficiency and carcass quality."*

*Dr. Kee Jim, CEO of Feedlot Health Management Services*

# 2023 BULL SALE

We appreciate your support and interest in our breeding program. We take the people side of the business very seriously and never for granted, that's why producing a quality product and making sure our customers are satisfied has always been top priority. Simply put, your attendance and participation in our sale event has humbled us, and we wish you many successes with your purchases.

Thank you for taking time to view the catalog and allowing us the opportunity to earn your business.

**SIGHT-UNSEEN PURCHASE PROGRAM...** If you're unable to attend you tell us what you're looking for, we'll do our best to meet those needs, and if you're not satisfied when you get your bull(s), you don't own them!
