SALE ORDER & SUPPLEMENTAL INFORMATION Sale order is catalog order! Any additional information or corrections to the sale catalog will be available online at www.wagyu365.com prior to the sale.

GENERAL SALE TERMS **TERMS AND CONDITIONS** ... Cattle will sell under the standard terms and conditions. All consignors in the Signature Series 4.0 Wagyu Sale sell their lots 100% fully guaranteed. Any announcements from the sale podium will take precedence over the printed sale catalog.

EMBRYO GUARANTEE ... Any embryos sold as stated and are not guaranteed on conception. All embryo lots will have statements regarding each with their descriptions.

DESCRIPTIONS AND FOOTNOTES ... Each consignor wrote the descriptions that pertained to their lot or lots. Wagyu365 does not take any responsibility, in regards, to the guarantee of what was written. Any adjustments or corrections will be made at the time of the sale.

REGISTRATIONS, TRANSFERS AND EMBRYO TRANSFERS ... Within 60 days of the date of the sale, the cattle sold will be transferred (registrations) to the new owners through the offices of the American Wagyu Association. The fee is paid for by the seller. It is up to each buyer to research or ask questions direct to the sellers on any specific export information needed for their desired destination.

PAYMENT ... All lots must be paid for immediately within seven days following the conclusion of the Signature Series 4.0 Wagyu Sale unless prior payment arrangements have been made with any representative of Wagyu365. Buyers are welcome to pay by credit card. If so, you will be charged a 3% fee on the total sum of your purchase.

DELIVERY ... Buyers are responsible for any shipping cost pertaining to embryo purchases and transportation of the live cattle. Wagyu365 buyers and sellers will work together to make this the easiest and most efficient process possible.

LIVESTOCK MORTALITY INSURANCE ... Any representative of the Wagyu365 team can assist any buyer with insurance regarding their purchases.

GENETIC CONDITIONS ... Log onto www.wagyu.org, and go to Digital Beef Sign In link and results of the genetic testing will be found on the lot selling. It is the buyer's responsibility to check any information on the lots selling listed on the Wagyu digital beef website before purchasing.

Auction money and proceeds will be conducted under Randall O. Ratliff dba R & R Marketing, P.O. Box 60097, Nashville, TN 37206. Bond # 7901027402 (U.S. Department of Agriculture, Grain Inspection, Packers and Stockyards Administration Packers and Stockyards Program.

Dear Wagyu Enthusiasts,

It is with great pride and pleasure that Wagyu365 welcomes you to the Signature Series 4.0 Wagyu Sale. The team members of Wagyu365 have worked closely with the AWA Members in solidifying their entries for this annual sale. We couldn't be more pleased with the amount of interest in the promotion and the betterment of the Wagyu breed. It is evident by the positive response from so many fellow breeders, as to the strong desire to make the AWA the best it can be and keep the Wagyu breed at the highest level. My hat's off to the hard work of the AWA staff and Board of Directors, AWA Executive, Robert Williams along with Martha Patterson of the AWA staff and many others for their time and devotion to the betterment of the AWA. They and so many others have spent countless hours of their time in making this AWA Convention the best it can be for all. As you review the sale catalog, you will find some of the finest registered Wagyu cattle in the breed. These breeders have worked hard to showcase their genetics to the highest level to highlight in this sale. The consignors have outlined their thoughts on each of their lots and we look forward to showcasing them in the sale. Make plans to join us for this special sale event on September 22nd at 3 p.m. C.S.T. Immediately following the genetic sale, we will have the AWA donation auction. If you have any questions in regards, to the sale, please feel free to contact me or any of my team members at Wagyu365.

Best Regards,

Randall O. Ratliff

DVAuction
 Broadcasting Real-Time Auctions

- Watch & bid online for FREE at DV Auction Buying online is as easy as 1, 2, 3 ...
1. Create an account at www.dvauction.com under the "register" tab.
 2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction — a DV Auction representative will notify you once you have been approved.
 3. Tune in for the sale and make your purchases! After the sale, contact the sale manager or owner to arrange transportation and payment. High speed internet is required for successful bidding. Be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

PROXY BIDDING: If you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. The DV Auction full-time support team can also always be reached at 402.474.5557.

LOT 1A ... YYW Y2 RYUU L40A

Sells open and ready to flush.

Y2 Ruemetsuki E040 pairs JC Rueshaw 92 and IWG Ms Umamaru 67Z combining to line breed the unmatched marbling potential of WSI Umamaru with outcross genetics from Rueshaw, Judo, and Dai 8 Marunami. Heartbrand Big Al, who is known for his growth, can also be found through the maternal side of this pedigree.

JC Rueshaw 92 is the full brother to Rueshaw II and JC Rueshaw 75 who was the two time overall IMF% Houston Grand Champion. JC 92's sire Rueshaw was the only Japanese Grand Champion to leave Japan. Also found in JC 92's pedigree are marbling genetics found through WSI Umamaru and Judo. JC Rueshaw 92 is a full brother to Rueshaw II who recently syndicated for \$100,000.

IWG Ms Umamaru 67Z combines the marbling potential of WSI Umamaru over line bred Heartbrand Big Al known for potent growth potential. Rounding out her pedigree is Dai 8 Marunami who is regarded by many breeders as the best Akaushi female to be exported to the U.S.

This pedigree places the only Grand Champion to leave Japan, Rueshaw, at the top of the pedigree with WSI Umamaru, sire of multiple Houston and Denver Grand Champions, all over linebred Heartbrand Big Al before we come to the fourth dam: Dai 8 Marunami, herself acclaimed by many established breeders to be just as deserving as Akiko.

LOT 1A ... FULLBLOOD BULL CALF - YYW Y2 Ryuu L40A (U102961) - born 05.15.2023, sired by JVS BIG AL E58 ET (FB37061), BW: 62 lbs. Eligible for American Akaushi Association registration.

This yearling bull boasts a pedigree stacked with Takeda Farms breeding. His sire is the breed leading and breed changing sire, Arubial United. The superior growth of United is underpinned in the pedigree by elite carcasses Kikutnami x Michifuku x Itoshigenami x Kimifuku. The female base of the pedigree is the legendary, proven transmitter Hikokura 1/10. The maternal line of this bull packs in Takeda carcass trait sires such as TF146, TF148, and Kimifuku 3! This is a special bull that combines the current top sire of the breed with the history of proven Takeda genetics.

This lot is a yearling heifer that can head straight to the donor list in any breeding program around the world. Descending from the hard to find Yasuyoshi maternal line from JVP, she boasts a highly desirable and unique sire stack of L10 x Sanjiro 3 x TF151 x Sanjiro x JVP 400 x JVP Yasutanisakura. The Sanjiro 3 x TF151 combination is nearly impossible to find, and then further back is the rare Yasutanisakura! This maternal line has produced some magnificent carcasses and this heifer will continue to pass great carcass traits into future generations with her exceptional genomics for superior marbling and extremely large eme muscle area. These are the moneymaking traits! This heifer will be a moneymaker, too.

Top 1% marbling

Top 1% fine marbling

This heifer is representative of the very best of a foundation pedigree. The extensive sire stack is full of direct import or first generation bulls. The Yasuyoshi maternal line is the foundation of this heifer, which has been improved each generation with an impressive sire stack of TF148 x Sanjirou 3 x TF151 x Sanjirou x JVP 400 x JVP Yasutanisakura. The pedigree contains a unique combination of sires which have worked to produce outstanding carcasses. This heifer is no exception as she carries elite genomic scores for the important economic traits of marbling, eye muscle size, and marbling fineness. This heifer will be a fantastic investment.

LOT 7 ... OCD TBF100 SONGBIRD 8010K ET

Not only does this heifer's pedigree speak for itself, but her genomically-enhanced EPDs say it even louder. Her IMF score puts her in the top 1% of the breed in the US! Her sire, Trent Bridge TBRF M100, was created by using the greatest marbling foundation animals in the breed, Itoshigenami TF148 and Kitateruyasudoj J2810, who is one of only a handful of 100% Tajima bulls imported from Japan. Her maternal line originates with the famous foundation dam imported from Japan, Kikuhana 298 of the Kedaka lineage, which is reknowned for outstanding brood cows with phenomenal growth and milk. The sire stack on the dam's side includes great, marbling foundation sires such as Monjiro's Michifuku, Sanjiro and Itomichi 1/2. A pedigree with this combination of excellent marbling genetics and strong maternal characteristics makes this heifer a superb candidate for building and growing your herd with solid genetics. She is 60% Tajima and sells open. She comes from a John'e's-free herd that is certified by the New York Cattle Health Assurance Program, is vaccinated against respiratory diseases (BVD, PI3, RSV, Lepto x5, Hardjo Bacterin), pink eye and clostridia x7, and is dewormed. Her sire and dam are free of known genetic recessive disorder genes.

This young female is the product of a classic Wagyu pedigree. She is a daughter of the highly proven carcass trait sire, Michifuku. Her dam is a rare match of the Kanetani maternal line with the Okahana maternal line through Hikari 2. Hikari 2 is a direct son of Okahana sired by Michifuku. The maternal granddam is Kage, which brings a second cross to Okahana. There are many breeding options and opportunities in the future for this genetic gem. She is very special with her sire pathway of Hikari 2 x Kage x O68 x Tanishige. There will be demand for her offspring!

Pasture Exposed 08.15.2023 to present to CF Genjiro Jr. 273H (FB85023).

This pedigree is anchored by well-known, one name matrons such as Patti, Fujiko, and Okutani. On the paternal side, she is built from a son of TF813 Kimitofuku, who is an outstanding marbling sire from the Takeda program. This heifer's maternal line has been developed through the combination of growth and carcass bulls such as 001, Sanjiro, Kenhanafuji, Kikuhana, and Haruki II. She is highly desirable simply based on the fact that she traces directly to Fujiko and Okutani on her maternal side. This is a very solid pedigree to bring into any breeding program.

Safe Bred to PV Kinusurukiku 951J ET, (FB89511); Estimated due date of March 2024

Top 5% Carcass Weight EPD! Top 10% Marbling EPD!

This is an extremely balanced and growthy heifer with elite carcass traits to build a herd around! The dam of 1102J (PV12C) is a very large-framed cow with enormous spring of rib, weighing in at 1,500 pounds. Her sire, Mayura L0010, is shining consistently in BOTH USA EPD and AUS Breedplan EBV... in both analysis, he is top 10% for marbling and carcass weight. Confirmed 75 days safe bred in calf on 8/17/23 via ultrasound. A clean cow! Tested negative on 05/23/23 for Johnes, Anaplasmosis, Neospora

Due to calve by sale day. Bred to, LLN Mayushige 9550H FB61548, son of Mayura L10.

She is a granddaughter of both TF Terutani and Itoshigenami 148, both being foundation bulls. She has demonstrated a strong expression of marbling based on Ultrasound IMF%, implying a good potential of passing this genetic trait on to her offspring, as IMF expression by US is a heritable trait. This is the number four female in the US by EPD for IMF% and top 1% by rank.

The sire of this female, VT138, is out of the original Terutani 40, a 100% Tajima bull. The cross of the sire and dam create an out-crossed female with a low inbreeding coefficient.

LOT 13 ... GMNY NOTORIOUS DEAD WRONG

You can't go wrong with this bull! He is a result of the best of the new and the best of the old. His sire, Mayura Notorious, is the epitome of the best in current genetics and transmits massive eye muscle area. His maternal grandsire is TF151 Itozurudoj, who was the most balanced of all of the original import bulls. The maternal line of Dead Wrong is a masterful pedigree from the Yuriko maternal line. The sire stack is eye-popping with Notorious x TF151 x Sanjirou x Kitaguni Jr x Kikuhana x JVP 400 x Yuriko. This is a bull with massive potential.

SIRE ... BAY ITO MACHO 177

Introducing RHP HARUKI 05H ET, the epitome of Wagyu breeding excellence. His

extended pedigree features elite, proven carcass sires O68, Michifuku, and Itoshigenami, which embody the greatest marbling genetics to leave Japan. On the top side of the pedigree is a grandson of the renowned maternal traits sire, Itomoritaka (002). The powerful, paternal grandsire, Itoshigefuji (TF147), adds growth and frame to the equation. RHP 05H ET is a tested recessive clean super sire with an AA-10 score for SCD and tenderness. With Misami and Misako as the paternal third and fourth dam of 05H, exceptional marbling potential is assured. Elevate your Wagyu program with RHP HARUKI 05H ET and unlock unmatched genetic potential.

This embryo lot presents a fantastic opportunity to invest in both an elite and rare package of foundation genetics. The sire of the embryos is Shigemaru, who is a popular, widely used sire known for moderating frame size, adding body mass and structural width in his progeny. His daughters are built broody, good footed and are high maternal performers. The donor dam of these embryos, Natsuki, is a rare daughter of Kotsukari. Natsuki features the legendary Akiko on both sides of her pedigree with Kotsukari, who is a Hikari son of Akiko, as her sire and then Akiko positioned as the foundation of her maternal side. The maternal line features an unrivaled stack of import and original sires in Judo x Shigemaru x Big Al x Tamamaru x Akiko. Resulting calves from these embryos will have great appeal from a performance and pedigree perspective and will creative tons of interest for the owner.

PATERNAL GRANSIRE ... HB BIG AL

Sumo, 711W, is a bull that is developing very nicely and was sired by Big Al, FB80125, and his dam was Jane, 236W, FB27075. Sumo exhibits the size, weighing 1,160 lbs. at 16 months and has the muscling you would expect. Big Al is the full brother in blood to Hikari being sire by Dai 10 Mitsumaru and out of a Namimaru daughter (Akiko). Jane, 236W, was sired by Red Star, FB12904, and Kinochi, FB16740. Sumo was born in March of 2022.

This combination of genetics could make a Sumo a solid and consistent part of your red program. This bull promises to add growth, marbling, and quality to your ranch.

This embryo lot is sired by the absolutely amazing Arubial United. United is taking Wagyu to a new level! He brings massive growth and very good carcasses. The donor dam, Kimifuji, is from the internationally proven Yuriko maternal line. Kimifuji has a unique sire stack of TF813 x Okurimono x Itomichi ½. Try finding that combination anywhere. TF813 is proving to be a great sire for carcass traits. Okurimono is a can't miss son of Fujiko and Michifuku. Kimifuji is the 3rd highest SRI animal out of the 220 progeny sired by TF 813 registered in Australian Breedplan and her (3) progeny currently average an SRI of \$321. Itomichi ½ brings growth and milk. You can set yourself apart from the crowd with this embryo opportunity.

The proven sire of the embryos, Notorious, has set the bar incredibly high with his enormous eye muscle area and the enormous selling price of his semen in 2022. His progeny will be extremely rare as his semen is no longer available. With this embryo lot, Notorious is combined with a super donor that can also claim rarity as she is a Sanjiro 3 daughter out of a Kage daughter. The base of her maternal line is World K's Kaneti. This maternal line has bred some great cattle and produced standout carcasses. Resulting calves will carry unbelievable value!

The dam of this mating is a 1300 pound cow bred by co-consignor, Cade Nichols at

A Bar N Ranch in Texas. Raised at Vermont Wagyu, she is the daughter of TF Itoshigenami 148 and the granddaughter of Hirashigetayasu 001 on her dam's side. She is ranked in the top 25% in the US AWA and the top 15% in the AU AWA for marbling, and ranks in the top 15% for Ribeye Area in both countries

The Sire of this cross is Gateway's Gatekeeper, ranked highly in the AU, top 1% for marbling and top 15% for REA. Gatekeeper's sire is Sumo F154, one of the greatest sires out of the Sumo program, and his dam is from the Mayura program. The grandsire on the sire's side is Mayura Itoshigenami Jr.

Here is an opportunity to acquire genetics that are set apart from the pack in a breed

leading combination of Guardian on a super daughter of World K's Michifuku. Guardian is a game changer in many ways. He is a son of G113, whose semen is not available and has only had a very few straws ever come to the US. Guardian semen is also not commercially available. Guardian has an incredible carcass trait profile topped with a 3.2 MS. He comes from the maternal line that produced the incredible Notorious and his maternal brother is the MS 3.7 Gatekeeper.

The dam is an elite World K's Michifuku donor dam! She boasts elite EBVs of \$214 SRI, 1.7 MS, 4.5 REA, .34 MF, and 14 CW. She is one of very few Michifuku daughters with those trait benchmarks. 505F features an impressive sire stack to back up her GEBVs of World K's Michifuku x 001 x World K's Shigeshigetani x TF 151 x TF 148 x Hikokura 1/10! Her full brother scored a MS 9+ on our carcass camera for us at only 27 months of age (HCW 920 lbs)! 505F's grand-dam, Hikokura 15, sold for \$56,000 as the top seller in the 2018 Synergy sale. These embryos are a phenomenal pairing of elite genetics.

The sire of these elite red embryos is the Australian bull, Recital. The sire of Recital is a double bred Big Al son. Recital's pedigree pulls in Shigemaru and Red Emperor. The genetics of Big Al dominate his pedigree. The dam of the embryos, Asago, has an equally impressive pedigree. She is an Akiko stemming from the Australian live import female, Gabni Rubi. Rubi has had a massive impact within the red population in North America. Asago is a beautiful daughter of GK4 Rueshamaru. Her Rapid Bay dam is sired by a bull with very limite genetics in the US, Ashwood Park Virile. Behind Virile is Judo and then Gabni Rubi. These genetics will bring attention to any breeding program in the country.

DAM ... RAPID BAY ASAGAO ET

RAPID BAY ASAGAO-ET #5266

The embryo sire, International, shows Kalanga breeding on both sides of the pedigree.

His sire is Kalanga Red Star and his maternal line is Namiko. Namiko produced the incredible red sire Ashwood F X14. International grabs genetics from Akiko, Homare, Ume, and Namiko! The dam of the embryos, Asago, has an equally impressive pedigree. She is an Akiko stemming from the Australian live import female, Gabni Rubi. Rubi has had a massive impact within the red population in North America. Asago is a beautiful daughter of GK4 Rueshamaru. Her Rapid Bay dam is sired by a bull with very limite genetics in the US, Ashwood Park Virile. Behind Virile is Judo and then Gabni Rubi. These genetics will bring attention to any breeding program in the country.

This elite embryo package is stacked!! United x F154 x WKS Shigeshigetani! There are three IVF embryos and an exciting mating of Arubial United P0342 over a top F154-sired female out of the Landgraf Ranch program (LRXFS115). This is a projected top 1% mating.

The projected mating gives you top 10% growth, carcass weight (+42), eye muscle area (+6.7), marbling (+2.3), and marbling fineness (+0.40)! The embryos project top 1% index ranking across all four indexes including SRI (+\$351), WBI (+\$350), FTI (+\$284), and top 5% F1TI (+\$251).

United P03412 is a world leading fantastic balanced bull and needs no introduction.

The dam of this mating, LRX-TX MS SHIGETANI S115 (LRXFS115), is a F154 daughter and is free of all recessive genetic conditions. She leads with top 10% eye muscle area (+7.0), Marble Score (+2.0), and and Marble Fineness (+0.32). Her indexes follow F154 with top ratings for SRI (+\$290), FTI (+\$233), and F1TI (+\$215). Sired by Sumo Michifuku F154, who has consistently produced profitable carcass results averaging: M/S 8.6 and C/W: 462kg over 789 analysed progenies. P528's pedigree contains a double dose of the premier foundation cow: Hikohime 3/2, who is famous for producing the direct maternal champion sires: Coates Itoshigenami G113, Sumo Michifuku F154 and Sumo Hirashigetayasu E148. LRXFS115's dam is a Shigeshigetani daughter out of the Lone Mountain program. She has fourteen progeny.

This is a powerful mating that will take any herd to the top.

This offering from Wyndford pushes breed leading growth with United as the sire and

Front Line as the sire of the donor dam. We know what United does and we have proof of what the donor dam can do, too. She is the dam of the record selling M6 Itoshigenami 073H. The maternal side of the donor traces to the incredible brood cow, Hikokura 1/10. The maternal granddam of the embryos is Michito, who has established herself as one of the current influential cows of the breed. Her progeny are developing this line into a dominating, genetic powerhouse. Resulting calves will be standouts!

United is at the forefront of this lot as the embryo sire. He is paired with a daughter of the popular "Rocky" bull. The Chisahime maternal line is a feature of this donor dam. Chisahime progeny have continually risen to the top in the US and Australia. The maternal line of these embryos has great depth to claim great value for any resulting calves. Featured sires in the maternal sire stack include elite, proven carcass sires such as Shigeshigetani and his maternal brother, Sanjiro. Takazakura and O68 are also in the lineage going back to Chisahime.

Any one of the nominated sires will match up well with this donor dam as they feature outstanding carcass traits. The dam, JC MS Takazakura, brings a complete package for breeding fullblood Wagyu. She claims Fujiko and Okutani as the foundation of her maternal side. A super blending of bulls gives her balance through sires such as 101L, Michifuku, and Haruki II. This is a can't miss introduction into Wagyu genetics with plenty of proven performance built into the pedigree.

DAM ... TBR MS ITOSHIGENAMI 2-1 3021Z

This attractive embryo lot is sired by N4431, a son of Mayura Itoshigenami JNR, who is producing outstanding carcasses of his. N4431 offers a genetic outcross as his maternal line stems from the Westholme breeding program. The maternal line of these embryos is closely related to the record selling Hikokuras at Triangle B Ranch. The embryo donor dam of this lot is a TF Itomichi 1/2 daughter. Her dam is a Shigesigetani daughter and also a full sister to the 400K valued 3025Z cow at TBR. The base of this amazing cow family is the powerful broodcow combination of CF 504 and Hikokura 1/10. This is Takeda breeding at its finest. This embryo lot is a fantastic blend of genetic balance from the sire and the dam. There is unlimited potential here.

These embryos are a step into vintage genetics that still compete with the current genetics available. The sire, Yasufuku Jr. is an original import from Japan that has remained relevant because of his tremendous carcass traits. He produces carcasses with massive eye muscle area and outstanding carcasses. The donor dam, 7149H, is a daughter of Kikutnami 4051A, who is a bull that has excelled at TBR. 4051A is a rare son of TF146. Shigesigetani is found further back in her pedigree and is a first-generation bull who is extremely competitive with his super-sized ribeyes. This Shigehime maternal line traces back to Shigehime through proven sires that include Michifuku 8614, Takazakura, and 068. This is unique genetic package.

DAM ... LAURA 99W ET

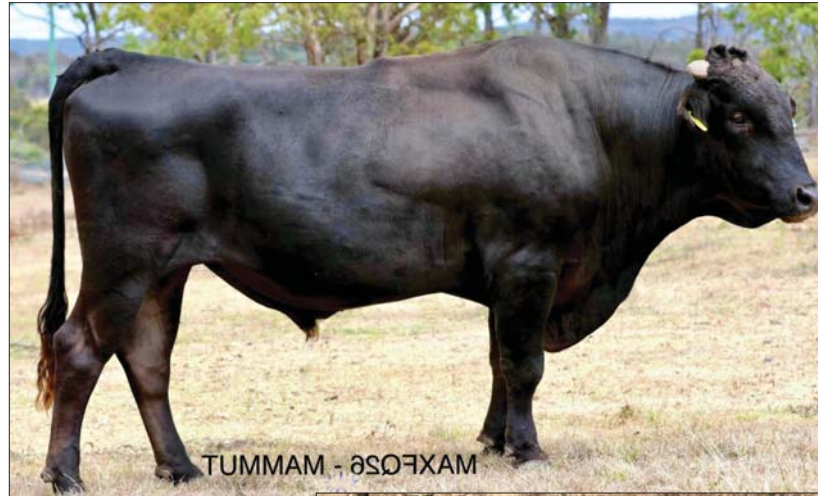

Sanjiro 3 is a sire making waves on the market front. He is a full brother to Sanjiro but even better, the last sire summary had Sanjiro 3 as the number one marbling sire, one reason he's such a hot commodity. He is a SCD AA and 5 tenderness. According to the AWA, this animal is ranked in the top 4% of animals for marbling in the population tested and top 25% ribeye area.

Laura, 99W, is one of the truly elite Shigeshigetani daughters as she descends from the highly proven, original import female Okutani. She traces directly to Okutani through breed greats Shigeshigetani, Michifuku, and Haruki II. Laura has tested SCD VA, Tenderness 4. She is also ranked in the top 1% ribeye area.

The mating of Sanjiro 3 and 99W, Laura, brings a touch of high genomic genetics to a highly proven pedigree. Expect superior next generation results and propel your breeding program to the next level of performance!

DAM ... HIRATANACHI

Hiratanachi is sired by Itozuru Doi, 26T, FB3685. Itozuru Doi TF151's grandsire is Dai 7 Itozakura J65 and his maternal grandsire is Yasumi Do J10328. He is known as a fabulous composite bull in the industry. Itozuru Doi TF151 is 50 percent Tajima, 25 percent Fujiyoshi, and 25 percent Kedaka. He has an extremely big frame, weight 2420 lbs., carries early maturing traits that produce great Full Blood mothers with excellent milk, and is the best marbling bull of the Fujiyoshi bloodlines. By the time his progeny were tested and his value was discovered, Itozuru Doi TF 151 was deceased, leaving a very limited supply of semen, and semen from Itouru Do is the most expensive semen in the Wagyu breed.

Hiratanachi is a SCD AA, Tenderness 4.

Miku Mammut Q26, is sired by Coates Itoshigenami G113, FB55323, and his dam is Trent Bridge N190, FB72467. He is offering all the traits required to develop the female side of the herd. His dam, Trent Bridge's N190, is out of one of the leading carcass sires, Macquarie's Y408. Y408 has earned a reputation as one of the very best carcass sires in the industry. Miku Mammut, according to the AWA, is in the top 20% marbling. He was selected as a Link Sire in the Australian Wagyu Association's long term Progeny Test Program with all 4 indexes comfortably above the Top 1% mark.

The sire of this embryo offering, M256, comes from the Wagyu Sekai program. He is a Kanadagene 100 son from the highly regarded, hard-to-find Rikitani maternal line. Kanadagene genetics are nearly impossible to find in the US, so this make M256 a special bull. The donor dam, 146G, is a TF148 Itoshigenami daughter. She has an amazing pedigree with her sire stack of TF148 x Yasufuku Jr x Kikuhana x Kitaguni 7/8. Just as impressive is that she is a direct descendent of the highly sought after cow, Okahana! Okahana genetics have been outstanding performing cattle, but are extremely difficult to find. This embryo package is a very rare genetic offering. Resulting calves will inherit unlimited opportunities!

These embryos will be half siblings to the \$86K, top selling Mayura daughter in this year's Mayura's sale.

TF 151 is considered by many to be the GOAT (Greatest Of All Time) of the foundation bulls. Sale prices for his daughters and embryos sired by TF151 back up the claim. His proven carcass performance against his peers is staggering. In the Blackmore Wagyu herd, across 325 carcasses on feed for 650 days, he averaged a 1,005 lbs. HCW, 14.8 ln2 REA, and 302 of 325 graded a MS 9 or 9+! This is balance and consistency at its best. This is a very rare opportunity to acquire and invest in his historic genetics!

MAYURA L0010

MAYURA L0010, simply known as L10 is a Mayura bred World Super Sire. His progeny dominate public sales in N. America with an L10 daughter (LMRFRO353) selling for \$100,000 and two L10 son's (M6RFR073H & LMRFS1749) selling for over \$150,000 in 2022 (M6 Bull Sale & 2022 TWA Fall Harvest). You will see L10 progeny at the top of every major sale.

He leads in the BREEDPLAN Selection Indexes for Wagyu Sires. A review of November 2022 BREEDPLAN, shows him as an elite sire (with proven progeny), with top 1% of all four - WBI (+\$296), SRI (+\$302), FTI (+\$286), and FTTI (+\$265). This amazing bull hits all four of the major profit drivers of top 1% Marble Score (+3.0), top 5% Marble Fineness (+0.36), and top 10% Eye Muscle Area (+5.2) and Carcass Weight (+43).

L10 is the son of Itoshigenami Junior D139 who has the title of, The King of Australian Wagyu Sires, and now has pass his sire on major selection indexes. L10's pedigree combines the genetics of the King of Australian Sires (JNR) with TF151 Itozurudoj, Kanadagene 100, and the Aizakura maternal line. These legends of the Wagyu breed are stacked on an established, leading maternal line that has produced proven sires Macquarie Wagyu C1176, TF Itohana 2, Blackmore Aizatzurudoj Y398, and Blackmore Dai Ichi Kizukakura H017!

Do not miss the opportunity to move your herd to the top with this amazing Australian bull. Size, marbling, eye muscle area and top 1% BREEDPLAN Selection Indexes, L10 has it all!

SIRE ... GOORAMBAT MR. MARBLE K483

LRX-TX MR MARBLE JNR (LRXF22T157K / FB100248) - is the highest ranked (SRI)

breeding age progeny male in N. America out world leading GRS Mr Marble K483 (GRSFK0483). He is #5 (SRI) in the world for all Mr Marble. T157K is highest ranked that is free of all genetic conditions. In SRI ratings, he exceeds his great accuracy sire, Mr Marble, by 27 points - all by reflecting larger carcass, ribeye area, marbled score and marbled fineness!

According to the most recent August (pun 2h) BREEDPLAN, he is top 1% male across four indexes with WBI (+\$336), SRI (+\$337), FTI (+\$271), and FITI (+\$238). He leads with top 10% growth traits on 200/400/600/Mature Wtg and then follows that with top 5% Carcass traits on Carcass Wtg, and top 10% on Eye Muscle Area (+6.5), Marble Score (+2.3), and Marble Fineness (+0.33). Growth with strong carcass traits built on a Shigeshigetani foundation.

His sire needs no introduction. Goorambat Mr. Marble K483 (GRSFK0483) is the #1 highest SRI ranked son of legendary sire WKS Shigeshigetani, one of the most well rounded and consistent carcass sires. Mr Marble is a top 1% sire. Globally, he is a top 1% sire across three indexes with WBI (+\$313), SRI (+\$310), FTI (+\$262) and top 3% FITI (+\$231). Mr Marble has one of the highest accuracies for all proven wagyu sires. K483's maternal sire is World K's Shigeshigetani, some would consider the best foundation sire in the wagyu breed outside of Japan. Of all Shigeshigetani son's, Mr Marble K483 is a trait leader for milk growth, CWT, and MS EBVs. This is due to his beautifully balanced pedigree featuring a combination of foundation sires — Shigeshigetani, Itoshigenami TF148, and Terutani 40/1.

On the dam side is the strong Sumo donor female, Sumo Fuku K174. She is well balanced genetic pedigree of 55% Tajima and 44% Shimane/Tottori. She has a notable top 2% Marble Score (+2.7) EBV which has been inherited from a high combination of Tajima sires including Sumo Itoshigenami X81.

This bull is now available in the USA and we expect to have exportable straws in the near future.

LONGFORD M190

A full brother to the perfect carcass in Japan, M190 has been proven to perform through sire's progeny trails in Australia. Comparing to over 50 bulls at Kerwee feedlot, M190 averaged Marble 9+ and carcass weight of 999lb. A powerful phenotype his strong maternal pedigree goes right back to Hatsui. This bull has top 5% growth traits and top 15% marbling with over 80% accuracy. Commercial progeny have fed in both Japan and Australia and it is time to take these genetics to the world. Offered for sale for the first time, this recessive free bull is perfectly suited to both full blood and commercial production. This is the first Mr Awesome genetics to sell in America and all the proving has been done.

Move over Bond, there is a new Marble King — Wyndford Itoguni 308H (WYNFR308H).

Itoguni 308H is now the #1 Marbling sire in the world according to the most recent November 2022 BREEDPLAN with a whopping +3.8 Marble Score and +0.52 Marble Fineness. On selection indexes, he is the #1 bull in the world on F1 Terminal Index (+\$291. On Fullblood Terminal Index, he is #5 (+\$290) and top 1% on SRI (+\$289).

Wyndford Itoguni 308H will be a key breeding tool to inject high marbling genetic into your herd. This sire gives you all the marbling of Bond, yet larger size. At the recent Passion for Prime sale in Salina Kansas in June 2022, straws on this world leading bull went for \$6,000 a straw.

This world leading bull is a perfect blend of US and Australian Genetics. His dam is from a line of proven superior meat quality sires including Itoshigenami 148, World K's Michifuku and Word K's Kitaguni JR. His sire, Mayura L0010 has added weight and strength. He is also enlisted in the Australian Wagyu Association Progeny Test Program. The bull will now be your #1 breeding tool to inject marbling and marbling fineness into your wagyu herd. Do not miss this chance to acquire these elite genetics. Straws are CSS and eligible for export to most major countries — please inquire for your country. Straws currently stored at Hawkeye Breeders

LMR SAMURAI 1749J ET

Samurai is a son of Mayura L10 with extreme, bred-leading genomics for marbling!

His genomics marbling score and marbling fineness place him at the top of the charts for those traits. Samurai has excellent balance of traits with good growth to go along with the carcass traits. He descends from the highly respected and proven Chisahime maternal line. Samurai's sire stack solidifies his genetic values for carcass traits with proven carcass trait leaders such as TF148 Itoshigenami, Michifuku 1604, Takazakura and JVP 068. You can be certain that you will enhance carcass performance with Samurai.

M6 ITOSHIGENAMI 0122H ET

122H, is an elite L10-sired bull and now ranks ahead of his world-leading sire Mayura L0010. Size, marbling and free of all genetic conditions — he delivers it all.

In the recent November 2022 BREEDPLAN, he ranks top 1% in all four Selection Indexes including WBI (+\$346), SRI (+\$320), FTI (+\$275), and F1TI (+\$229). On individual traits, he gives you the double shot of growth and marbling with top 1% on 200/400/600Day Weights, Mature Weights, and Carcass weights. He scores top 3% on Marble Score (+2.4) and top 5% on Marble Fineness (0.32).

Recently, 0122H was selected for the 2022 AWA-PTP Progeny Study in Australia and was one of the top 5 bull tendered.

Phenotypically on the hoof, he has tremendous performance, length of body, and extra body depth with a bold spring of rib. You can see that in the included video of 0122H.

0122H is a son of Mayura L0010, who has risen to the top in the wagyu world. L10 combines the genetics of the King of Australian Sires (JNR) with TF151 Itozurudo, Kanadagene 100, and the Aizakura maternal line. These legends of the Wagyu breed are stacked on an established, leading maternal line that has produced proven sires Macquarie Wagyu C1176, TF Itohana 2, Blackmore Aizatzurudo Y398, and Blackmore Dai Ichi Kikuzakura H017!"

0122H is a generational breeding tool with growth and marbling that will transform efficiency in the Wagyu industry in North America. 122H is free of all genetic conditions.

M6 ITOSHIGENAMI 073H ET

073H, also known as "Mr Universe", is the record setting L10-sired bull from the 2022 M6 sale and sold for a record \$190,000 (USD). A search of November (run_1) BREEDPLAN reflects 073H as an elite world sire with a #2 WBI ranking in the world and a #16 SRI ranking. He leads with top 1% in all four Selection Indexes including WBI (+\$337), SRI (+\$307), FTI (+\$263), and FTI (+\$215).

Phenotypically on the hoof, he has tremendous performance, length of body, and extra body depth with a bold spring of rib. On individual traits, he gives you the double shot of growth and marbling with top 1% on 200/400/600Day Weights, Mature Weights and Carcass weights. He scores top 4% on Marble Score (+2.2) and top 5% on Marble Fineness (0.34).

073H is a son of Mayura L0010, who has risen to the top in the wagyu world. He is free of all genetic conditions. 073H & L10's pedigree combines the genetics of the King of Australian Sires (JNR) with TF151 Itozurudo, Kanadagene 100, and the Aizakura maternal line. These legends of the Wagyu breed are stacked on an established, leading maternal line that has produced proven sires Macquarie Wagyu C1176, TF Itohana 2, Blackmore Aizaturudo Y398, and Blackmore Dai Ichi Kikuzakura H017!

"Mr Universe 073H" is a generational breeding tool with growth and marbling that will transform efficiency in the Wagyu industry in North America. He is free of all genetic conditions. Straws available for USA and Canada and now located in both countries.

LOT A HYDE COUNTY MATTASUSKEET WATERFOWL HUNT

DONATED BY WILDERS FARM - REID SMITH - CLAYTON, NC

Enjoy world renowned hunting adventure for 2 at the DuckWild Impoundment in picturesque Hyde County, North Carolina. Your trip will include a Friday evening of food and fellowship with plenty of bird watching in between, lodging, a Saturday duck hunt, and a meal after the hunt. Awake Saturday morning to join our group of sportsmen as we make our way to the impoundment and hunt multiple species of waterfowl such as Mallards, Pintail, Green Wing Teal, Bluebill, and many more. We will provide all the necessities for your hunt, just bring some warm clothes and be prepared to have a great time! Trip will include transportation from and back to the Greenville, North Carolina airport.

Dates of the hunt will be coordinated between the buyer and Wilders Farm. Please come and join us for a memorable hunt! North Carolina Hunting License and Federal Duck Stamp will need to be purchased by the highest bidder.
