# Welcome

## TO THE FALL COLORS SALE

*Welcome to the 4th Annual Fall Colors Sale! We are excited to host our sale again this year at the Hankins Farms Sale Facility. We pride ourselves on presenting quality stock while providing you with top notch hospitality. Please join the Bradley and Hankins families on October 5th. Miss Pam and her crew will feed you at 5 PM and the sale starts at 6 PM. If you are unable to make it in person, you will be missed, however the sale will be broadcast on CCI.live with real-time bidding available.*

*We appreciate you taking the time to look through our offering. As always we have worked diligently to put together an outstanding group of Charolais and Red Angus females. New this year, we are excited to expand our sale to include both Angus and Simmental females for your appraisal. If we can assist you in any way please don't hesitate to contact Bruce, Jason or any of the sale staff.*

*Missouri is lucky to host not one but two Junior National events in Springfield next summer. We are happy to welcome both the Red Angus and Charolais breeds back to back, and even more excited to offer a few lots that would qualify to show at both shows! If we can assist you with anything during these events please reach out.*

*We look forward to seeing everyone October 5th... come early and stay late!*

# Thank You

## FOR YOUR INTEREST

*“The Fall Colors Production Sale” features an awesome set of leading ladies brought to you in part by the Bradley and Hankins Families of Southwest, Missouri. We trust that the general public will think as we do that this set of cattle is the very best set that these outfits have assembled for public appraisal. This diverse offering will feature two of the most popular and complimentary breeds that contribute to the success of many commercial outfits within the Fescue Belt, Red Angus and Charolais as it always has, but this year they have included a very select few of Angus and Simmental stock as well. There will be opportunity for any progressive commercial operation and seedstock producers alike to acquire stock that would represent some of the very best genetics from some of the very top end breeding programs in the continental United States.*

*The diligent and intense work ethic of the two families is very recognizable as one studies the book, but one would be hard pressed to beat the team in terms of hustle. Hustle isn't just a verb, it's a lifestyle, a passion, and an addiction all at the same time. Bruce Bradley is very good for the seedstock business and even better for the commercial sector of the commercial cow calf producer of the region. Bruce and Jason have always worked diligently to provide a set of affordable herd sires to the general public that has led to long term customer relationships and constant referrals for the product in which they market through private treaty and public auction. The tandem is also very supportive of multiple bull sales throughout the nation that represent the very breeds in this elite female offering. What this team does for the registered sector of the industry in all phases of procurement and marketing falls nothing short of being appreciated and respected.*

*This sale series is built on decades of passion, dedication, grit, and fortitude to the dedication of acquiring and providing the very best that they could to their customer base. As time has passed, the ability to add cattle that are next level and top shelf quality to the operation has become more commonplace as indicative of the offering that is within the pages of this sale book. These two families have bought and paid for land and stock along the way so why wouldn't one consider the investment on October 5, 2024? Truly, the very best offering by the Bradley and Hankins team, backed by the genetics that are proven to thrive within their region and beyond.*

*We hope that you make plans to attend this annual event. If you should need any assistance with selection or information prior to sale day, we strongly encourage you to reach out to any member of “The Fall Colors” team or Innovation AgMarketing for assistance. We genuinely appreciate your interest and are certain that you will enjoy the stock.*

**TR LEGACY 1707J ET**  
 INFLUENTIAL SIRE THROUGHOUT THE OFFERING

With each calf crop sired by the National Champion TR Legacy 1707J ET we are only further impressed by how he has meshed with our cow base. They are cattle that combine form and function, and that's exactly what you will find here with BC/HF Miss Layla 408. What may be even more exciting is that she is a direct daughter of the up-and-coming star of the program, WH Atlee 217 PLD, the LT Atlas 0251 PLD daughter that has garnered respect from cattlemen nationwide while on the show road for Jessi. Here is an opportunity to mimic what is in store for the future of our Charolais program. Not only is she a standout phenotypically, but you will find she comes with plenty of strengths when evaluated from an EPD standpoint.

**GUARANTEEING 1-60 DAY PREGNANCY IF TRANSFERRED BY A CERTIFIED EMBRYOLOGIST.**

In an unprecedented opportunity, the opportunity to reap the rewards of a buyer's choice sired, IVF Cycle on the newest, most exciting donor for the Hankins and Bradley program is being made available. WH Atlee 217 PLD is the kind of female that once you see her for the first time, she is hard to forget, as few females can or have mimicked the ultimate levels of maternal quality and balance that she possesses. She ticks many of the boxes that the most astute cattlemen demand, with a picture perfect udder, easy fleshing ability, great maternal instinct and structural build to last a life time, additionally you will find several highlights on her genomic predictions table. Additional to her phenotypic value, comes the added significance of the wide mating flexibility that she offers. The decisions that come with the right to flush should be exciting for a progressive stock person that looks to produce the next generation of Charolais seedstock, and in turn revenue generator.

The M&M Outsider 4003 PLD sired embryos out of WH Atlee 217 PLD offer a fast-track option to the front of the Charolais show heifer business. As proven through the Lot 1 open heifer the maternal side of the pedigree has the credentials to produce cattle with the necessary phenotypic quality, and there is no questioning the capabilities of M&M Outsider 4003 PLD who has sired as many national champions as any in history.

**LOT 1A | TERMS OF IVF CYCLE:** Buyer will receive a minimum of six transferable embryos and two 60-day pregnancies. On all embryos produced above six, buyer receives odd-numbered embryos, seller receives even-numbered embryos. Buyer pays IVF charges, semen cost and all freezing and/or transfer fees, with all freezing costs over six embryos being split odd/even between the buyer and seller.

BC/HF Miss Atlas 411 is a showstopping female that is just as impressive in person as you will find by her picture and genomic indicators. This daughter of LT Atlas 0251 PLD is refined and attractive about her front third, yet transitions into a super bold and robust middle third of her body shape. We think she screams cow power, and productivity once her time at the end of the leather lead comes to an end. Her dam combines some shining stars from the Thomas Ranch in her pedigree, being a full sister to the 45th National Champion Female TR Ms Allie 3606A.

We have a nice group of dual registered, Composite Charolais & Percentage Red Angus open females that would qualify to show in both of those divisions if you decided to go that route! We could not be more excited to welcome juniors to Springfield, Missouri next summer for the 50th Anniversary, Charolais Junior Nationals and the 2nd Annual Red Angus Youth Expo. These three would sure be fun additions to the show string that could be shown at BOTH Junior Nationals! The maternal pedigree of 3JLH Miss Renegade 429 is certainly interesting, as she stems back to the \$105,000 TR Ms Wyoming Wind 5604R, and her maternal granddam had a high selling, feature of the 2024 Thomas Ranch Fall Born Sale.

**LOT 14**

A powerhouse pedigree is exactly what you will find in support of this phenotypic standout. Take note that she is a direct daughter of the legendary TR Ms Kay 30A ET, making her a maternal sister to the National Champion and impressive producer, TR Legacy 1707J ET. 3706L represents a fresh mating on Ms Kay, and the results stand up to even the most outrageous of expectations. There is no questioning the functional build and maternal prowess of this future program spearhead.

**LT BADGE 1538 PLD**  
SIRE OF LOT 14

LOT 15

We have lined up the best in the business to deliver here. Super functional, impressively de-signed, and one to be the long-term producing kind are all expectations you can have when en-quiring into this in this GHC Reagan 9012 daughter. Her maternal granddam, C&S Ms Bethany 435 was recognized with a promotion to the Sterling classification in the Dam of Distinction program, recognizing her high level of production over an extended period of time.

TR C&S MR CARBON COPY 215  
MATERNAL BROTHER TO LOT 19

This direct daughter of TR CAG Carbon Copy 7630E ET stems from a female that you can always count on bringing a standout to the weaning pen each fall. The WR Wrangler W601 daughter has maintained a 360-day calving interval on 5 calves. This one is super elegant in her head and neck, yet had a wide pin set and has plenty of muscle and dimension from end to end. Her maternal brother, TR C&S Mr Carbon Copy 215 was a standout of the 2023 Thomas Ranch Bull Sale selling to Greg Landes of Jamesport, Missouri.

**LOT 20**

Beginning the trio of these impressive Rojas TR Chivas 17109 daughters is the deep cherry red hided, mid-March born beauty. 1BBC Miss Chivas 2402 is built smooth and symmetrical in her design, with a super maternally shaped body cavity, wedge shape to her underline and square pin set. When investigating her family tree, it becomes obvious that her quality is a result of inheritance and not by chance, maternally you will find two high caliber breeding females in both her dam and granddam. Her dam, Red Blair's Darline 045B was a high selling female from a past Blairs.Ag Female Sale. Her granddam, was a longtime leading lady for the Blairs.Ag program through the past 15 years, and has produced both sons and daughters that work in the most progressive programs across North America.

**LOT 21**

A super deep sided, massively bold featured and round ribbed female, that gives a very easy keeping look, and reads with worlds of generating potential. If you're looking for a potential donor female, this one reads with as much quality and impressive feature as any of the open females to sell. Combining her genetic potential with her cowy look and eye appeal leads us to believe this is the kind to build a cowherd around.

**ROJAS TR CHIVAS 17109**  
PROMINENT SIRE THROUGHOUT THE RED ANGUS OFFERING

**LOT 22**

The standard of excellence set by Rojas TR Chivas 17109 has been undeniable, he has a long streak of producing daughters that rise to the occasion when they hit the production phase of their career. The male sired progeny are just as valuable, and are trusted by commercial cattlemen nationwide to add pounds, muscle and longevity to the calf crop and in turn, positively affecting their bottom line. To add further credit to this statement, you will find that the full brother to 2406 that sold this past spring on the Thomas Ranch Spring Bull Sale to Brenner Angus of North Dakota. This female will continue the traditions set by her predecessors.

Either side of the pedigree should raise interests for the savvy Red Angus enthusiast as it aligns some of the best the business has to offer. Just a generation back on her maternal pedigree reveals the legendary RED U2 Ms Dynamo 382W, a legend in the breed and an absolute maternal force that you will find plentiful through our cowherd. We like the extra angularity, and sharpness of feature that this yearling female offers, and excitingly she is just about to reach the stage of maturity to breed on, we think the world is her oyster.

A direct daughter of the National Champion Rojas TR Chivas 17109 that hits us with huge brood cow potential. She is super square in her build, long and level in her hip design and sets with soft angles at the ground. A female that is stacked maternally with potency through a LSF SRR Commander 5906C daughter that tabulates with an incredible set of curve bending growth predictions, carcass quality and profitability.

A daughter of the Red Rainbow Concorde 28H sire, a bull that was in heavy demand, and proved to be a wise breeding decision for those lucky enough to have access to his semen bank. She follows his trend of cattle that are heavy muscled, bold shaped and extra capacious. You will find several generations of high performing females in her pedigree.

You will find an interesting twist in the pedigree here, as IBBC Miss Thunder 366 is a dual registered female, qualifying as both a Percentage Red Angus and Limflex. She screams cow prospect to us and we have confidence that she will develop into a great cow like her purebred Red Angus mother who has seven head of progeny registered to her name.

SIRE OF LOTS 31-36

We dug deep into the bred heifer pen this year to assemble the very best set we could afford to part with, and standing at the front of the pack is a female that we have massive expectations for heading towards the production phase of her career. This ERKS Mulberry 9918 daughter is certainly something special and has been a favorite of the group all the way through development. The power you will find in the flesh is reflected on her paperwork too, as she sports a set of EPD's that are geared for impressive growth and performance.

**LOT 35**

A longer, smoother built female that is certainly lady like in her appearance and carries herself with a beautiful presence. Numerically she tabulates with top quarter of the breed calving ease and birthweight traits, along with top 13% HGP and top 12% Stay. We certainly agree with these predictions from the way she is built, as she looks like the kind that will have a long and successful breeding career. Her young dam is quickly cementing her position at the top of the cowherd with her two progeny to date featuring in this sale, the other is her 2024 born heifer calf that can be found with the Lot 6 ear tag.

Take note that what this one may lack in maturity on some of the other bred females in the offering, she makes up for in regards to smoothness and balance. Her maternal granddam has left a long list of high production daughters in the Bradley and Thomas Ranch cowherds, she has certainly built a legacy through her offspring. We think she is built with the foundations of a female that is set for a low input, high reward breeding career. Check out her top 22% GM, top 17% CED, top 18% BW, top 25% DMI, and top 20% Marb figures.

1BBC TMAS Ms Lulu 3907LET is a direct daughter of the accolated, PZC Fireball 5753 ET that was shown to success by Cade Currier of Onida, South Dakota. Fireball 5753 has since become a leading force in the Thomas Ranch Red Angus donor pen generating bull and heifer progeny that highlight their multiple annual marketing events. This Damar Trump C512 daughter is built stout from end to end, and has the same power that made her mother so admirable.

While all of these bred heifers offer quality from the maternal standpoint, they also offer very exciting access to a J6 Bulletproof 542K sired pregnancy. J6 Bulletproof 542K was the Grand Champion Red Angus bull at the 2023 American Royal, and has been a topic of conversation for several of the breeds most distinguished stockmen and women. His first progeny are bound to turn heads, and we think add tremendous value to the future of these Red Angus bred heifers that sell.

There is no questioning the impact on the breed, and the industry that the maternal granddam of Lot 49 has had, GT Cita 4060 is a cow that could have written a book about raising the right kind of beef cattle. From sale features, cornerstone donors, high sellers and banner winners, the Cita bloodline has conquered it all in style! Crossed with the HRP Yellowstone 1021J influence creates a female with a heavy growth set of data with an awesome phenotype.

**LOT 50**

For those not well versed in Angus pedigrees, you can trust that the family trees in support of each of these bred heifers is as good as you will find. Beginning with the immortal, Keymura Katy cow family that has been a reliable source of phenotypic excellence. This female is built with extra muscle shape, ruggedness of structure and overall balance. Her maternal granddam SLL Keymura Katy 5008 “5009” stands at the center of the Udell Cattle Company donor pen, and over several years of calf crops at Udell Cattle Company has averaged well into the 5 digits, including their 2021 ‘The Advantage’ Sale where she averaged over \$21,000 on 7 daughters.

LOT 54 1BBC UDE ELLIE 241L

SLL Ellie 2201 is without a doubt one of the most elite Angus donors in the game. It appears 2201 has the keen ability to out produce herself in a more dominant fashion with each passing set of ET calves, regardless of what bulls she is mated to! Maternal sisters to this duo have been among the featured lots at 'The Advantage' Production Sale the last few years, commanding \$150,000, \$100,000, \$39,000, \$38,00 and \$32,000. Included in this is the UDE Ellie 9230 female that was the 2020 NJAS Grand Champion Owned Heifer for Sara Sullivan. She continued her winning ways through the fall when she was selected as the 2020 NAILE Grand Champion Angus Heifer. When 9230 has been mated to KR Casino 6243 the results have yielded huge price tags and banners at the nation's toughest shows. Power in the blood here!

A stunning daughter of the legendary W/C Bankroll 811D that is backed by the famed “Envious Blackbird” cow family that has produced countless champions and high sellers for the Express Angus Ranch breeding program. The W/C Bankroll 811D sired females will go down as some of the most productive and impressive females that the Simmental breed has seen, with that said, their legacy is only beginning. Many will admit his best use is in a half blood breeding program being used over purebred Angus females, just like the mother of Lot 57.

**LOT 58**

The extra chrome on 1BBC Miss Star L24 is just the beginning of the neat features that this TJ Chief 460G daughter has. Built extra stout and burly, she is certainly one of the most intriguing females to sell and has been blessed with the pieces to generate exponentially during her days in production. A dive into the maternal side of her pedigree reveals a BC Lookout 7024 sired daughter of the legendary SVF Sheza Star S803, there is genetic power embedded deep into the roots of this family tree.
