WELCOME TO KOLT CATTLE CO.

Lynn, the kids, and I would like to say “Thank You” for taking the time to look at what we feel is the biggest and best offering from top to bottom, that we have offered to date! What an exciting time for our industry! We have seen tremendous growth in the demand for elite show cattle over the last few years. New faces and people wanting to get involved, and what better way than to have a diversified offering such as this. We have traveled the miles and opened “new gates” with some of the best operations in the industry, and the cattle here will certainly prove that!

Our goals are set each year, and this group has exceeded our expectations at all levels. Each year we start earlier to try and put together what we feel are cattle that demand your attention, as we try to present cattle that have the genetics and phenotype that our family would promote and show ourselves. This group will represent us not only in the show ring over the next 18 months, but will also represent the KOLT program for years to come as donors, creating the next generation of cattle for KOLT to assist in promoting in any number of our annual marketing events. Call it “Customer Appreciation”, or “Joining the Family”, we are here to advance and grow your operation right along side ours!

Think about your program’s goals, and how you wish to be represented over the course of the next year, remember proven genetics will always work! This is a complete offering that is compromised of the kind of genetics needed to not only win, but also perform as foundation brood cows in the future. Whether you are hunting your next banner winner or a young cow with a first class pedigree...this is an offering that has no limits. Come grow with us, and remember... “The Choice Is Simple”

Thank you for your interest,

Nate Kolterman
