Welcome

TO THE 2025 SPRING CREEKS CATTLE COMPANY BULL AND FEMALE SALE

Welcome to our 7th Annual Bull & Female Sale. We're excited to bring you our largest offering of bulls and females to date. The 51 bulls, 18 bred females and 4 opens represent the best Limousin, Lim-flex, and Angus genetics the breeds have to offer and represent the top genetics in our herd. We've worked hard for over 30 years to bring you cattle that will complement and enhance your programs.

The hills and valleys of SW Wisconsin's driftless region give us an abundance of green grass and forage and allows us to raise feed efficient and athletic seedstock that is bred to work! We believe wholeheartedly that our genetics will make a difference for you.

As always, we have some incentives to assist you with your purchases. You have the option of paying 50% down on sale day on any bull over \$3,000. We will gladly keep any bull until April 1, 2025, or give you a \$50 dollar discount for hauling them home on sale day. We continue to guarantee the bulls as we have in the past.

It's an exciting time to be in the cattle business and the future looks bright. This set of genetics will help you capture all the benefits of the best beef markets in history. Our operation made its way back to the National Western Stock Show in Denver. Our bulls performed and competed well, bringing us home a reserve division award. Those bulls and their pen mates will highlight the offering.

Thank you for helping appraise our cattle, buy with confidence; we've worked hard to be "Breed'n the Feed'n Kind!!"

SINCERELY,

Bob Mitchell & Family
Spring Creeks Cattle Company

A Family Program

Spring Creeks Cattle Co is a third-generation operation located in the heart of southwest Wisconsin. Over the years of raising kids and cows our values that we initially founded the program on are still firmly intact – faith, family, beef industry fundamentals and customer relations.

To that end, one of the things we are most proud of is the relationships we've forged with our loyal customers base - many of which have been with us from the start and still trust us as their seedstock supplier of choice 3 generations later. We take the people side of the business very seriously and never take it for granted, that's why making sure customers are satisfied has always been a top priority at Spring Creeks Cattle Company.

It's our wish that you can find something of value in this sale offering and look forward to working with both seedstock and commercial cattlemen alike. From our vantage point, at Spring Creeks we view each one of you as valued partners in the cattle business. Remember, you're not just investing in a bull or female but rather a family-oriented program built on years of TRUST.

BUILT ON CUSTOMER TRUST

Limousin and Lim-Flex Bulls

It is once again our pleasure as a family to present to you what we feel is our best bull offering to date. We work day in and day out to raise the best Limousin and Angus seedstock possible and we think this offering accurately highlights the long-term goals of our operation. Regardless of the direction of your program, we are confident you will find genetics in this offering capable of taking your program in a positive direction. Just like you, we are involved in the beef cattle business each and every day, so we are familiar with the challenges we all face and we know what kinds of bulls and females it takes to be profitable in the real world of beef production.

CELL HISTORY BUFF 0245 **SIRE**

Big-time herd sire prospect that combines phenotype and numbers. He has breed-leading traits highlighted by his top 1% rank for ADG, top 2% for MARB and top 3% for YW. Machete posted an adjusted 878-weaning weight.

This numeric profile would be a great addition to any herd. Sired by the well-known A.I. sire CELL History Buff 0245H, who has sired many outstanding progeny across the country. Mothered by Spring Creeks East Coast, a Wulfs Xcellsior X252X daughter. Homozygous polled and black this one will fit a wide variety of programs.

Rugged phenotype with capacity, growth, and extra muscle expression. Study this bull's well-balanced numerics and find top percentile rankings for Milk and top 2% ranking for DOC. Note, he boasts an impressive top 10% rank for BW. Son of HUNT Credentials 37C who effectively transmits structural soundness, perfect foot conformation, scrotal circumference and breed leading marbling. Credential's progeny have been topping sales across North America, such as the \$40,000 high seller at the 2020 Coleman Limousin Bull Sale. Dam, Wulfs Edwinna 7056E, is a herd sire producer having raised Wulfs Gallagher 7056G and Wulfs Hickock 7056H, who were her first two natural calves. Be the winning bidder sale day and see what Spring Creeks Michelangelo can do for your operation.

This herd sire prospect is an absolute eye-catcher. Stout featured, long-bodied, wide-based, and is truly impressive when set into motion. He is sired by Wulfs Gallagher 7056G, a low-birth-weight son of Wulfs Xcellsior X252X with curve bending growth with exceptional carcass EPD's. On paper, Spring Creeks Majority Rules has an exceptional numeric profile, highlighted by top 3% ranks for both CED and BW. He also ranks in the top 15% of the breed for MARB. You won't want to miss out on this guy!

Big-time growth bull alert. Spring Creeks Macgruber 5078 is a powerfully built, wide-based, high-performing herd sire prospect who recorded a 826 lb. 205-day weight. This growth could be predicted with his 92-weaning weight EPD and 142 yearling weight EPD that both rank in the top 1% of the breed. Continue to study his number profile and find another breed leading \$TPI value of 143 ranking in the top 1% of the breed and top 2% rank for CW. With superior growth and carcass merit there is little risk, yet great reward with this VL Hunker Down son.

CALVING EASE MEANS PROFIT

Calving-ease and calf vigor are traits upon which the cattle business was founded on in this country. Relative to growth, the Limousin and Angus breeds remain a calving-ease leader. Easy births not only allow cows the opportunity to breed back faster, but they also ultimately result in more pounds to sell at weaning. That said, we have made a concentrated effort to bring you a variety of bulls that excel in the beef industry's Number 1 profitability trait - calving-ease.

Angus Bulls

We are pleased to offer our deepest set of Angus bulls to date. We strive to breed Angus cattle that have a focus on genetic progress, implementing some of the best Angus AI sires in the country. Our Angus program has been built around an exceptional cow herd that are truly the "factory" of the bulls you see in this offering. Whether you are searching for a herd sire that will create exceptional replacements, progeny that will excel on the rail, or a combination of both, we feel we have a bull for your progressive operation.

Open and Bred Females

Without a doubt, this is an impressive offering of females. They come from the heart of the Spring Creek's replacement herd and are no doubt the kind that will earn the moniker of front-pasture females. Whether you are looking for stout-made, yet soggy purebred females, or Lim-Flex females with an extra show of maternal and marbling, these bred females are the type and kind to be foundation building blocks for the future. Bid with confidence, as the genetics backing this group of females are tried-and-true proven commodities in the Spring Creeks herd.

Here's a powerful female that stands on stout feet and legs. Spring Creek Lake House has nice muscle expression that ties down into her rear quarter with that extra power. She is straight in her lines with a clean front one-third and a strong top. This female represents years of disciplined breeding decisions and strict culling practices. Note, her top 1% CED and top 15% BW EPDs. Just imagine the future possibilities.

Check out this daughter of Wulfs Eisenhower 3616E. This broody looking female has a ton of eye appeal, is dense made with the added muscle, rib shape and a stout hip. Spring Creeks Lana 3007L is from a EXAR Denver daughter. She ranks in the top 5% for CEM, top 10% for both \$TPI and REA and top 15% for BW and CW. She has the structural integrity and easy-flushing ability to be a cornerstone female.

LIMOUSIN

Think

Docility & Calving Ease

"Docility and calving ease are the two number-one things for a commercial rancher. And the docility of the Lim-Flex is really great. But calving ease is top of the line. She has to be able to produce a calf without a lot of problems!" - *Shane Whiting, Commercial Cow/Calf Producer*

Feed Efficiency & Carcass Merit

"Using a Continental breed such as Limousin or Lim-Flex on a British-based cow herd gives you the best of both worlds – the maximum combination of a balance between gain, feed efficiency and carcass quality." - *Dr. Kee Jim, CEO of Feedlot Health Management Services*

Improved Marbling

"Genomic testing, breeder focus and the heritability of carcass traits have enabled all of us as seedstock producers to make rapid genetic gain in carcass quality. In fact, the marbling EPD value in our breed reflects an improvement of 0.25 to 0.35 for both Limousin and Lim-Flex, making them very comparable to other Continental breeds." - *Dan Hunt, Seedstock Cow/Calf Producer*
