Online Provider

Welcome to our 8th Annual Bull & Female Sale. It's an exciting time to be in the cattle business and the future looks bright. This set of genetics will help you capture all the benefits of the best beef markets in history.

We're excited to bring you our largest offering of bulls and females to date. The 54 bulls, 14 bred females and 8 opens represent the best Limousin, Lim-Flex and Angus genetics the breeds have to offer and represent the top genetics in our herd. We've worked hard for more than 30 years to bring you cattle that will complement and enhance your programs.

The hills and valleys of the SW Wisconsin driftless region give us an abundance of green grass and forage allowing us to raise feed efficient and athletic seedstock that is bred to work! We believe wholeheartedly that our genetics will make a difference for you.

As always, we have some incentives to assist you with your purchases. You have the option of paying 50% down on sale day on any bull over \$3,000. We will gladly keep any bull until April 1, 2026, or give you a \$50 dollar discount for hauling them home on sale day. We continue to guarantee the bulls as we have in the past.

Our operation made its way back to the National Western Stock Show in Denver this year. Our bulls performed and competed well, bringing us home a division and a reserve division award. Those bulls and their pen mates will highlight the offering.

Thank you for helping appraise our cattle. Buy with confidence; we've worked hard to be "Breed'n the Feed'n Kind!"

Sincerely,
Bob Mitchell & Family
Spring Creeks Cattle Company

Spring Creeks
CATTLE COMPANY

A Family PROGRAM

Spring Creeks Cattle Co. is a third-generation operation located in the heart of southwest Wisconsin. Over the years of raising kids and cows, our values that we initially founded the program on are still firmly intact – faith, family, beef industry fundamentals and customer relations.

To that end, one of the things we are most proud of is the relationships we've forged with our loyal customers base - many of which have been with us from the start and still trust us as their seedstock supplier of choice three generations later. We take the people side of the business very seriously and never take it for granted, that's why making sure customers are satisfied has always been a top priority at Spring Creeks Cattle Company.

It's our wish that you can find something of value in this sale offering and we look forward to working with both seedstock and commercial cattlemen alike. From our vantage point, we view each one of you as valued partners in the cattle business. Remember, you're not just investing in a bull or female but rather a family-oriented program built on years of CUSTOMER TRUST.

Leading off the sale is a member of our February pen of bulls at the 2026 National Western Stock Show. This February-born son of WZRK Klondike 4038K was a strong part of the Division IV Reserve Pen of Three. He truly backs his name up with real-world performance and balance. He posted a light 77 lb. actual birth weight, ratioing 92, then exploded to an impressive 747 lb. adjusted weaning weight for a 111 WW ratio, ranking near the top of his contemporary group. Genetically, he combines growth and efficiency with a \$TPI of 144.7 (top 15%), along with solid carcass indicators including added ribeye and competitive marbling potential. Take a look at his impressive Denver data including a whopping marbling scan of 6.53. Phenotypically, this bull is rugged and masculine with genuine muscle shape, depth of rib and a big square hip while staying flexible and correct on his feet and legs. His pedigree blends proven CELL influence with Klondike's performance punch, and he's backed by a productive Spring Creeks cow family anchored by Spring Creeks Kiara 2043K, known for soundness and consistency. A powerful, honest bull that offers both numerical credibility and eye appeal for progressive commercial or seedstock programs.

Here is a member of our Division V Champion Pen of Bulls at the National Western. This March-born Lim-Flex bull that combines calving ease, balance, and eye appeal with a pedigree stacked for consistency. He posted an 85 lb. actual birth weight, ratioing 91, and followed with a solid 641 lb. adjusted weaning weight for a 106 WW ratio, highlighting his ability to grow while staying practical. Sired by Wulfs Ka-Ching 0762K, this bull offers the attractive profile, sound structure and functional muscle shape the Ka-Ching progeny are known for. On paper, he brings added value with a \$TPI of 131.77 (top 25%), along with favorable calving ease and carcass balance. Phenotypically, Nice and Shiny is smooth made, clean fronted, and level designed with adequate rib and a sound, easy-moving stride. Backed by a productive Spring Creeks cow family, this bull is well suited for producers looking to add look, balance and dependable performance without sacrificing usability.

LOT 3

Denver Stats: REA: 14.40 • IMF: 4.09 • FAT: 0.40 • SC: 32

A later-March born bull that delivers a practical blend of performance, muscle and functional design. He recorded an 88 lb. actual birth weight, ratioing 96, and followed with a strong 651 lb. adjusted weaning weight for a 108 WW ratio, showing his ability to add pounds while maintaining calving ease usability. Genetically, this son of WZRK Klondike 4038K offers balance across the board with added muscle and rib shape, supported by solid carcass indicators including extra ribeye expression and competitive marbling potential. Phenotypically, No Match For Me is stout and square made with good depth of body, a level topline and a sound, athletic stride. His dam, Spring Crks Jill on the Hill, traces to productive, proven maternal lines known for consistency and longevity. A dependable, workhorse-type bull that brings honest growth, muscle and real-world functionality to the table. This member of our Division V Champion Pen of Bulls at the National Western has a lot of good to bring any operation.

Denver Stats: REA: 14.27 • IMF: 3.09 • FAT: 0.22 • SC: 32

Here is the final member of our Division Champion Pen of Bulls in Denver this year. A later March-born bull that combines exceptional calving ease, performance, and carcass merit in a balanced, functional package. He posted a light 61 lb. actual birth weight, ratioing 84, and still pushed to an impressive 705 lb. adjusted weaning weight for a 103 WW ratio, highlighting a rare blend of calving ease and growth. Numerically, this bull is hard to ignore—ranking top 10% for GEST, top 5% for WW, and top 10% for \$TPI, with a strong \$TPI of 155.09 that speaks to long-term profitability. Carcass indicators further support his value offering both muscle and quality grade potential. Sired by L7 Koko 2064K and backed by a productive Spring Creeks cow family, Now Entering is phenotypically smooth made, clean fronted and athletic with adequate rib and balance. A high-end, calving-ease option that still delivers performance and pay weight.

Denver Stats: REA: 17.01 • IMF: 3.37 • FAT: • 0.28 • SC: 36.5

Here is a member of our Division IV Reserve Champion Pen of Bulls at the 2026 NWSS. This early February-born bull blends calving ease, performance and carcass merit in a well-designed, efficient package. He came easy with an 84 lb. actual birth weight, ratioing 99, and followed up with a solid 696 lb. adjusted weaning weight for a 103 WW ratio. On paper, he offers a standout combination of functionality and end-product value, ranking top 15% for GEST and top 30% for YW, while excelling on the carcass side with top 2% CREA and top 1% YG, signaling added muscle expression and cutability. Take a look at his impressive 17.01 ribeye scan in Denver along with his 36.5 cm scrotal measurement. Sired by Wulfs Kar Ride 0618K, this bull is built right—square hiped, bold ribbed and athletic with good reach and flexibility. His dam, WFL Ms Kanada 242K, traces to a productive B-Bar cow family known for structural integrity and longevity. A complete, well-balanced herd bull prospect that checks the boxes for calving ease, carcass value and long-term usefulness.

Nice And Easy made the trip to Denver with us and was highly spoke of from those who visited our pen. This late-March born bull truly lives up to his name, offering an exceptional blend of calving ease, growth and carcass value. He came easy with an 88 lb. actual birth weight, ratioing 94, then surged ahead at weaning with a 659 lb. adjusted WW for a standout 109 WW ratio. Numerically, this bull is extremely competitive, ranking top 5% for GEST, top 15% for \$TPI with a strong \$TPI of 146.17, and excelling on the carcass side with top 20% yield grade and top 5% ribeye, adding both quality grade and yield potential. Sired by VL Hunker Down 003H and backed by a productive dam, SJMR Hallie Mae 004H, this bull is phenotypically sound, smooth made and balanced with good rib shape and an easy, athletic stride. A high-end option for producers seeking a calving-ease bull that doesn't give up performance or profitability.

LOT 6

LOT 7

Denver Stats: REA: 15.40 • IMF: 3.03 • FAT: 0.30 • SC: 35

This early February bull was a member of our Reserve Champion Division IV Pen of Bulls. Number 1 is sired by the widely used and highly regarded Wulfs Ka-Ching 0762K, a sire known for stamping cattle with eye appeal, structural correctness and a functional build that works in real-world settings. Ka-Ching progeny are consistently attractive from the side, sound on their feet and legs and carry muscle in an efficient, moderate package. Phenotypically, Spring Crks Number 1 follows that mold—clean fronted, square made and balanced with the kind of look that fits both seedstock and commercial operations. This bull offers an opportunity to tap into a proven, predictable sire group backed by the Spring Creeks program's focus on usable cattle that combine style, structure and performance-minded design.

A high-value Lim-Flex bull that combines calving ease, efficiency and elite economic merit in a balanced, attractive package. This March-born bull posted an 88 lb. actual birth weight and followed with a 686 lb. adjusted weaning weight, ratioing 100 in his contemporary group. Where Newly Crowned really separates himself is on the value side, ranking top 3% for \$TPI with a standout \$TPI of 168.95, making him a powerful option for producers focused on profitability and long-term returns. Sired by Spring Creeks Legend 9021L, he offers a proven blend of structural soundness and functionality, while his dam, Spring Creeks Lucille 3052L, traces to a deep, reliable cow family anchored by Boss Lake Ms Molly 812F ET influence—known for maternal strength and consistency. Phenotypically, this bull is smooth made, clean fronted and sound on the move with adequate muscle and a practical, efficient design. A well-rounded Lim-Flex prospect built to work in a wide range of production environments.

A February-born Lim-Flex bull combining muscle, growth and structure with an 89 lb. birth weight and a strong 701 lb. adjusted weaning weight. New High reads a balanced numeric profile with a top 2% DMI ranking, top 4% in docility, top 10% ranking in milk and marbling and top 20% yield grade. Sired by SYES Long John 188L, he brings added width and shape with a bold rib, square hip and a pedigree stacked with proven Spring Creeks maternal strength. His maternal grandmother coming from the famed Wulf program signals for impressive traits to be passed to his offspring. This bull brings his phenotypic and genotypic qualities together in a complete package that will transmit for years to come.

A powerful, high-performing purebred bull that blends growth, muscle, and structural integrity in a very complete package. This early February son of Wulfs Ka-Ching 0762K came easy with an 81 lb. actual birth weight, then pushed the scales down at weaning with a 731 lb. adjusted WW. He continues to read strong across the board with added shape and dimension, backed by carcass indicators that include top 3% YG and top 10% CREA, signaling extra muscle and cutability. Phenotypically, New Toy is rugged and masculine—big topped, square hiped, and bold ribbed—while remaining flexible and correct on the move. His dam, Spring Creeks Luna 3009L, traces to proven maternal lines known for longevity and consistency, adding confidence in his long-term production value. A stout, performance-driven herd bull prospect built to add pounds, muscle and pay weight.

WULFS KA-CHING 0762K • SIRE OF LOT 10

A stout, fall-born purebred bull that offers added maturity, power, and proven genetics built for real-world performance. Born in early September, he posted a strong 760 lb. adjusted weaning weight and followed with a 1,231 lb. adjusted yearling weight, highlighting his ability to grow and perform with added age advantage. He also recorded a solid 33.1 cm scrotal circumference, adding confidence in fertility and long-term usefulness. Sired by Wulfs Endeavor C703E, this bull carries a pedigree rooted in durability, soundness and consistency, with deep Wulfs influence stacked on both sides. Phenotypically, Mailman 39M is rugged and masculine with added bone, depth of rib and muscle expression. A dependable, power-oriented bull well suited for producers looking to add maturity, substance and proven genetics to their next calf crop.

%	65	30	45	65	75	50	60	70	

A rugged, fall-born purebred bull that offers added maturity, muscle and substance in a proven, no-nonsense package. Born in mid-September, he took advantage of the extra age, posting a 748 lb. adjusted weaning weight and a solid 1,236 lb. adjusted yearling weight, both ratioing 95, while also recording a 34.2 cm scrotal circumference for added confidence in fertility. Sired by Wulfs Endeavor C703E, this bull is backed by a pedigree stacked with time-tested Wulfs and SYES genetics known for durability, performance and real-world functionality. Phenotypically, Macho Nacho is big topped, bold ribbed and square hipped with added bone and muscle, yet remains sound and athletic on his feet and legs. A stout, power-oriented fall bull built to add substance, performance and longevity to commercial or seedstock programs.

A balanced, big-spread yearling Angus bull that blends calving ease, growth and maternal value in one practical package. This bull stacks multiple generations of proven Angus genetics noted for structure, udder quality and longevity. He posts a strong CED of 13 (Top 10%) with a favorable BW EPD of -1, making him a legitimate option for use on heifers or young cows without sacrificing performance. His growth profile remains solid with WW 69 and YW 116, while a SC EPD of 1.18 supports early maturity and fertility. Added value comes through carcass merit, ranking favorably for Marbling, Ribeye and \$G, while still maintaining balance in \$M, \$W and \$B. A sound, attractive Angus bull built for real-world functionality and long-term productivity.

%	55	25	45	15	10	35	25	30	20

A powerful, high-performing yearling Angus bull that blends elite growth, carcass merit and maternal strength into one impressive package. Sired by JFCC Delmonico and backed by the proven Tokach Erenetta cow family, this bull offers a rare combination of performance and pedigree depth. He excels for calving ease with a CED of 14 (Top 4%) and a BW EPD of -1.8 (Top 5%), while still driving growth with WW 75 and YW 125. Fertility and longevity are highlighted by a standout SC EPD of 1.65 (Top 10%) and strong HP and Milk values. On the carcass side, he ranks in the top quartile for Marbling with added ribeye and solid \$G, while posting elite dollar values across the board, including \$W, \$B and \$C. A big-ribbed, stout-made Angus bull with the data and pedigree to move a program forward—whether the goal is replacement females, feeder calves or grid-focused carcass value.

AI'd 6-5-25 to Wulfs Digits 3786D. Due approx. 3-12-26.

A productive, broody Lim-Flex female built with the kind of balance, structure and maternal consistency that defines the Spring Creeks cow herd. This 64% Limousin female is sired by the proven Wulfs Endeavor C703E and traces maternally to the dependable MAGS Winston line, stacking generations of fertility, udder quality and cow longevity. Mrs. Malibu offers a balanced genetic profile with CED 12 (top 30%), BW 0.6, and solid growth numbers, making her an easy-calving, problem-free cow prospect with real-world functionality. Structurally sound and feminine with depth of body and rib, this female is the kind that goes to work immediately—designed to raise high-quality calves year after year while anchoring a profitable, low-maintenance cow base.

PE'd 7-4-25 to 8-10-25 to Spring Creeks Wildcat 8574 (Angus). Due approx. 5-1-26.

A powerful, broody Limousin-influenced female that brings together elite growth, maternal strength and a pedigree stacked with proven performance sires. This 82% Limousin cow is sired by JBV Yellowstone 901G and traces back to influence from AHCC Earning Power 900E, giving her a foundation built on performance, muscle and real-world efficiency. She posts an impressive genetic profile with CED 5, BW 3.7, and standout growth figures, highlighted by YW 115 (top 25%) and ADG 1.43 (top 5%), making her a big-time performance-oriented female. Structurally sound with capacity, depth and femininity, Mrs Yellowstone is the kind of female designed to raise growthy, high-value calves while anchoring a forward-moving, performance-driven cow herd for years to come.

A big-time performance-driven Limousin-influenced female that brings together elite growth, carcass merit and a modern, high-powered pedigree. This 76% Limousin cow is sired by HUNT Credentials 37C ET and backed by a dam line rich in proven Wulfs and SYES genetics, giving her both consistency and real-world functionality. She posts an impressive genetic profile highlighted by YW 121 (top 15%), ADG 1.07 (top 25%), and strong carcass indicators, including CW 53 and a standout \$TPI 146 (top 15%). Her balanced maternal package, combined with elite terminal value, makes her a versatile female suited for producing high-performing feeder calves while still maintaining replacement-quality daughters. Deep-bodied, sound and powerfully constructed, Mix Up 4015M is the kind of cow that pushes a program forward—built to generate pounds, value and longevity in demanding commercial and seedstock environments alike.

PE'd 6-21-25 to 9-15-25 to Spring Creeks Jupiter 9147J.

A moderate, functional Lim-Flex female that blends maternal consistency, structural soundness, and a pedigree built for longevity and real-world productivity. This 33% Lim-Flex cow is backed by proven genetics including AHCC Angus Valley, MAGS Good Will, and a strong Erica cow family influence on the bottom side. She offers a balanced maternal profile with Milk 30, TM 61, and solid growth indicators with WW 62 and YW 96, making her well suited for producing efficient, easy-fleshing calves that hold their own from weaning through finishing. Her carcass merit adds value with CW 22, MARB 0.49, and a competitive \$TPI 90, while her balanced \$MPI and \$IPI further support her versatility in both maternal and commercial-focused programs. Sound, moderate-framed, and easy doing, Miss WFL 256K represents the kind of cow that quietly builds value year after year through consistency, fertility and dependable calf performance.

PE'd 6-21-25 to 9-15-25 to SYES Long John 188L.

A Lim-Flex female that blends maternal reliability, structural integrity and balanced performance genetics with added longevity. This 50% Limousin cow traces to the influential S A V Brilliance 8077 on the top side and is supported by a deep maternal stack including PVF Insight, Connealy Consensus and L7 cow families—names known for udder quality, fertility and staying power. She offers a well-rounded EPD profile highlighted by WW 66, YW 103 and solid maternal indicators with Milk 27 and TM 60, making her a dependable producer of functional, growth-oriented calves. Her carcass credentials add further value with CW 46, MARB 0.3 and a strong \$TPI 139, while her balanced \$MPI and \$IPI figures reinforce her versatility across both commercial and maternal-focused programs. Sound-made, easy fleshing and backed by proven genetics, Miss WFL 270K is the kind of cow that quietly does everything right.

A powerful, purebred Limousin female that brings together longevity, muscle expression, and a pedigree stacked with proven genetics. This Limousin cow is sired by Wulf's Ziplock N922Z and traces back to influential sires such as Wulfs Fifty, Wulfs Sirloin and Cole Wulf Hunt, anchoring her pedigree with structural integrity, performance and breed character. She offers a balanced and functional EPD profile with CED 10, BW 0.1, WW 61, and YW 87, making her well suited for producing growth-oriented calves while maintaining calving ease and efficiency. Her maternal strength is reinforced by Milk 30 and TM 60, while carcass value is supported by REA 1.03 and solid \$TPI credentials. Sound, deep-bodied and built with longevity in mind, Kate Elder 2006K represents the kind of purebred Limousin female that consistently adds value.

A deep-ribbed, moderate-framed open Limousin female that blends femininity, balance and long-term cow potential with a very practical build. Sired by SYES Long John 188L, this April-born red heifer is smooth made, level topped and sound on the move, with a body shape that suggests she will be easy fleshing and efficient as a mature cow. Her maternal side adds depth, structure and reliability, giving her the look of one that will maintain condition and raise a consistent, uniform calf year after year. Narrow Win offers excellent breeding flexibility, making her well suited for both maternal-focused programs and terminal matings, while her clean design and structural correctness keep her adaptable across a wide range of environments. This is the kind of open female that represents the future of a program—functional, good looking and built to stay productive for the long haul.

A bold-bodied, big-centered open purebred Limousin female that combines eye appeal, balance and long-term maternal promise. Sired by Wulfs Revolver 1219R and backed by a strong Wulfs and SYES-influenced cow family, Nellie 5080N is deep ribbed, sound structured and very feminine through her front end, with the kind of body shape that signals efficiency and longevity. She is the type that will mature into a powerful yet easy-fleshing cow, built to maintain condition and raise heavy, consistent calves year after year. Her pedigree brings together proven maternal strength, structural correctness and reliability, making her an excellent foundation female for purebred or progressive commercial programs. Nellie 5080N offers tremendous breeding flexibility and represents the kind of open female that defines the future of a cow herd—functional, attractive and built to work for the long haul.

A sharp-fronted, big-bodied open Angus heifer that combines eye appeal, athleticism and long-term cow potential in a very complete package. Sired by Boyd Justification and out of Spring Creeks Idoldee 1044, this female blends calving ease and structural integrity with added growth and maternal balance. She is level hipped, sound on the move and carries her depth of rib and body the right way, giving her the look of a female that will mature into an efficient, easy-keeping cow. Idoldee 5002 offers an impressive performance profile with WW 76 and YW 133, while still maintaining a moderate birth and a functional Milk 10.4 to support productive daughters. Her strong \$M foundation and added carcass merit, highlighted by \$B 175, provide flexibility across a wide range of breeding and marketing goals. This is the kind of open Angus female built for the future—attractive, adaptable and backed by a pedigree that supports longevity, fertility and real-world productivity.

A powerful, long-sided open Angus heifer that combines performance, rib shape and maternal depth with a pedigree stacked for cow longevity. Sired by Schiefelbein Top Gun 522 and out of Spring Creeks Rita 7214, this female brings together the added muscle, body, and presence Top Gun is known for with the proven maternal reliability of the Rita cow family. She is sound structured, bold sprung and built with the kind of balance and flexibility that allows her to thrive in a variety of environments. Rita 5013 posts strong growth numbers with WW 77 and YW 136 while maintaining a functional Milk 13, supporting future productivity without excess. Her carcass profile adds another layer of value, backed by CW 51 and a balanced \$B 156, offering flexibility for both replacement-driven and terminal-focused programs. This is an open Angus female with real-world look and substance—designed to mature into a durable, productive cow that will generate consistent, market-relevant progeny for years to come.

A feminine, clean-made open Angus heifer that combines calving ease, balance and maternal reliability with a pedigree built to last. Sired by Boyd Justification and out of Spring Creeks Rita 5034, this female blends the structural integrity and consistency of the Justification line with the proven productivity of the Rita cow family. She is smooth shouldered, level hipped and sound on her feet and legs, offering the kind of phenotype that translates into longevity and efficiency in the cow herd. Rita 5043 brings a user-friendly performance profile with CED 10, BW 0.2 and steady growth numbers, making her an excellent option for a wide range of mating strategies. Her Milk 11.4 supports functional maternal output, while her balanced carcass traits and solid \$B 152 add flexibility for future marketing decisions. This is a well-rounded, no-holes open Angus female—designed for producers who value fertility, structure and dependable production generation after generation.
