ACCOMMODATIONS

HAMPTION INN, Clinton, OK 580.323.4267
HOLIDAY INN, Atlus, OK. 580.482.1273
HOLIDAY INN , Clinton, OK 580.323.1950
THE DYER HOUSE, Hobart, OK 817.791.2406

TERMS & CONDITIONS

Cattle will sell under the standard terms and conditions of their respective breed association.

REGISTRATION & TRANSFERS

Within 60 days of the date of the sale, the cattle sold will be transferred (registrations) to the new owners. The fee is paid for by the seller.

PAYMENT

All lots must be paid for immediately following the conclusion of the sale unless prior payment arrangements have been made with a representative of the sale team. Buyers are welcome to pay by credit card. If so, you will be charged a 3% fee on the total sum of your purchase.

DELIVERY

Buyers are responsible for any shipping cost pertaining to embryo purchases and transportation of the live cattle. The Freeman team will work together with sellers to make this the easiest and most efficient process possible.

LIVESTOCK MORTALITY INSURANCE

Any representative of the sale team can assist any buyer with insurance regarding their purchases.

LIABILITY

All persons attending the sale, do so at their own risk, legal or otherwise for their safety. The seller, sale management, and sales staff assume no responsibility or liability for property loss or any accidents that may occur.

As we enter the final stages of preparation for our second Freeman Beef Genetics Red Label Production Sale on November 21, 2026, I can't help but reflect on how fortunate we are to be involved in agriculture here in Oklahoma.

Each day, it can be difficult not to dwell on the challenges we have endured over the past year. However, we choose to look forward and recognize the many blessings we are privileged to enjoy. 2026 has been a year filled with drought, excessive heat, and very little forage growth—all of which have presented significant challenges for the agricultural community, to say the least.

As we near the end of 2026, we are grateful for the life-giving rains that have returned. They have brought our winter wheat pastures to life, replenished many ponds and reservoirs throughout the area, and begun to heal our dry, cracked soil.

We are blessed to live in the United States, and even more blessed to serve a God who has entrusted us with the privilege of being among the 1% of Americans who farm and ranch. It is a privilege that allows us to provide food for our families, friends, and neighbors from the very earth He created.

We are proud of the cattle we are offering, and our family sincerely hopes you will join us to evaluate the offering and, hopefully, find something to add to your herd that will benefit you and your operation for years to come.

We look forward to seeing you on November 21, 2026!

SIRE, DUFF HD 2046

Here's a February-born female that brings an exciting combination of growth, substance and maternal potential to the spring heifer offering! FREE Lady Wideload 2625 is a stout-made, deep-bodied Red Angus heifer with tremendous rib shape, a strong topline and an attractive, balanced profile. Sired by Duff HD 2046, she carries the influence of Mann Red Box 55C and Duff Cita 4060 15522, while her dam, FREE Wideload Law 23093, combines Blair's External Law with the FREE Miss Wideload cow family. Beyond her impressive phenotype, 2625 offers an appealing set of growth projections, ranking in the top 15% of the breed for Weaning Weight and top 17% for Yearling Weight. That added growth potential, combined with her natural capacity and feminine design, makes her an intriguing prospect for breeders looking to build productive, performance-oriented females. A well-rounded young heifer with the pedigree, presence and genetic indicators to warrant serious consideration!

SIRE, DUFF CINCH 23270

A stylish young female with the kind of natural shape and quality that catches your eye, FREE Betsy 2609 is another exciting addition to the spring heifer offering! This February-born Red Angus female is exceptionally attractive in her design, combining a long, level topline, excellent rib shape, plenty of body depth and a smooth, feminine front end. Sired by Duff Cinch 23270, she brings together the genetic influence of Duff HD 2046 and Duff Lady 2X 1772 2085, while her maternal side traces to MF Fusion 8637 and the FREE Betsy cow family. Her balanced build, attractive profile and added capacity give her the look of a female with plenty of brood cow potential. With a pedigree that offers an interesting blend of genetics and the phenotype to complement it, FREE Betsy 2609 represents an excellent opportunity to invest in a young female with the foundation to become a valuable addition to any Red Angus breeding program!

Retaining the right to 2 IVF cycles at the buyer's convenience and the seller's expense.

AI'd 5/22/26 to Dahlke Rancher 214K. PE'd 5/25/26-7/20/26 to Natural Light Pop. Approximate due date 2/28/27.

An impressive combination of pedigree strength, maternal quality and eye appeal, FREE Amal 6061 2510 is a BLACK-hided Red Angus female that deserves a close look! Sired by Blair's External Law, a son of Duff Napoleon 232, she brings an attractive blend of extension, body and structural quality to the offering. This February-born female is especially appealing in her overall design, exhibiting tremendous depth of body, a bold rib shape and a smooth, extended front end. What makes 2510 particularly exciting is her maternal pedigree. She is a direct daughter of the influential Rojas Amal 6061 donor, bringing the proven Amal cow family to the forefront of this mating. With the added influence of PZC TMAS Firestorm 1800 ET, her pedigree combines recognizable genetics with tremendous potential for future production. Big-bodied, balanced and backed by a donor female with a meaningful place in the Freeman program, 2510 offers an opportunity to invest in maternal genetics with lasting value. One pedigree detail worth highlighting: Rojas Amal 6061 is a full sister to Rojas Rioja 6052 and Freeman previously featured her as a proven donor in its 2023 genetic offering. That makes her direct daughter 2510 especially interesting.

AI'd 5/7/26 to Dahlke Rancher 214K. PE'd 5/25/26-7/20/26 to cleanup bull group (RAAA: 5194945, 5290267, 5290268). Approximate due date 2/13/27.

A female with the kind of maternal look that makes you stop and take notice! FREE Surprise Power 2535 is a deep-bodied, easy-fleshing March-born female with an attractive combination of natural capacity, balance and femininity. She offers bold rib shape, a long, level topline and a smooth front end that gives her the look of a promising brood cow. Sired by Duff Fear Not 20123 22543, she carries the influence of Duff Fearless 20123 and Duff 3044A 17502, while her maternal pedigree introduces the Surprise Power cow family. Her dam, FREE Surprise Power 133-22, is a daughter of Duff Red Look 1974 and traces to FREE Power Take Off 5, creating an interesting blend of maternal genetics. With her attractive phenotype, practical body type and the potential to develop into a productive female, 2535 is one that deserves a close look on sale day!

AI'd 5/22/26 to Coleman Night Watch 9259. PE'd 5/25/26-7/20/26 to Natural Light Pop. Approximate due date 4/18/27.

An intriguing opportunity for Angus breeders looking to add maternal genetics to their program! FREE 2570 is a BLACK-hided daughter of Arrowhead and the 9277 donor, offering a pedigree connection worth studying. As a full sister to FREE 2566, she provides buyers with another opportunity to invest in this donor's influence. A maternal sibling to Eternal Law who sells as Lot 63. Whether you're looking to retain females, build consistency within your breeding program, or introduce a new maternal line, 2570 offers an interesting opportunity.

Retaining the right to 2 IVF cycles at the buyer's convenience and the seller's expense.

Here's a Red Angus female that brings an exciting combination of growth, maternal genetics and eye appeal to the offering! FREE Larkaba 62-H is an August 2020-born daughter of Bieber CL Energize F121, backed by Bieber CL Atomic C218 and the Bieber Adele cow family. Her maternal pedigree traces to Bieber Take 2 Z216 and the established Bieber Larkaba lineage, offering an attractive blend of recognizable Red Angus genetics. This impressive female is long-bodied, deep through her rib and bold in her center body, with a strong topline and a smooth, feminine front end. Her EPD profile is particularly noteworthy, ranking in the top 6% of the breed for ProS, top 10% for GridMaster, top 8% for yearling weight, top 4% for average daily gain and top 12% for calving ease maternal. That combination of growth potential, maternal indicators and overall genetic merit makes her an intriguing breeding piece. With an anticipated February calf following A.I. service to DUFF Cinch 23270 and exposure to FREE 55M, Larkaba 62-H is a female with plenty of opportunity ahead!

AI'd to DUFF Cinch 23270. PE'd to FREE 55M from 5/5/26–7/5/26. Approximate due date 3/6/27.

A female that deserves a second look, FREE Expectation 32K brings together an impressive maternal build, attractive phenotype and a pedigree with plenty of appeal! This daughter of Duff Red Look 1974 is exceptionally deep-sided and bold-ribbed, with a strong, level topline, added capacity and a beautifully balanced profile. Her pedigree combines the influence of Mann Red Box 55C and Duff Sky 1A 1637 with the maternal strength of the Expectation cow family, tracing through Rojas Rioja 6052 and Bieber Expectation 384C. What makes this female particularly intriguing is her genetic profile, highlighted by a top 8% Herdbuilder index, top 10% CED, top 8% BW, top 9% DMI and top 5% Stayability ranking within the breed! That combination of calving ease, maternal longevity indicators and eye-catching phenotype makes 32K an exciting breeding piece. With an estimated March calving date and exposure to DUFF Cinch 23270 and FREE 55M, she offers an excellent opportunity to add maternal value and genetic diversity to your program!

A true standout among the Black Angus offering, Eternal Law 9277 is a powerful herd sire prospect with the kind of presence and substance that commands attention! This impressive son of Blair's External Law combines exceptional body depth, tremendous rib shape, a bold top and an abundance of natural thickness in an attractive, well-balanced package. His pedigree brings together the influence of Duff Napoleon 232 and the highly regarded Bar-E-L Erica 74A, while his maternal side traces to S A V Raindance 6848 and the Lassie cow family. Backed by a pedigree rich in recognizable Angus genetics, 9277 offers an intriguing combination of maternal influence and eye-catching phenotype. With an impressive 1,879-pound weight and the added dimension and capacity he possesses, Eternal Law is the kind of bull that deserves serious consideration from breeders looking to add substance, quality and a commanding herd sire presence to their next calf crop.

COMMERCIAL COWS

LOTS 101-108

COMMERCIAL
RED ANGUS FEMALES
LOTS 101-104

Here is an opportunity to add young commercial Red Angus females to your program! This set of home-raised heifers will calve at approximatley 24 months of age. They have been pelvic measured with the outliers discarded. These red-hided females provide buyers with an option to expand their replacement female inventory. Red Angus genetics continue to be a popular choice among commercial cattlemen seeking maternal functionality and versatility, and this group offers the opportunity to incorporate that influence into your program. The breed's reputation for maternal efficiency, adaptability, and practical production makes these females an appealing option for cattlemen focused on developing a dependable cow base. Whether you're looking to increase cow numbers, develop your next generation of brood cows, or add to an established commercial herd, these females offer flexibility for a variety of operations. All have been AI'd to Dahlke Rancher 214K and were PE'd 5/25/26-7/20/26 to a group of Red Bulls (RAAA: 5194945, 5290267, 5290268).

COMMERCIAL
BLACK ANGUS FEMALES
LOTS 105-108

An excellent opportunity for cattlemen looking to build their herd with Black Angus females! This set of home-raised heifers will calve at approximatley 24 months of age. They have been pelvic measured with the outliers discarded. Black Angus genetics have long been valued for their versatility in production, and these females offer the opportunity to build upon that influence. These black-hided females offer buyers the chance to add the Angus influence to their program while keeping an eye toward future production. Whether you're expanding your cow numbers or strengthening the maternal foundation of your operation, these females offer plenty of possibilities. Building a productive cow herd starts with investing in the right females! For profit-minded producers, the opportunity to select multiple females from the same program can be especially valuable when working toward a consistent, uniform cow herd. All have been AI'd to Coleman Night Watch 9259 and were PE'd to Natural Light Pop.
