Five months safe bred to ELCX Next Hit 546N (LFM3522452) (42% Lim-Flex, DP/HB Silveiras Forbes x PBRS Impressive Charm)

ELCX Nettie 542N ET is a homozygous polled, double black Lim-Flex female that offers an interesting blend of Limousin muscle genetics and Angus maternal influence. Sired by KLS SULL Charmer ET and out of ELCX Elba 512A, a daughter of MAGS Winston, Nettie brings together the influence of TASF Crown Royal 960C ET and the proven Elba cow family. Her genetic profile offers a balanced combination of growth and carcass merit, with a 110 YW EPD, a positive 0.20 marbling EPD and a $TPI of 99.15. The maternal side of her pedigree adds another dimension of interest, making this young female an appealing breeding prospect for cattlemen looking to incorporate Lim-Flex genetics into their herd. A female with pedigree depth, breeding flexibility and the opportunity to build toward the future!

Five months safe bred A.I. 04.23 to ELCX High Time (P.E. 05.05 to 08.15.26 to ELCX 546N)

ELCX Nix 305N is a double-polled, homozygous black Lim-Flex female that brings together an appealing combination of maternal strength, carcass merit and generations of Edwards Land & Cattle Co. genetics. Sired by HWCB Eye of the Storm 406E, a son of ELCX Caesar 331C and FBFL Princess Kate 406C, she is out of ELCX Lasting 305L ET, a daughter of ELCX Kings Landing 599D ET and ELCX Extra Shot 702E ET. This young female offers a particularly noteworthy genetic profile, highlighted by an outstanding -0.28 Dry Matter Intake EPD ranking in the top 2% of the breed, providing an interesting opportunity for breeders focused on feed efficiency. Her 0.6 Birth Weight EPD ranks in the top 40%, while a 0.64 Ribeye Area EPD and 44 Carcass Weight EPD further complement her carcass credentials. Add a 68-pound actual birth weight, a $TPI of 122.32 ranking in the top 40%, and a pedigree backed by multiple generations of ELCX breeding, and you have a female with considerable genetic potential. Nix represents an opportunity for cattlemen looking to incorporate practical maternal genetics, feed efficiency and carcass value into their breeding programs. A young female with an interesting genetic foundation and the potential to become a productive addition to a progressive cowherd. Give this daughter of Eye of the Storm serious consideration on sale day!

Five months safe bred to ELCX Next Hit 546N (P.E. 04.24-08.06.26) (LFM3522452 42% Lim-Flex, DP/HB, Silveiras Forbes X PBRS Impressive Charm 1211J)

ELCX Nyce 507N is a double-polled, double black Lim-Flex female that offers a practical combination of calving ease, maternal genetics and breeding versatility. Sired by ELCX Just Me 126J ET, a son of ELCX Kings Landing 599D ET and AUTO Poem 273Y, she is out of ELCX 507H, a daughter of ELCX Caesar 331C and ELCX Zemmie 507Z. This young female represents several generations of Edwards Land & Cattle Co. breeding, bringing together established cow families with an emphasis on functional, productive genetics. Nyce offers an 11 Calving Ease EPD ranking in the top 40% of the breed, a favorable 0.7 Birth Weight EPD in the top 45%, and a 25 Milk EPD. Her 72-pound actual birth weight further complements her calving ease credentials. With a balanced blend of Limousin and Angus influence, Nyce presents an opportunity for cattlemen looking to develop dependable replacement females while maintaining the flexibility of Lim-Flex genetics. A young female backed by generations of ELCX breeding with the potential to become a productive member of a progressive cowherd. Give this daughter of Just Me a close look on sale day!

Six months safe bred to TASF Makin' Time 855M (P.E. 04.24 to 08.06.26) (74% Lim-Flex DP/HB Ratliff Killin Time x TASF Forever Classy)

ELCX Natavia 340N is a double-polled, homozygous black Lim-Flex female that brings together a strong concentration of Limousin genetics with the maternal influence of an established Edwards Land & Cattle Co. cow family. Sired by Riverstone Exodus ET, a son of TMCK Durham Wheat 6030X and HSF Your Fantasy, she is out of ELCX Fran 340F, a daughter of ELCX Bullet Proof 438B ET and PBRS Amy 340A. With 75% registered Limousin genetics, Natavia offers breeders an opportunity to incorporate additional Limousin influence into their cowherds while maintaining the versatility of a Lim-Flex female. Her EPD profile features a 26 Milk EPD ranking in the top 45% of the breed, a 0.59 Ribeye Area EPD, and a favorable -0.16 Yield Grade EPD ranking in the top 40%. Her 76-pound actual birth weight and 10 Calving Ease EPD further complement her genetic credentials. Backed by the Riverstone Exodus sire line and the maternal foundation of the ELCX Fran cow family, Natavia represents an interesting breeding prospect for cattlemen focused on Limousin influence, muscle development and practical maternal genetics. A young female with pedigree depth and the potential to become a productive addition to a progressive breeding program. Give this daughter of Riverstone Exodus serious consideration on sale day!

LOT 15A - ELCX Paul 520P, 10.13.26 bull sired by TASF Makin' Time 855M (74% Lim-Flex DP/HB Ratliff Killin Time x TASF Forever Classy)

ELCX Nellie 520N is a double-polled, homozygous black, 25% Lim-Flex female that represents an exciting combination of Angus show-ring influence and a proven Limousin maternal foundation. Born January 10, 2025, Nellie is sired by Silveiras Forbes 8088, a son of the renowned Silveiras Style 9303 and Collison Forever Lady 1622, bringing together the influence of Gambles Hot Rod, Dameron First Class and EXAR Blue Chip 1877B. Her dam is none other than AUTO Poem 273Y, a daughter of SAV Bismarck 5682 and MAGS Phantoms Prize. Poem has established herself as a productive breeding female, with 127 calves recorded from her daughters and an average adjusted weaning weight ratio of 101. Her own EPD profile features a 78 Weaning Weight EPD ranking in the top 15%, a 29 Milk EPD in the top 25%, and a 0.83 Ribeye Area EPD ranking in the top 20% of the breed. Nellie offers a unique opportunity to combine the Angus pedigree of Forbes with the established maternal influence of the Poem cow family. For breeders looking to incorporate Angus genetics while retaining a connection to a proven Lim-Flex foundation, Nellie presents an intriguing opportunity. A young female with pedigree distinction and the genetic background to generate interest well beyond sale day!

LOT 16A - 10.05.26 heifer sired by TASF Makin' Time 855M (74% Lim-Flex DP/HB Ratliff Killin Time x TASF Forever Classy)

ELCX Maggie 463M is a double-polled, double black, 54.5% Lim-Flex female that brings together an exciting combination of proven genetics, maternal strength and carcass merit. Sired by RATLIFF Jump Start 340J ET, a son of FWLY Can Do and the influential Riverstone Charmed, she is out of ELCX Extra Shot 702E ET, a daughter of the renowned Angus sire PVF Insight 0129 and AUTO Poem 273Y. This mating represents an intriguing blend of Limousin muscle and Angus maternal influence, backed by some of the most recognizable pedigrees in the breed. Jump Start offers a 29 Milk EPD ranking in the top 20% of the breed and a 0.98 Ribeye Area EPD, while Maggie's dam, Extra Shot, brings an impressive genetic profile of her own. Extra Shot ranks in the top 15% for Carcass Weight, top 10% for Ribeye Area, top 15% for $TPI and top 4% for $G. Add the maternal influence of AUTO Poem 273Y and the genetic foundation of Riverstone Charmed, and you have a young female with pedigree depth and considerable breeding potential. Maggie represents an opportunity for cattlemen looking to incorporate established cow families, muscle expression and carcass-oriented genetics into their breeding programs. A daughter of Jump Start with the pedigree credentials to attract serious attention and the genetic foundation to make a lasting contribution to a progressive cowherd. Study this one closely on sale day!

ELCC Natalie N522 is an exciting young Red Angus female that brings together an appealing combination of maternal strength, calving ease genetics and carcass merit. Sired by Red Diamond El Rey 102, a son of the influential MANN Red Box 55C and Collier Ruby 37, she is out of J6 Advance E501, a daughter of Six Mile Taurus 519A and JKC Berry Advance 36W. This mating combines the influence of Red Box, Six Mile Game Face and the legendary Red Fine Line Mulberry 26P, bringing together several highly recognizable bloodlines within the Red Angus breed. El Rey offers an impressive 33 Milk EPD ranking in the top 9% of the breed, a 14 Calving Ease Direct EPD in the top 39%, and a 16 Stayability EPD in the top 40%. On the maternal side, J6 Advance E501 contributes an interesting carcass-oriented genetic profile, ranking in the top 5% for Yield Grade, top 8% for Ribeye Area and top 6% for Fat Thickness. The combination of El Rey's maternal genetics and the established Six Mile and Mulberry influence of her dam makes Natalie an intriguing breeding prospect for cattlemen looking to build productive, functional Red Angus cowherds. A young female with pedigree depth, maternal potential and an opportunity to incorporate some of the breed's established genetics into the next generation. Give this daughter of El Rey serious consideration on sale day!

Four months safe bred to PBRS 3191 (RAA4832748) (P.E. 04.08 to 08.15.26) (LSF Identity x MF Poker Face daughter)

ELCC Nettie N468 is an intriguing young Red Angus female that brings together a strong combination of established Red Angus genetics, maternal influence and breeding potential. Sired by H/H Silent Majority 0248, a son of Red Six Mile Big Timber 654C and FFG Rebella 726, she is out of J6 Advance E501, a daughter of Six Mile Taurus 519A and JKC Berry Advance 36W. This mating combines the influence of Six Mile Tuff Enuf, Bieber Hard Drive and the legendary Red Fine Line Mulberry 26P, bringing together several recognizable names in the Red Angus breed. Silent Majority offers a 16 Stayability EPD ranking in the top 37% of the breed, while Nettie's dam, J6 Advance E501, brings a particularly interesting carcass profile with a -0.10 Yield Grade EPD ranking in the top 5%, a 0.38 Ribeye Area EPD in the top 8% and a -0.02 Fat EPD ranking in the top 6%. Add the influence of the Six Mile and Mulberry genetics on the maternal side, and you have a young female with an interesting genetic foundation. Nettie represents an opportunity for cattlemen looking to incorporate established Red Angus bloodlines, maternal potential and carcass-oriented genetics into their breeding programs. A young female with pedigree depth and the potential to develop into a productive member of a progressive Red Angus cowherd. Give this daughter of Silent Majority a serious look on sale day!

LOT 25A - ELCC Peter P467, 09.10.26 bull sired by Andras Fusion N236

ELCC Masquerade M467 is a young Red Angus female that brings together an exciting combination of growth, performance and carcass merit, backed by some of the most recognizable bloodlines in the breed. Sired by 4MC King of the Cowboys 706, a son of PIE The Cowboy Kind 343 and 4MC HVYWT 5163, she is out of J6 Advance E501, a daughter of Six Mile Taurus 519A and JKC Berry Advance 36W. This mating combines the performance-oriented influence of King of the Cowboys with the established Six Mile and Mulberry genetics found on the maternal side of her pedigree.

Masquerade's EPD profile offers plenty to appreciate, beginning with a 74 Weaning Weight EPD ranking in the top 26% of the breed, a 124 Yearling Weight EPD in the top 19% and an impressive 0.31 Average Daily Gain EPD ranking in the top 14%. Equally noteworthy are her carcass-oriented figures, including a -0.07 Yield Grade EPD ranking in the top 6%, a 0.37 Ribeye Area EPD in the top 13% and a -0.01 Fat EPD in the top 11%. These figures make for an interesting combination of growth potential and carcass composition.

Masquerade represents an opportunity for cattlemen looking to incorporate additional performance and muscle-oriented genetics into their Red Angus breeding programs. With the influence of King of the Cowboys on the top side and the maternal foundation of J6 Advance E501, this young female offers pedigree depth and a genetic profile worthy of serious consideration. Study the numbers, appreciate the pedigree and give this daughter of King of the Cowboys a close look on sale day!

Here is a mating that brings together championship phenotype, an exceptional maternal pedigree and an impressive combination of performance genetics. Sired by OPHM Mandate 86M, the 2026 Denver National Champion Lim-Flex Bull, these heifer embryos represent an exciting opportunity to incorporate national champion genetics into the next generation of elite Lim-Flex females. Mandate, a homozygous black, homozygous polled son of J6 We The People 411J ET, carries the influence of WLR Final Call ET, MJ Ms Dolly 17D ET and TMCK Element 479E. His numerical profile is highlighted by a top 15% ranking for yield grade, top 20% for ribeye area and a $TPI of 105.01, ranking in the top 15% of the breed.

The maternal side of this mating is equally exciting. ELCX Extra Special 701E ET, a daughter of the influential Angus sire PVF Insight 0129 and the proven AUTO Poem 273Y, combines the genetic influence of SAV Brilliance 8077, SAV Bismarck 5682 and MAGS Phantoms Prize. Extra Special offers an outstanding numerical profile, ranking in the top 10% for average daily gain and ribeye area, top 15% for yearling weight and calving ease maternal, and top 20% for weaning weight and total maternal. Her $TPI of 124.83 places her in the top 25% of the breed, further supporting the genetic potential behind this mating.

The real excitement lies in the opportunity to produce three heifer calves combining the championship credentials of Mandate with the growth, muscle, maternal strength and established Angus influence of Extra Special. With both parents genetically tested homozygous polled and Mandate homozygous black, these embryos offer the added attraction of expected homozygous polled, black offspring. This is the kind of mating designed with the future in mind, offering the potential to develop competitive show females and valuable donor prospects capable of making their own mark on the Lim-Flex breed.

Here is a mating that combines proven sire power with one of the most impressive numerical profiles in the Edwards Land & Cattle Co. donor lineup. FWLY Can Do, a son of RLBH Air Force One and the influential CLLL Crystal 334W, has established himself as a sire capable of producing cattle with performance and substance. His pedigree traces to EF Xcessive Force, WLR Direct Hit and AUTO Christy 8889R. His production record includes 188 progeny reported for birth weight, 93 for weaning weight and an impressive 153 daughters represented in maternal production records. With a top 25% ranking for weaning weight and top 20% for carcass weight, Can Do offers documented performance genetics.

On the maternal side, ELCX Extra Special 701E ET is truly a special breeding piece. Sired by the influential Angus sire PVF Insight 0129 and out of AUTO Poem 273Y, she combines the genetic influence of SAV Brilliance 8077, SAV Bismarck 5682 and MAGS Phantoms Prize. Her numerical profile is exceptional, ranking in the top 10% for average daily gain and ribeye area, top 15% for yearling weight and calving ease maternal, and top 20% for weaning weight and total maternal. She also records a $TPI of 124.83, ranking in the top 25% of the breed.

The opportunity to acquire three IVF heifer embryos from this mating should appeal to breeders focused on developing the next generation of productive, performance-oriented Lim-Flex females. With the established production record of Can Do and the outstanding combination of growth, maternal and carcass genetics represented by Extra Special, this mating offers tremendous potential to produce females capable of making a meaningful contribution to a progressive breeding program.

Here is a mating that deserves serious attention from anyone looking to create the next generation of elite show heifers and productive donor females. ROSE MC Encore 0463 brings together some of the most recognizable names in Angus show cattle genetics. Sired by SSF On Point 4028, a son of the influential Colburn Primo 5153 and Plum Creek Annie Lu 4472, Encore carries the genetic influence of Dameron First Class, Silveiras Saras Dream 1339 and Gambles Hot Rod. His dam, Burns Elba 1454, is a daughter of Plainview Lutton E102 and traces to BR Midland through the Burns Elba cow family. A pedigree assembled with generations of show-oriented Angus genetics.

On the maternal side is ELCX Kissed 206K ET, a daughter of HWCB Eye of the Storm 406E and the influential AUTO Poem 273Y. Her pedigree combines ELCX Caesar 331C, FBFL Princess Kate 406C, SAV Bismarck 5682 and MAGS Phantoms Prize. Kissed brings an appealing genetic profile to this mating, ranking in the top 25% for ribeye area, top 30% for calving ease maternal and top 35% for milk.

The excitement surrounding this mating is the opportunity to blend the eye appeal and show-ring-oriented Angus genetics of Encore with the added muscle, maternal influence and breed complementarity of Kissed. With three IVF heifer embryos selling, this is an opportunity to develop females with the potential to compete in the show ring and, more importantly, become valuable breeding pieces when their show careers are complete.

Here is an exciting opportunity to invest in the next generation of Lim-Flex females with a mating that brings together the proven influence of Ratliff Jump Start 340J ET and the maternal strength of ELCX Kissed 206K ET. Jump Start, a son of FWLY Can Do and the renowned Riverstone Charmed, offers a pedigree loaded with recognizable genetics, including RLBH Air Force One, CLLL Crystal 334W and TMCK Durham Wheat 6030X. His production record adds credibility to this offering, with 242 progeny recorded for birth weight, 93 for weaning weight and 40 daughters represented in maternal production records. His EPD profile includes a top 20% ranking for milk and top 35% for total maternal.

On the bottom side, ELCX Kissed 206K ET is a daughter of HWCB Eye of the Storm 406E and AUTO Poem 273Y, combining the influence of ELCX Caesar 331C, FBFL Princess Kate 406C, SAV Bismarck 5682 and MAGS Phantoms Prize. Kissed offers a desirable blend of maternal and carcass genetics, ranking in the top 25% for ribeye area, top 30% for calving ease maternal and top 35% for milk.

The real attraction here is the opportunity to produce females from a proven sire and a carefully assembled maternal pedigree. With Jump Start's established progeny record and the genetic foundation behind Kissed, these heifer embryos offer the potential to develop productive donor prospects, competitive show females and the kind of replacement females that can influence a breeding program

NATIONAL CHAMPION GENETICS MEET A PROVEN ELCX MATERNAL FOUNDATION!

An exciting opportunity to acquire genetics by the 2026 Denver National Champion Lim-Flex Bull, OPHM Mandate 86M, and out of the impressive ELCX Kissed 206K ET. Mandate, the homozygous black, homozygous polled son of J6 We The People 411J ET, combines national championship credentials with an impressive numerical profile, ranking in the top 15% for yield grade and top 20% for ribeye area.

On the maternal side, ELCX Kissed 206K ET represents a powerful combination of proven Limousin and Angus bloodlines. Sired by HWCB Eye of the Storm 406E, a son of ELCX Caesar 331C and FBFL Princess Kate 406C, she is out of the influential AUTO Poem 273Y, a daughter of the legendary Angus sire SAV Bismarck 5682 and MAGS Phantoms Prize. Kissed offers a balanced maternal and carcass profile, highlighted by a top 25% ranking for ribeye area, top 35% for milk and top 30% for calving ease maternal.

This mating brings together a nationally recognized sire and a maternal pedigree rich in established genetics. The combination offers exciting potential for muscle, structural quality, carcass merit and the kind of eye appeal that makes Lim-Flex cattle so desirable.

An intriguing genetic combination blending the muscle, performance and carcass merit of Limousin with the maternal influence and proven bloodlines of Red Angus. Sired by OPHM Mandate 86M, a homozygous polled, homozygous black son of J6 We The People 411J ET, backed by WLR Final Call ET and TMCK Element 479E. Mandate offers a compelling carcass profile, ranking in the top 15% for yield grade and top 20% for ribeye area, with a $TPI of 105.01.

On the maternal side is J6 Advance E501, a daughter of Six Mile Taurus 519A and out of a JKC Berry Advance 36W daughter, bringing the influence of Six Mile Game Face 164Y and the legendary Red Fine Line Mulberry 26P. E501 offers impressive carcass genetics, ranking in the top 5% of the Red Angus breed for yield grade, top 8% for ribeye area and top 6% for fat thickness.

Here is an opportunity to invest in a unique blend of two respected breeds, combining carcass-oriented genetics, muscle expression and the potential to produce functional, productive cattle. A mating with plenty of genetic intrigue and the opportunity to create something special for the next generation.

A NATIONAL CHAMPION WITH THE GENETICS TO BACK IT UP!

When the purple banners are handed out on the national stage in Denver, it takes an exceptional individual to rise to the top. OPHM Mandate 86M did just that, earning the prestigious title of 2026 Denver National Champion Lim-Flex Bull. This impressive son of J6 We The People 411J ET combines the influence of WLR Final Call ET and MJ Ms Dolly 17D ET on the paternal side, while his maternal pedigree brings together TMCK Element 479E and OPHM D38.

Mandate offers more than a championship pedigree and phenotype. His numerical profile is highlighted by a top 15% ranking for yield grade, top 20% for ribeye area and a $TPI of 105.01, ranking in the top 15% of the breed. His homozygous black and homozygous polled status adds further value and breeding flexibility.

Owned jointly by Edwards Land & Cattle Co. and Opheim Limousin, Mandate represents an opportunity to incorporate national champion genetics into your breeding program. Whether your goal is producing competitive show cattle, building a stronger genetic foundation or adding muscle and carcass merit to your next calf crop, OPHM Mandate 86M deserves your attention.

Owned with Opheim Limousin, Mound City, SD Tom Opheim, 605.845.8458
